Once Isis:

Once Upon a Time in Iraq James Bluemel, Renad Mansour, 2020-07-16 In war there is no easy victory When troops invaded Iraq in 2003 to topple Saddam Hussein's regime most people expected an easy victory Instead the gamble we took was a grave mistake and its ramifications continue to reverberate through the lives of millions in Iraq and the West As we gain more distance from those events it can be argued that many of the issues facing us today the rise of the Islamic State increased Islamic terrorism intensified violence in the Middle East mass migration and more can be traced back to the decision to invade Iraq In The Iraq War award winning documentary maker James Bluemel collects first hand testimony from those who lived through the horrors of the invasion and whose actions were dictated by such extreme circumstances It takes in all sides of the conflict working class Iraqi families watching their country erupt into civil war soldiers and journalists on the ground American families dealing with the grief of losing their son or daughter parents of a suicide bomber coming to terms with unfathomable events to create the most in depth and multi faceted portrait of the Iraq War to date Accompanying a major BBC series James Bluemel's book is an essential account of a conflict that continues to shape our world and a startling reminder of the consequences of our past decisions

The Iran House Kenneth R. Timmerman, 2024-10-29 Commenting on my 2022 memoir And the Rest Is History Dennis Prager said he wondered How many Kenneth Timmermans are there I seemed to have led multiple lives as a war correspondent investigative reporter human rights advocate and pro freedom activist I had been nominated for Congress taken hostage by terrorists and shared a journalism prize with Tucker Carlson I had even been nominated for the Nobel Peace Prize And while all of that is true there is another far more secretive side to my activities in the past thirty years It invariably began with a knock at the door the showing of creds and an earnest request Was I willing to help my government in its war against international terrorism What kind of question was that Of course I was I talked to people the US government couldn't talk to and they wanted that access So for many years and for multiple agencies I became an agent runner Some of my guys helped save American lives Their access to the inner reaches of the Islamist regime in Tehran exposed a dark story of treacherous collaboration with senior Democrat Party operatives that will stun readers and rock the 2024 presidential election His writing is eloquent his stories are captivating This book is a page turner Lady Brigitte Gabriel bestselling author founder author of See No Evil The Fourth Man and other books

nation than any attack we've yet faced. He then explains how our vulnerabilities were created, why our enemies are actively contemplating them, and what we can do to solve them before it's too late. *Failures of Imagination* offers a call to action for Americans to address these very real and present dangers and the need for the White House, whoever its occupant will be, to combat them with the seriousness and urgency they require. — *The Poetic Enigma of Alfred de Vigny* Denise Bonhomme, 2003

This book is devoted to the veiled message transmitted in the works of famous authors over a period of centuries. Esoteric literature is the massive body of Western and other writings containing a philosophical contraband ever the same under a deceptive variety of surfaces or veils. In the words of Marcel Proust, the great writers have never done but one work. Alfred de Vigny, a nineteenth-century poet, novelist, and playwright, belongs to the literary brotherhood involved in the transmission of the concealed message. Rabelais, Voltaire, Anatole France, Ibsen, and Proust are only a few of his fellow smugglers. English and American literatures have their share of such writers. So does the literary heritage of other European nations and of Latin America. This book contains a glossary of major key words of the verbal algebra used by esoteric writers. Sensitive readers are encouraged to read the biography and the glossary first and the poetry of Vigny next. This will enable some of them to discover by and for themselves the full beauty and depth of the texts. Extraordinary findings await the esoteric readers of the literary production of Vigny. There are hints of the greatness of Atlantis. There is a vast panorama of Time and Space. There are suggestions of a startling view of the inner structure of planet Earth, a view that is also reflected in the various utopias of classical authors. Last but not least, there is the generally unsuspected radiant reality of the works and the life of Vigny. Please visit www.degn.org. — **Saints and Soldiers** Rita Katz, 2022-10-11

Winner 2022 Nellie Bly Book Award, Chanticleer International Book Awards. More than a decade ago, counterterrorism expert Rita Katz began browsing white supremacist and neo-Nazi forums. The hateful rhetoric and constant threats of violence immediately reminded her of the jihadist militants she spent her days monitoring, but law enforcement and policy makers barely paid attention to the Far Right. Now, years of attacks committed by extremists radicalized online, including mass murders at a synagogue in Pittsburgh and mosques in Christchurch, New Zealand, as well as the Capitol siege, have brought home the danger. How has the internet shaped today's threats, and what do the online origins of these movements reveal about how to stop them? In *Saints and Soldiers*, Katz reveals a new generation of terrorist movements that don't just use the internet but exist almost entirely on it. She provides a vivid view from the trenches, spanning edgy video game chat groups to what ISIS and Far Right mass shooters in El Paso, Orlando, and elsewhere unwittingly reveal between the lines of their manifestos. Katz shows how the online cultures of these movements, far more than their ideologies and leaders, create today's terrorists and shape how they commit real-world violence. From ISIS to QAnon, *Saints and Soldiers* pinpoints the approaches needed for a new era in which arrests and military campaigns alone cannot stop these never-before-seen threats.
