Patient Betrayal:

Betrayal Salman Akhtar, 2018-05-01 Betrayal underlies all psychic trauma whether sexual abuse or profound neglect violence or treachery extramarital affair or embezzlement When we betray others we violate their confidence in us When others betray us they pierce the veil of our innocent reliance Betraying and feeling betrayed are ubiquitous to the scenarios of trauma and yet surprisingly neglected as a topic of specific attention by psychoanalysis This book fills this gap The first part deals with developmental aspects and notes that while the experience of betrayal might be ubiquitous in childhood its lack of recognition by the parents is what leads to fixation upon it Attention is also given to Oedipally indulged and seduced children who feel betrayed later in the course of their development Feelings of betrayal during early adolescence are also discussed This section of the book closes with an account of situations where our bodies betray us The realms of body image betrayal body self betrayal and the body's ultimate betrayal via physical death are addressed

underscored as an important ingredient of the clinical situation a lively spontaneity that partakes of the analyst's as well as the patient's creative self vitalizing the field of clinical engagement A full formulation of the analytic field must include awareness of the centrality of the erotic in the maternal matrix in ongoing development and in the clinical setting The erotic aesthetic dimension of the mind potentiates the creative interplay of the analytic process Written in an engaging and accessible style this original contribution makes complex theory available to psychoanalytic clinicians at all levels and to a wide range of readers while offering sophisticated theoretical and clinical innovations Elise addresses the need to engage multiple aspects of erotic life while maintaining a reliable professional boundary
