

PATIENT TREATMENT CONTRACT

Patient Name: _____ Date: _____

As a participant in buprenorphine treatment for opioid misuse and dependence, I freely and voluntarily agree to accept this treatment contract as follows:

1. I agree to keep and be on time to all my scheduled appointments.
2. I agree to adhere to the payment policy outlined by this office.
3. I agree to conduct myself in a courteous manner in the doctor's office.
4. I agree not to sell, share, or give any of my medication to another person. I understand that such mishandling of my medication is a serious violation of this agreement and would result in my treatment being terminated without any recourse for appeal.
5. I agree not to deal, steal, or conduct any illegal or disruptive activities in the doctor's office.
6. I understand that if dealing or stealing or if any illegal or disruptive activities are observed or suspected by employees of the pharmacy where my buprenorphine is filled, that the behavior will be reported to my doctor's office and could result in my treatment being terminated without any recourse for appeal.
7. I agree that my medication/prescription can only be given to me at my regular office visits. A missed visit may result in my not being able to get my medication/prescription until the next scheduled visit.
8. I agree that the medication I receive is my responsibility and I agree to keep it in a safe, secure place. I agree that a lost medication will not be replaced, regardless of why it was lost.
9. I agree not to obtain medications from my doctors, pharmacies, or other sources without telling my treating physician.
10. I understand that mixing buprenorphine with other medications, especially benzodiazepines (for example, Valium®, Xanax®, or Klonopin®), can be dangerous. I also recognize that several deaths have occurred among persons mixing buprenorphine and benzodiazepines (especially if taken outside the care of a physician, using routes of administration other than sublingual or in higher than recommended therapeutic doses).
11. I agree to take my medication as my doctor has instructed and not to alter the way I take my medication without first consulting my doctor.
12. I understand that medication alone is not sufficient treatment for my condition, and I agree to participate in counseling as discussed and agreed upon with my doctor and specified in my treatment plan. I agree to abstain from alcohol, opioids, marijuana, cocaine, and other addictive substances (excepting nicotine).
13. I agree to provide random urine samples and have my doctor test my blood alcohol level.
14. I understand that violations of the above may be grounds for termination of treatment.

Effective Patient Education Donna R. Falvo, 2004 Effective Patient Education helps health professionals and students develop the skills and knowledge to conduct effective patient education in a highly efficient way. It emphasizes a team approach to patient education recognizing that because of the complexity of health care many health professionals are involved in patient care. This book is therefore written for nurses, physicians, physical therapists, dietitians, pharmacists, and other health care professionals who share responsibility to guide their patients in enhancing and maintaining health and well-being. Effective patient education is a way of communicating that fosters a partnership between the patient and health professional. It involves more than giving information and instruction. In order to conduct effective patient education, health professionals must recognize that individual patient variables influence the degree to which a patient will follow health advice. The health professional can assess the patient's preexisting beliefs and attitudes, fears, and anxieties, and individual life and family circumstances in order to communicate health recommendations in accordance with individual patient needs.

Suicide Prevention Contracting, Stephen J. Edwards, 2013-12-11 In *Suicide Prevention Contracting: The Pitfalls, Perils, and Seven Safer Alternatives*, Edwards and Goj expose one of the biggest myths operating in health care and human services for forty years or more. This book will challenge clinicians and their superiors who see *Suicide Prevention Contracting (SPC)* as a state-of-the-art standard of care intervention. No medical or mental health care professional, educator, lawyer, or health and human services decision maker can afford to ignore what this book presents. A family of new clinical terms and interlinked concepts describing virtually every aspect of SPC is clearly articulated and ready for use in the workplace. Not until now has a book so simply yet comprehensively explained the widespread troubling practice of SPC. Written in an accessible narrative style, this landmark book presents vital information about a questionable suicide prevention intervention operating within this era of evidence-based practice and personal legal risk protection, and in doing so, offers seven safer alternative procedures.
