Patriarchal Attitude Eva Figes,1970      Patriarchal Attitudes Eva Figes,1970      *The Lesbian Revolution* Sheila Jeffreys,2018-09-03 The Lesbian Revolution argues that lesbian feminists were a vital force in the Women s Liberation Movement WLM They did not just play a fundamental role in the important changes wrought by second wave feminism but created a powerful revolution in lesbian theory culture and practice Yet this lesbian revolution is undocumented The book shows that lesbian feminists were founders of feminist institutions such as resources for women survivors of men s violence including refuges and rape crisis centres and that they were central to campaigns against this violence They created a feminist squatting movement theatre groups bands art and poetry and conducted campaigns for lesbian rights They also created a profound and challenging analysis of sexuality which has disappeared from the historical record They analysed heterosexuality as a political institution arguing that lesbianism was a political choice for feminists and indeed a form of resistance in itself Using interviews with prominent lesbian feminists from the time of the WLM and informed by the author s personal experience this book aims to challenge the way the work and ideas of lesbian feminists have been eclipsed and to document the lesbian revolution The book will be of key interest to scholars and students of women s history the history of feminism the politics of sexuality women s studies gender studies lesbian and gay studies queer studies and cultural studies as well as to the lay reader interested in the WLM and feminism more generally      Women and Revolution in Africa, Asia, and the New World Mary Ann Tétreault,1994 The contributors use a variety of theoretical approaches to analyze how women as a class have experienced specific twentieth century revolutions They identify the issues that prompted women to participate in the struggles the roles they played the contributions they made and their hopes for better lives for themselves as women in the post revolutionary society      *Women and Revolution* Marie Josephine Diamond,2013-06-29 Taking its starting point from women s contributions to the French revolution this important anthology goes far beyond any particular historical European or American context and expands its scope in space and time to an all inclusive global theme namely the contributions of radical women towards an ever changing world and its revolutionary transformations everywhere The superbly edited essays by diverse contributors from various continents and disciplines explore a wide platform of women s revolutionary involvements and elucidate the broad range of contributions by women scholars scientists and activists to movements of social transformation as well as to a reexamination of established methods of cultural analysis from enlightened liberalism to Marxism The contributions of women scholars and activists from Africa Asia and Latin America are particularly significant in that they transcend and expand European North American feminism as relevant primarily to its own socio cultural context and focus on women acting in terms of their own non Western traditions and cultures that is on non Western models based on indigenous strategies of social transformation This rich anthology shuns any postulation of a single global model for revolution Yet despite the emergence of a problematic relationship between Western or Western

educated theorists and the causes of the oppressed women's diverse social, cultural, and historical experiences and strategies are united in this edition as in their common causes as emphasized by the following statement in the introduction: the female body has become a privileged site for social analysis in the context of international capitalism as well as in the critique of traditional socialism. Sabine Jell Bahlsen Ogbuide, *Films, Women, and Revolution* covers an enormous socio-historical space: four continents (Europe, Africa, Asia, and Latin America) and quite a few countries within them. This huge field of human experience is looked at from the focal point which runs explicitly and implicitly through all nineteen chapters: the active (if not revolutionary) role women have played individually and collectively in various determining social situations, a role regularly suppressed by the coercive power of institutionalized domination. The impetus for this endeavor was the commemoration of the bicentennial of the French Revolution, an occasion to take an in-depth look at its less obvious agendas through a focus on the activity of women and on Olympe de Gouges in particular. But as Olympe de Gouges became acquainted with Mr. Guillotine, the considerable role of women became suppressed, not only actually but as a kind of *damnatio memoriae* which the old Romans had already invented. As this work shows, there have been multiple forms and contents through which women have taken history into their own hands and have participated in emancipatory struggles throughout the world. They are at their best in their use of the resources of local village traditions, of dense social contexts of mutual aid, and in turning such grassroots resources into radical democratic struggles for the future. A fascinating and timely book. Wolf Dieter Narr, Freie Universität Berlin. The vital role played by women in struggles for social transformation has scarcely been appreciated, and with the sense of defeat that hangs over the revolutionary project stands to be further forgotten. That is why the publication of *Women and Revolution* is both welcome and necessary on intellectual and scholarly grounds but also because these are stories which have to be told if we are to resume the march toward a better world. Joel Kovel, Bard College.

[The Berkeley Literary Women's Revolution](#) Marsha Hudson, Bridget Connelly, Doris Earnshaw, 2005. Even during the late 1960s, academia remained largely the province of men. That began to change at the University of California at Berkeley in 1969 when Marsha Hudson posted notices across campus proposing a feminist literary salon. The purpose was to discuss women's literature; a few female writers received passing notice in the classroom, but the multitude was either ignored or forgotten. The informal gatherings continued for years, growing into an activist movement that established the first Women's Studies major at Berkeley, helped produce the first major anthologies of women's poetry, and fought for equality and recognition in every corner of the education system. They risked their academic futures in the process, but the efforts of those women and others helped change the face and shape of higher learning forever. These 16 essays were written by members of Marsha's Salon and its successors: the Comparative Literature Women's Caucus, a group of female graduate students at UC Berkeley organized in 1969 by Marsha Hudson. The group met for years and helped lead the charge to bring sexual equality to all facets of education. These annotated essays recount the atmosphere of the time that made change necessary, the upheaval

brought about by the feminist revolution in education the direction that the movement took and the current state of feminist learning in academia An appendix features period letters and documents from group members regarding the need for changes at Berkeley as well as statistical information about women s studies and related subjects **Women of the Revolution** Kira Cochrane,2012-03-31 When hundreds gathered in 1970 for the UK s first women s liberation conference a movement that had been gathering strength for years burst into a frenzy of radical action that was to transform the way we think act and live In the 40 years since then the feminist movement has won triumphs and endured trials but it has never weakened its resolve nor for a moment been dull The Guardian has followed its progress throughout carrying interviews with and articles by the major figures chronicling with verve wit and often passionate anger the arguments surrounding pornography prostitution political representation power pay parental rights abortion rights domestic chores and domestic violence These are articles that in essence ask two fundamental questions Who are we Who should we be This collection brings together for the first time the very best of the Guardian s feminist writing It includes the newspaper s pioneering women s editor Mary Stott writing about Margaret Thatcher Beatrix Campbell on Princess Diana Suzanne Moore interviewing Camille Paglia and Maya Jaggi interviewing Oprah Winfrey there s Jill Tweedie on why feminists need to be vocal and angry Polly Toynbee on violence against women Hannah Pool on black women and political power and Andrea Dworkin writing with incendiary energy about the Bill Clinton sex scandal Lively provocative thoughtful and funny this is the essential guide to the feminist thinking and writing of the past 40 years the ultimate portrait of an ongoing revolution
