Pattern Of Sino American Crises:

The Pattern of Sino-American Crises J.H. Kalicki, 1975-04-24 This book originally published in 1975 is a study of Sino American crises in the 1950s *Managing Sino-American Crises* Michael D. Swaine, 2006 The Taiwan Strait The Korean War Vietnam The bombing of the Chinese Embassy in Belgrade The Sino U S aircraft collision incident U S China relations have witnessed significant tensions and conflict over the years Sensitivities and suspicions between Washington and Beijing have heightened as China's global power and influence have grown Arguably this new international order could increase the chances of a political military crisis or perhaps outright conflict between the two powers *Managing Sino American Crises* brings together Chinese and American officials and participants in past confrontations as well as scholars from both countries to explore the changing features of crisis behavior and their implications for defusing future encounters Using both conceptual analysis and historical case studies this authoritative volume identifies specific problems and opportunities that will likely confront both countries in the future The authors propose recommendations that will improve the effectiveness of U S China crisis management skills Contributors include Wang Jisi Peking University Zhang Baijia Central Committee of the Chinese Communist Party Richard Weitz Hudson Institute Robert L Suettinger Technology Inc Dennis C Blair Institute for Defense Analyses David V Bonfili Institute for Defense Analyses Xu Hui National Defense University Kurt M Campbell Center for Strategic and International Studies Jonathan Wilkenfeld University of Maryland Xia Liping Shanghai Institute for International Studies Allen S Whiting University of Arizona Wu Baiyi Chinese Academy of Social Sciences Niu Jun Peking University and Zhang Tuosheng China Foundation for International and Strategic Studies **Bridging the Sino-American Divide** Mei Renyi, 2009-05-27 Within China the discipline of American Studies spans a wide variety of concerns and preoccupations reflecting its practical diversity in a transnational setting Essays in this volume by close to forty scholars the majority most of them based in mainland China reflect on the past history and current teaching of American Studies within China placing these in comparative perspectives The nature of globalization the transmission of ideas and practices across cultural boundaries the formulation and meaning of identity in cross national communications constitute major themes in contemporary American Studies in China For officials and commentators alike the past present and future state of Sino American relations are also an overriding preoccupation of China's America watchers Overall this collection allows the reader to sample and appreciate the state of the field of American Studies in today's China Assessing the Threat: The Chinese Military and Taiwan's Security , Since at least the early 1950s the entire Asia Pacific region has struggled with the complicated and complex relationship between China and Taiwan today the Taiwan question is considered a potential flashpoint for a much larger international conflict Bringing together experts from the United States and Taiwan *Assessing the Threat* provides a comprehensive look at the dangers of military escalation in the Taiwan Strait the latest advances in capabilities of the People's Liberation Army and China's security relationship with the United States and the Asia Pacific

There is increasing concern that Beijing is steadily shifting the balance of power across the Taiwan Strait in its favor. Recent advances in Chinese air and naval power along with changes in PLA doctrine have the potential to weaken deterrence and destabilize the cross strait military balance. At this critical juncture there is no question that this issue requires sustained detailed analysis and that many measures can and should be taken to reduce the threat of conflict between China, Taiwan and the United States. Assessing the threat offers such analysis as well as concrete suggestions and crisis management practices for government and military leaders in Washington, D.C., Beijing and Taipei.

Problems of Communism, 1979

Double-Edged Sword Appu K. Soman, 2000-08-30. An examination of the political and diplomatic role of American nuclear weapons in conflicts with a non nuclear China in the Korean War and the Taiwan Strait crises of 1954, 1955 and 1958. This study analyzes the American tendency to become involved in confrontations with far weaker powers over issues of very little strategic significance to the United States. Washington threatens these adversaries with the use of incommensurate levels of force then ultimately backs down in the face of international and domestic opposition to ill considered plans to use force. Unlike works on nuclear history that have either focused on superpower nuclear conflicts and ignored cases of American nuclear diplomacy toward non nuclear adversaries or those that have focused merely on the outcomes of nuclear threats against non nuclear powers, this book considers in depth American nuclear diplomacy toward China during the whole period of Sino American military confrontations. Soman offers new insights on Truman's decision to enter the Korean War, the extent of nuclear diplomacy during the war and the way in which the war ended. He argues that the goal of American nuclear diplomacy in the spring of 1955 was to provoke a war with China rather than to deter a Chinese attack on Taiwan. Finally he lays out for the first time in print the elaborate diplomacy that Secretary of State John Foster Dulles initiated to defuse the 1958 crisis involving a major shift in American policy that still remains hidden from the public as well as historians. Highlighting the central role of nuclear diplomacy in these crises, this book draws conclusions on the efficacy of such diplomacy, the impact of these crises on the development of policies of massive retaliation and limited war, the consequences of Dulles's brinkmanship and the revival of nuclear diplomacy by the Clinton administration in conflicts with non nuclear adversaries.

Crisis and Commitment Robert Accinelli, 2017-11-01. This analytical study examines in comprehensive detail the making of the American military and political commitment to Taiwan during the first half of the 1950s. Starting with President Truman's declaration in January 1950 that the United States would not militarily assist Taiwan's Nationalist Chinese government, Robert Accinelli shows why Washington subsequently reversed this position and ultimately chose to embrace Taiwan as a highly valued ally. Accinelli analyzes this critical reversal within the context of shifting international circumstances and domestic developments such as McCarthyism and the Truman-MacArthur controversy. In addition to describing the growth of a close but uneasy relationship between the United States and the Nationalist regime, he focuses on the importance of the Taiwan issue in America's relations with the People's Republic of China and Great Britain. He concludes

his study with an analysis of the 1954-55 confrontation between the United States and China over Quemoy and Matsu and other Nationalist held offshore islands According to Accinelli neither the Korean War nor the Indochina War divided the United States and China more fundamentally during this period than did the issue of U S Taiwanese relations Originally published in 1996 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value

China and the Major Powers in East Asia A. Doak Barnett, 2001-09-19 The foreign policy of the People's Republic of China has been dominated in recent decades by the problems of dealing with the other major powers in East Asia Although many ideological political and economic aims have shaped particular Chinese policies Peking's dominant concern has been national security Since the late 1960s its leaders have viewed the Soviet Union as the primary threat to China and have pursued a distinctive Maoist balance of power strategy against it China's post Mao leaders continue to give priority to strategic considerations and the problems of relations with the other major powers It cannot be assumed however that they will simply continue past policies The recent changes both within China and in the broad pattern of international relations in East Asia have created a new situation In this study A Doak Barnett analyzes in detail China's bilateral relations with the Soviet Union Japan and the United States He also examines the changing nature of the four power relationship in East Asia On this basis he discusses possible future trends in Chinese policy and the prospects for achieving a more stable regional equilibrium

Asia and the Road Ahead Robert A. Scalapino, 2023-04-28 Asia and the Road Ahead Issues for the Major Powers examines the foreign policy trends and challenges facing six key Asian Pacific societies Japan the People's Republic of China India Indonesia the Soviet Union and the United States Organized into five regions Pacific Ocean Northeast Asia the Continental Center Southeast Asia and South Asia the study explores domestic influences on foreign policy and highlights the interconnectedness of these regions While acknowledging the fluidity and uncertainties of contemporary global politics the author argues for continued U S engagement in the Asian Pacific world cautioning against isolationism in the wake of America's defeat in Indochina The work advocates periodic reassessment of foreign policy priorities balancing economic political and military tools to address evolving challenges Drawing on decades of experience including 26 trips to the Soviet Union and Asia since World War II the author incorporates insights from numerous experts and sources including a January 1974 Foreign Affairs article on China While the work reflects the author's personal convictions it incorporates contrasting perspectives to provide a comprehensive analysis The collaborative input from academic peers and field experts further enhances the depth of this study making it a valuable resource for understanding the complexities and alternatives shaping the future of the Asian Pacific region This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on

a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1975 **The Myth of War in the Taiwan Strait** Taiyi Sun,Dennis Lu-Chung Weng,2024-12-15 The Myth of War in the Taiwan Strait Elite Perspectives from Beijing Taipei and Washington amid the Yizhou Dilemma proposes a new framework of the Yizhou dilemma to capture the conundrum faced by a hegemony the U S a rising power Mainland China and the weaker third entity Taiwan crucial to the rising power s ascendance Taiyi Sun and Dennis Lu Cheng Weng drawing evidence from the assessments and perceptions of directly involved elites from Beijing Taipei and Washington argue war is not imminent yet action or inaction by each party could potentially lead to detrimental outcomes For the rising power overexpansion incurs significant costs but restraint makes it unable to attain major power status Consequently low cost symbolic shows of force are more likely than a full invasion of the third entity For the strategically vital yet relatively weaker entity asserting autonomy and independence to put up a fight would risk escalating tension and trigger aggressive behaviors from the rising power Yet maintaining the status quo would allow the rising power to continue strengthening itself so that a coerced unification unfavorable to the weaker entity could become more probable For the hegemony leaving more looming challenges elsewhere unresolved could diminish the power of the hegemony but getting involved leads to even more challenges
