Patterns Of Kingship And Authority In Traditional Asia:

Patterns of Kingship and Authority in Traditional Asia I. W. Mabbett, 2024-11-01 There has been a tendency to neglect the political life of Asia in favour of religious and aesthetic considerations The myth of the changeless East dies hard Few people are aware that the earliest legislation for the rights of the common man go back to the Sumerians and that outlines for a social contract were drawn up by Indian Buddhists two thousand years before Locke and Rousseau First published in 1985 *Patterns of Kingship and Authority in Traditional Asia* provides an excellent survey of traditional Asian ideas of government from the earliest kingdoms of the Sumerians and the Egyptians to the time when Western influence first made itself felt Each chapter is written by a specialist on a particular country or region of Asia who seeks to identify some of the essential features of its traditional royal or imperial authority Particularly fascinating is the way in which traditional institutions continue to have a vital influence upon Asian countries The serious reader will obtain a clear outline of traditional Asian ideas and systems of government and will indirectly acquire a deeper understanding of other aspects of Asian civilisations *Patterns of Kingship and Authority in Traditional Asia* Ian W. Mabbett, 1985 The outcome of a symposium held at the first biennial conference of the Asian Studies Association of Australia in Melbourne in August 1975

Vietnamese Supernaturalism Thiệu Đỗ, 2003 Popular religion in southern Vietnam is so often regarded as an indefinable mix of many different beliefs meanings and symbols with little pattern of explanation In contrast this book highlights that the beliefs of the Vietnamese can be categorized into four distinct yet overlapping spheres and that the varying attitudes which exist towards the spirit world are a direct result of unique historical and environmental circumstances Vietnamese Supernaturalism examines a wide range of religious customs from trance possession practices to styles of self cultivation against several different backgrounds including migration settlement and the effect of colonialism Despite the ostensible differences within the practices of popular religion Thien Do controversially demonstrates two consistent similarities an abiding interest in the altered state of consciousness and the daily acts of survival employed in order to evade identity construction By bringing together oral histories reports and fiction writing alongside more conventional documented sources this book reveals an area of history which has been largely neglected It will prove to be a valuable resource to students of Asian studies anthropology and all of those with an interest in the history of Vietnam The

Law and Development in East and South-East Asia Christoph Antons, 2005-10-05 During the 1980s and 1990s Asian developmental states attracted much attention in political science and economics literature but the role of law in the economic development was neglected It was only after the Asian crisis of 1997 that many analysts began to focus on a lack of regulation and transparency as a major factor triggering the crisis The crucial questions now are how successful the current reforms will be and which features of the Asian approach to commercial law will be resistant to reform pressures This book examines the prospects for commercial law reform in Asia giving particular attention to Japan and Singapore as frequently cited role models for Asian developmentalism and also examining development related business laws in countries such as China Korea Indonesia Malaysia Vietnam and the Philippines
