Patterns Of Moral Complexity:

Patterns of Moral Complexity Charles E. Larmore, 1987-01-30 Discusses three forms of moral complexity that have often been neglected by moral and political philosophers Virtue is dependent upon judgment liberalism does not necessarily inform private life and morality must needs be heterogeneous **Patterns of Moral Complexity** Charles Everett Larmore, 1922

Perfectionism and Neutrality George Klosko, Steven Wall, 2004-09-01 Over the past twenty years the debate between neutrality and perfectionism has been at the center of political philosophy Now *Perfectionism and Neutrality* Essays in Liberal Theory brings together classic papers and new ideas on both sides of the discussion Editors George Klosko and Steven Wall provide a substantive introduction to the history and theories of perfectionism and neutrality expertly contextualizing the essays and making the collection accessible to everyone interested in the interaction between morals and the state Virtue John W. Chapman, William Arthur Galston, 1993-08 In the United States there exists increasing

uneasiness about the predominance of self interest in both public and private life growing fear about the fragmentation and privatization of American society mounting concerns about the effects of institutions ranging from families to schools to the media on the character of young people and a renewed tendency to believe that without certain traditional virtues neither public leaders nor public policies are likely to succeed In this thirty fourth volume in *The American Society of Legal and Political Philosophy* a distinguished group of international scholars from a range of disciplines examines what is meant by virtue analyzing various historical and analytical meanings of virtue notions of liberal virtue civic virtue and judicial virtue and the nature of secular and theological virtue The contributors include Jean Baechler University of Paris Sorbonne Annette C Baier University of Pittsburgh Ronald Beiner University of Toronto Christopher J Berry University of Glasgow J Budziszewski University of Texas Charles Larmore Columbia University David Luban University of Maryland Stephen Macedo Harvard University Michael J Perry Northwestern University Terry Pinkard Georgetown University Jonathan Riley Tulane University George Sher University of Vermont Judith N Shklar Harvard University Rogers M Smith Yale University David A Strauss University of Chicago and Joan C Williams American University *Liberalism and Its Discontents* Patrick Neal, 2016-07-27 In these essays the reigning models of liberal political theory of John Rawls and Joseph Raz are immanently criticized Neal argues that neither political nor perfectionist liberalism adequately gives expression to the liberal spirit Surprisingly Neal finds resources for the expression of such a spirit in the much maligned tradition of Hobbesian or vulgar liberalism He argues that a turn in this direction is necessary for the articulation of a liberalism more genuinely responsive to the diversity of modes of life in the twenty first century *Religious Conviction in Liberal Politics* Christopher J. Eberle, 2002-05-02 What role should a citizen's religious convictions play in her political activities Is she for example permitted to decide on the basis of her religious convictions to support laws that criminalize abortion or discourage homosexual relations Christopher Eberle is deeply at odds with the dominant orthodoxy among political theorists about the

relation of religion and politics His argument is that a citizen may responsibly ground her political commitments on religious beliefs even if her only reasons for her political commitments are religious in nature His ideal of citizenship allows citizens to engage in politics without privatizing their religious commitments and yet does not license mindless and intransigent sectarianism An inherently controversial book that offers a substantial challenge to political liberalism it will be read by students and professionals in philosophy political science law and religious studies and general readers seeking insight into the relationship between religious commitments and liberal politics

International Law and the Possibility of a Just World Order Steven V. Hicks, 2021-11-15 **Foundations of Liberalism** Margaret Moore, 1993-02-18 This book is an original critique of contemporary liberal theories of justice focusing on the problem of how to relate the personal point of view of the individual to the impartial perspective of justice Margaret Moore's examination of prominent contemporary arguments for liberal justice reveals that individualist theories are subject to two serious difficulties the motivation problem and the integrity problem Individualists cannot explain why the individual should be motivated to act in accordance with the dictates of liberal justice and related to this offer radically incoherent accounts of the person Revisionist liberal attempts to ground liberalism in contextual and perfectionist terms offer more defensible foundations but Dr Moore argues that such theories do not support liberal political principles She concludes by sketching a historical and concrete approach to political and ethical theorizing which reformulates the relation between self interest and morality and is not subject to the problems that beset liberal individualist theories of justice Her book advances the debate between communitarians and liberals about the kind of moral foundation which a liberal society requires

Conscience and Community Andrew R. Murphy, 2009-03-02 Religious toleration appears near the top of any short list of core liberal democratic values Theorists from John Locke to John Rawls emphasize important interconnections between the principles of toleration constitutional government and the rule of law Conscience and Community revisits the historical emergence of religious liberty in the Anglo American tradition looking deeper than the traditional emergence of toleration to find not a series of self evident or logically connected expansions but instead a far more complex evolution Murphy argues that contemporary liberal theorists have misunderstood and misconstrued the actual historical development of toleration in theory and practice Murphy approaches the concept through three myths about religious toleration that it was opposed only by ignorant narrow minded persecutors that it was achieved by skeptical Enlightenment rationalists and that tolerationist arguments generalize easily from religion to issues such as gender race ethnicity and sexuality providing a basis for identity politics

Reconstructing Post-Nationalist Liberal Pluralism K. Smits, 2005-12-09 This book examines liberal theory's attempts to accommodate pluralism asking two fundamental questions 1 How and why have theorists based their defences and proposed revisions of liberal pluralism upon particular and contestable definitions of what is the relevant and significant plurality 2 Can a revised liberal pluralism account for the political significance of sub national identity group membership
