Roland Robertson

Patterns Of Modernity Volume 1 The West:

Globalization Roland Robertson, 1992-07-27 A stimulating appraisal of a crucial contemporary theme this comprehensive analysis of globalization offers a distinctively cultural perspective on the social theory of the contemporary world This perspective considers the world as a whole going beyond conventional distinctions between the global and the local and between the universal and the particular Its cultural approach emphasizes the political and economic significance of shifting conceptions of and forms of participation in an increasingly compressed world At the same time the book shows why culture has become a globally contested issue why for example competing conceptions of world order have political and economic consequences

Judaism Within Modernity Michael A. Meyer, 2001 A collection of articles most of them published previously The following deal with antisemitism

Modernity in Islamic Tradition Florian Zemmin, 2018-07-23 What does it mean to be modern This study regards the concept of society as foundational to modern self understanding Identifying Arabic conceptualizations of society in the journal al Manar the mouthpiece of Islamic reformism the author shows how modernity was articulated from within an Islamic discursive tradition The fact that the classical term umma was a principal term used to conceptualize modern society suggests the convergence of discursive traditions in modernity rather than a mere diffusion of European concepts

Jewish History and Jewish Memory Yosef Hayim Yerushalmi, 1998 Publication of Yosef Yerushalmi's Zakhor in 1982 inspired a generation of scholarly inquiry into historical images and myths the construction of the Jewish past and the making and meaning of collective memory Here eminent scholars in their respective fields extend the lines of his seminal study into topics that range from medieval rabbinics homiletics kabbalah and Hasidism to antisemitism Zionism and the making of modern Jewish identity Essays are clustered around four central themes historical consciousness and the construction of memory the relationship between time and history in Jewish thought the demise of traditional forms of collective memory and the writing of Jewish history in modern times

The Politics of Postmodernity John R Gibbins, Bo Reimer, 1999-07-06 What happens to politics in the postmodern condition The Politics of Postmodernity is a political tour de force that addresses this key contemporary question Politics in postmodernity is carefully contextualized by relating its specific sphere the polity to those of the economic social technological and cultural The authors confront globalization and the notion of postmodernity as disorganized capitalism They analyze the role of the mass media the changing ways in which politics is used the role of the state and the progressive potential of politics in postmodern times Closing with a postscript on the future of the discipline of political science this book offers a profound yet highly accessible account

Rethinking Modernity Gurinder K. Bhambra, 2023-02-16 The second edition of this influential book addresses how the experiences and claims of non European others have been rendered invisible to the standard narratives and analytical frameworks of sociological understandings of modernity In challenging the dominant Euro centred accounts of the emergence and development of modernity Bhambra puts forward an argument for connected histories in the reconstruction

of historical sociology at a global level This updated version of the original published in 2007 adds a new preface which explores key themes that Bhambra has further developed over the intervening years specifically how the rethinking of modernity enables us to reconstruct sociology and a call for a reparatory sociology committed to the repair of the social sciences and the securing of global justice Modern Greek Lessons James D. Faubion,1995-10-30 Through a blend of lively detail and elegant narration James Faubion immerses us in the cosmopolitan intellectual life of Athens a centerless city of multiplicities and fragmentations a city on the margins of Europe recovering from the repressive rule of a military junta Drawing inspiration from Athens and its cultural elite Faubion explores the meaning of modernity finding it not in the singular character of Western civilization but instead in an increasingly diverse family of practices of reform The Meanings of Social Life Jeffrey C. Alexander,2003-09-18 In *The Meanings of Social Life* Jeffrey Alexander presents a new approach to how culture works in contemporary societies Exposing our everyday myths and narratives in a series of empirical studies that range from Watergate to the Holocaust he shows how these unseen yet potent cultural structures translate into concrete actions and institutions Only when these deep patterns of meaning are revealed Alexander argues can we understand the stubborn staying power of violence and degradation but also the steady persistence of hope By understanding the darker structures that restrict our imagination we can seek to transform them By recognizing the culture structures that sustain hope we can allow our idealistic imaginations to gain more traction in the world A work that will transform the way that sociologists think about culture and the social world this book confirms Jeffrey Alexander's reputation as one of the major social theorists of our day *Rethinking Modernity* G. Bhambra,2007-04-11 Arguing for the idea of connected histories Bhambra presents a fundamental reconstruction of the idea of modernity in contemporary sociology She criticizes the abstraction of European modernity from its colonial context and the way non Western others are disregarded It aims to establish a dialogue in which others can speak and be heard The Ambivalence of the Sacred Scott R. Appleby,1999-11-23 Terrorists and peacemakers may grow up in the same community and adhere to the same religious tradition The killing carried out by one and the reconciliation fostered by the other indicate the range of dramatic and contradictory responses to human suffering by religious actors Yet religion's ability to inspire violence is intimately related to its equally impressive power as a force for peace especially in the growing number of conflicts around the world that involve religious claims and religiously inspired combatants This book explains what religious terrorists and religious peacemakers share in common what causes them to take different paths in fighting injustice and how a deeper understanding of religious extremism can and must be integrated more effectively into our thinking about tribal regional and international conflict

Embracing the Song of Appearance: An Mental Symphony within **Patterns Of Modernity Volume 1 The West**

In a global taken by screens and the ceaseless chatter of immediate connection, the melodic elegance and mental symphony produced by the written word frequently fade in to the back ground, eclipsed by the constant sound and interruptions that permeate our lives. But, nestled within the pages of **Patterns Of Modernity Volume 1 The West** an enchanting literary value full of natural thoughts, lies an immersive symphony waiting to be embraced. Constructed by an outstanding composer of language, this fascinating masterpiece conducts viewers on a psychological trip, well unraveling the hidden tunes and profound affect resonating within each carefully crafted phrase. Within the depths of this moving evaluation, we can examine the book is central harmonies, analyze its enthralling writing type, and submit ourselves to the profound resonance that echoes in the depths of readers souls.
