Intellectuals in Action Kevin Mattson,2007-08-09 Born in 1966 a generation removed from the counterculture Kevin Mattson came of political age in the conservative Reagan era In an effort to understand contemporary political ambivalence and the plight of radicalism today Mattson looks back to the ideas that informed the protest social movements and activism of the 1960s To accomplish its historical reconstruction the book combines traditional intellectual biography including thorough archival research with social history to examine a group of intellectuals whose thinking was crucial in the formulation of New Left political theory These include C Wright Mills the popular radical sociologist Paul Goodman a practicing Gestalt therapist and anarcho pacifist William Appleman Williams the historian and famed critic of American empire Arnold Kaufman a radical liberal who deeply influenced the thinking of the SDS The book discusses not only their ideas but also their practices from writing pamphlets and arranging television debates to forming left leaning think tanks and organizing teach ins protesting the Vietnam War Mattson argues that it is this political engagement balanced with a commitment to truth telling that is lacking in our own age of postmodern acquiescence Challenging the standard interpretation of the New Left as inherently in conflict with liberalis Mattson depicts their relationship as more complicated pointing to possibilities for a radical liberalism today Intellectual and social historians as well as general readers either fascinated by the 1960s protest movements or actively seeking an alternative to our contemporary political malais will embrace Mattson s book and its promise to shed new light on a time period known for both its intriguing conflicts and its enduring consequences *Paul's Joy in Christ. Pedagogy, Intellectuals, and Dissent in the Later Middle Ages Rita Copeland,2001-07-26 This book is about the place of pedagogy and the role of intellectuals in medieval dissent Focusing on the medieval English heresy known as Lollardy Rita Copeland places heretical and orthodox attitudes to learning in a long historical perspective that reaches back to antiquity She shows how educational ideologies of ancient lineage left their imprint on the most sharply politicized categories of late medieval culture and how radical teachers transformed inherited ideas about classrooms and pedagogy as they brought their teaching to adult learners The pedagogical imperatives of Lollard dissent were also embodied in the work of certain public figures intellectuals whose dissident careers transformed the social category of the medieval intellectual Looking closely at the prison narratives of two Lollard preachers Copeland shows how their writings could serve as examples for their fellow dissidents and forge a new rapport between academic and non academic communities **Paul and the Philosophers'**
