Paul And Early Christianity:

Jesus, Paul, and Early Christianity Rieuwerd Buitenwerf, Harm Hollander, Johannes Tromp, 2008-12-31 This collection of essays by leading experts in New Testament scholarship addresses core themes in the study of early Christianity. The topics addressed include text critical issues relating to the New Testament, the historical situation in which the earliest Christian documents were composed, early Christian rituals, historical questions concerning Jesus and Paul, and the origin and development of important theological ideas in the early Church. This volume is dedicated to Henk Jan de Jonge, Emeritus Professor in the New Testament, Leiden University, in honour of his important contributions to the field of New Testament Studies.

The Beginning of the Gospel Joshua D. Garroway, 2018-06-11 In this innovative study Joshua D. Garroway offers a revised account of the origin of the all important Christian word gospel, yielding significant new insights into the development of early Christian history and literature. Long thought to have originated on the lips of Jesus or his disciples, gospel was in fact coined by Paul midway through his career to describe his controversial new interpretation of Jesus' death and resurrection. For nearly a decade after the crucifixion, the thoroughly Jewish Jesus movement demanded circumcision and Law observance from Gentile converts. Only in the early 40s did Paul arrive at the belief that such observance was no longer necessary. An insight he dubbed the gospel or good news. The remainder of Paul's career featured clashes with authorities over the legitimacy of the gospel, debates that continued after his death in the writings of Mark, Matthew, and Luke. Acts. These writings obscured the original context of the gospel, however, and in time the word lost its specific association with Paul and his scandalous notion of salvation outside the Law.

Paul, the Pastoral Epistles, and the Early Church () James W. Aageson, 2007-10-01 Paul's influence on the history of Christian life and theology is as profound as it is pervasive. A brief survey of almost twenty centuries of Christian thought and practice will confirm the enduring importance of Paul for the life of the church in the Roman and Protestant traditions of the West, as well as the Orthodox traditions of the East. Even as Christianity at the dawn of its third millennium has become increasingly global and traditions have come to develop and intersect in new and complex ways, Paul's place in the story of Christianity remains deeply rooted in the church's theology, worship, and pastoral life. In both past and present, Paul's influence on the Christian church can hardly be overestimated. Among the many intriguing issues generated by the historical Paul, his New Testament letters, and early church history is the question: what happened to Paul after Paul? Whether we think in terms of the reception of Paul's theology or the ongoing legacy of Paul or early Christian reinterpretation of his letters, the questions persist: what did the early church do with Paul's memory? How did it reshape his theology? And what role did his letters come to play in the life of the church? The focus of the present discussion is in the early decades and centuries of Christianity, a time when the memory and legacy of Paul came to serve varied and often competing interests in the emerging church. It was a time when Paul's reputation and importance to the church were being reinforced and when his epistles were gaining the authority that would ensure their place in the

sacred library of Christianity It was also the time when the Jesus movement forged itself into Christianity a process in which Paul played a pivotal role and eventually also became an object of revision and transformation himself What is virtually indisputable in this process is that Paul during his lifetime and after played a critical role in making Christianity what it was to become

Receptions of Paul in Early Christianity Jens Schröter, Simon Buttica, Andreas Dettwiler, 2018-10-22 The volume deals with interpretations of Paul his person and his letters in various early Christian writings Some of those written in the name of Paul became part of the New Testament others are included among Ancient Christian Apocrypha still others belong to the collection called The Apostolic Fathers Impacts of Paul are also discernible in early collections of his letters which became an important part of the New Testament canon This process resulting in the canonical Paul is also considered in this collection

Who Made Early Christianity? John G. Gager, Jr., 2015-06-16 In this historical and theological study John G Gager undermines the myth of the Apostle Paul s rejection of Judaism conversion to Christianity and founding of Christian anti Judaism He finds that the rise of Christianity occurred well after Paul s death and attributes the distortion of the Apostle s views to early and later Christians Though Christian clerical elites ascribed a rejection replacement theology to Paul s legend Gager shows that the Apostle was considered a loyal Jew by many of his Jesus believing contemporaries and that later Jewish and Muslim thinkers held the same view He holds that one of the earliest misinterpretations of Paul was to name him the founder of Christianity and in recent times numerous Jewish and Christian readers of Paul have moved beyond this understanding Gager also finds that Judaism did not fade away after Paul s death but continued to appeal to both Christians and pagans for centuries Jewish synagogues remained important religious and social institutions throughout the Mediterranean world Making use of all possible literary and archaeological sources including Muslim texts Gager helps recover the long pre history of a Jewish Paul obscured by recent negative portrayals of the Apostle and recognizes the enduring bond between Jews and Christians that has influenced all aspects of Christianity

The Making of Paul Richard I. Pervo, 2010 The influence of the apostle Paul in early Christianity goes far beyond the reach of the seven genuine letters he wrote to early assemblies Pervo provides a comprehensive survey of the legacy of Paul and the various ways he was remembered honoured and vilified in the early churches

The Early Christians in Ephesus from Paul to Ignatius Paul Trebilco, 2007-10-17 The capital city of the province of Asia in the first century CE Ephesus played a key role in the development of early Christianity In this book Paul Trebilco examines the early Christians from Paul to Ignatius seen in the context of our knowledge of the city as a whole Drawing on Paul s letters and the Acts of the Apostles Trebilco looks at the foundations of the church both before and during the Pauline mission He shows that in the period from around 80 to 100 CE there were a number of different communities in Ephesus that regarded themselves as Christians the Pauline and Johannine groups Nicolaitans and others testifying to the diversity of that time and place Including further discussions on the Ephesus addresses of the apostle John and Ignatius this scholarly study of the early Ephesian Christians and their community is without peer

The Fabricated Paul Hermann Detering, 2018-05-26 In theology and church Paul is regarded as the most important and most reliable historical witness to Jesus and early Christianity This book nevertheless contradicts the common conception and shows that all the Pauline letters are in fact skillful falsifications from the second century The author solves the numerous unresolved questions that surround the figure and the writings of Paul until today in convincing and scholarly original ways At the same time the reader accompanies him on his breath taking trip through the mysterious world of Gnosticism and the early Christianities Numerous individual observations which have not been considered by theologians until now are brought together to produce an entirely new picture of early Christianity At the end of the book the puzzle of Paul finds a solution that is as amazing as it is illuminating This exciting history of the spuriousness of all the Pauline writings allows the time of earliest Christianity to appear in an entirely new light and invites a critical consideration and new evaluation of presumably certain facts of Christian history Hermann Detering once again proves himself the most keenly insightful New Testament scholar of this generation worthy to stand among the neglected giants of the radical criticism whose work he has brought to light to stir today s Bible students from their deep dogmatic slumbers My own debt to his work is profound Prof Robert M Price Scandalous publication Roger Thiede FOCUS 1996 Cuckoo s egg there s a method in the madness Prof Eta Linnemann The author Pfr i R Dr theol Hermann Detering was born in 1953 He is proponent of the Radical Criticism and creator of Radikalkritik a web journal devoted to critiquing the New Testament and investigating various scholarly proposals for the origins and dating of the texts Detering is member of the Committee for the Scientific Examination of Religion Last publication Falsche Zeugen Au erchristliche Jesuszeugnisse auf dem Pr fstand

Alibri Verlag Aschaffenburg 2011 **Steward of God's Mysteries** Jerry L. Sumney, 2017 One view that perennially springs up among biblical scholars is that Paul was the inventor of Christianity or that Paul introduced the idea of a divine Christ to a church that earlier had simply followed the ethical teaching of a human Jesus In this book Jerry Sumney responds to that claim by examining how in reality Paul drew on what the church already believed and confessed about Jesus As he explores how Paul's theology relates to that of the broader early church Sumney identifies where in the Christian tradition distinctive theological claims about Christ his death the nature of salvation and eschatology first seem to appear Without diminishing significant differences Sumney describes what common traditions and beliefs various branches of the early church shared and compares them to Paul's thought Sumney interacts directly with arguments made by those who claim Paul as the inventor of Christianity and approaches the questions raised by that claim in a fresh way
