Paul Virilio Reader:

The Paul Virilio Reader Paul Virilio, 2004 If nothing else the war in Iraq and the 1991 Gulf War have taught us much about media and technology as key players in how war is waged packaged for public consumption and exported in real time to the rest of the globe A critic of the art of technology Paul Virilio has keenly observed that media images quite often constitute a strategy of war and that accident is becoming indistinguishable from attack For more than fifty years Virilio has offered incisive and provocative criticism on technology and its moral political and cultural implications Yet until now much of his work originally published in French remains elusive in full English translation The Paul Virilio Reader collects for the first time English extracts reflecting the entire range of Virilio's diverse career The book's introduction demonstrates that Virilio has produced an important if controversial theory at the speed of light that uncannily illuminates the impact of new information and communications technologies in a world that collapses time and distance as never before The inventor of dromology which views speed as a defining concept for contemporary civilization Virilio is noted for his proclamation that the logic of ever increasing acceleration lies at the heart of the organization and transformation of the contemporary world Arranged chronologically the Reader illustrates the development and interconnectedness of Virilio's work Each extract is prefaced by bibliographical and contextual commentary and the book includes an innovative guide to reading Virilio **The Virilio Reader** James Der Derian, 1998-10-15 First English language collection of the writing of French social critic Paul Virilio This volume represents his most important work including five new translations and an exclusive interview with Virilio conducted by the editor reflecting the diverse career of this great social commentator on life in the late twentieth century

The Jean Baudrillard Reader Steve Redhead, 2008 Jean Baudrillard 1929-2007 was a controversial social and cultural theorist known for his trenchant analyses of media and technological communication Belonging to the generation of French thinkers that included Gilles Deleuze Jean-François Lyotard Michel Foucault and Jacques Lacan Baudrillard has at times been vilified by his detractors but the influence of his work on critical thought and pop culture is impossible to deny many might recognize his name from The Matrix movies which claimed to be based on the French theorist's ideas Steve Redhead takes a fresh look at Baudrillard in relation to the intellectual and political climates in which he wrote Baudrillard sought to produce a theory of modernity but the modern world of the 1950s was radically different from the reality of the early twenty-first century Beginning with Baudrillard's initial publications in the 1960s and concluding with his writings on 9/11 and Abu Ghraib Redhead guides the reader through Baudrillard's difficult texts and unorthodox views on current issues He also proposes an original theory of Baudrillard's relation to postmodernism presenting the theorist's work as non postmodernist after Bruno Latour's concept of non modernity Each section of the Reader includes an extract from one of Baudrillard's writings prefaced by a short bibliographical introduction that places the piece in context and puts the debate surrounding the theorist into sharp perspective The conflict over Baudrillard's legacy stems largely from the fact that a comprehensive

selection of his writings has yet to be translated and collected into one volume The Jean Baudrillard Reader provides an expansive and much needed portrait of the critic's resonant work *Paul Virilio* Steve Redhead, 2004 The first authoritative study of the life and work of French urban and cultural theorist Paul Virilio this book sets out to explain and analyse what Virilio has actually said over the years and exactly when he said it correcting many mistaken interpretations along the way Paul Virilio recently retired from his Chair at the Ecole Speciale d'Architecture in Paris but remains an active political and cultural thinker and commentator with a major back catalogue of work stretching back to the 1950s The book reviews the whole of his intellectual career from his days hanging out in an architect's office in the 1960s to the creator of a major art foundation exhibition on the accident in the wake of September 11 Virilio has become known as the high priest of speed and certainly his discourses on speed military technology and modernity are central to an assessment of his writing but he has contributed his logic bombs to many other fields too media theory international relations art history cultural politics architecture and peace studies to name but a few This book is a rigorous but accessible introduction to Virilio and places him in the pantheon of critical thinkers in today's accelerated culture Features The first comprehensive study of the work of Paul Virilio Accessibly written for a wide ranging audience Includes a bibliographical guide to reading Virilio **Virilio Dictionary** John Armitage, 2013-05-31 The first dictionary dedicated to the work of Paul Virilio offering you clear and contemporary direction through the work of Virilio the French critic of art and technology *From Trocchi to Trainspotting - Scottish Critical Theory Since 1960* Michael Gardiner, 2006-07-04 This book charts the course of Scottish Critical Theory since the 1960s It provocatively argues that French critical theoretical ideas have developed in tandem with Scottish writing during this period Its themes can be read as a breakdown in Scottish Enlightenment thinking after empire precisely the process which permitted the rise of theory The book places within a wider theoretical context writers such as Muriel Spark Edwin Morgan Ian Hamilton Finlay James Kelman Alexander Trocchi Janice Galloway Alan Warner and Irvine Welsh as well as more recent work by Alan Riach and Pat Kane who can be seen to take the post Enlightenment narrative forward In doing so it draws on the work of the Scottish thinkers John Macmurray and R D Laing as well as the continental philosophers Gilles Deleuze and Paul Virilio *Routledge Handbook of Leisure Studies* Tony Blackshaw, 2020-07-26 This landmark publication brings together some of the most perceptive commentators of the present moment to explore core ideas and cutting edge developments in the field of Leisure Studies It offers important new insights into the dynamics of the transformation of leisure in contemporary societies tracing the emergent issues at stake in the discipline and examining Leisure Studies fundamental connections with cognate disciplines such as Sociology Cultural Studies History Sport Studies and Tourism This book contains original work from key scholars across the globe including those working outside the Leisure Studies mainstream It showcases the state of the art of contemporary Leisure Studies covering key topics and key thinkers from the psychology of leisure to leisure policy from Bourdieu to Baudrillard and suggests that leisure in the 21st century should be

understood as centring on a new Big Seven holidays drink drugs sex gambling TV and shopping No other book has gone as far in redefining the identity of the discipline of Leisure Studies or in suggesting how the substantive ideas of Leisure Studies need to be rethought The Routledge Handbook of Leisure Studies should therefore be the intellectual guide of first choice for all scholars academics researchers and students working in this subject area

Cyber Security and the Politics of Time Tim Stevens, 2016 Explores how security communities think about time and how this shapes the politics of security in the information age

Political Perversion Joshua Gunn, 2020-10-10 When Trump became president much of the country was repelled by what they saw as the vulgar spectacle of his ascent a perversion of the highest office in the land In his bold innovative book *Political Perversion* rhetorician Joshua Gunn argues that this mean spirited turn in American politics of which Trump is the paragon is best understood as a structural perversion in our common culture on a continuum with infantile and gotcha forms of entertainment meant to engender provocation and sadistic enjoyment Drawing on insights from critical theory media ecology and psychoanalysis Gunn argues that perverse rhetorics dominate not only the political sphere but also our daily interactions with others in person and online From sexting to campaign rhetoric Gunn advances a new way to interpret our contemporary political context that explains why so many of us have difficulty deciphering the appeal of aberrant public figures In this book Trump is only the tip of a sinister rapidly growing iceberg one to which we ourselves unwittingly contribute on a daily basis

A Foucault for the 21st Century Sam Binkley, Jorge Capetillo-Ponce, 2009-01-23 How relevant is Foucault's social thought to the world we inhabit today This collection comprises several essays considering the contemporary relevance of the work of Michel Foucault While Foucault is best remembered for his historical inquiries into the origins of disciplinary society in a period extending from the 16th to the 19th centuries it seems that today under the conditions of global modernity the relevance of his ideas are called into question With the increasing ubiquity of markets the break up of centralized states and the dissolution of national boundaries together with new scientific and political discourses on biological life the world of today seems far removed from the bounded disciplinary societies Foucault described in his most famous books Yet in recent years it has become apparent that Foucault's thoughts on modern society have not been exhausted and indeed that much remains to be explored Within this volume novel interpretations and thematic developments of key Foucauldian concepts are presented in the works of 24 authors Prominent among them are new forms of neoliberal economic conduct framed by distinct governmentalities new critical concepts of biological life reflected in Foucault's analysis of biopower and new theoretical treatments of the effects of subjectivation Moreover included among these theoretical departures are empirical studies of contemporary formations of religion and spiritual practice consumerism race and racism the discourse of genetics and the life sciences surveillance and incarceration and new social movements Drawn from a conference held at the University of Massachusetts Boston bearing the same title *A Foucault for the 21st Century* Governmentality Biopolitics and Discipline in the New Millennium both expands our understanding of Foucault's central

theoretical legacy and applies his ideas to a range of contemporary empirical phenomena
