Poetic Perceptions:

Poetic Perceptions of Life Gloria M. Sprung, 2010-03-15 The poetry is an expression of the poet's ideas, feelings, and often deep emotion. Her poems range from philosophical to melancholy to light verse and present her thoughts on life, sorrow, love, and relationships. Humorous verse is included as well. **Blessed Poetic Perceptions of Life** Rosemary A. Cibrario, 2013 This book of poetry expresses my heartfelt appreciation of nature, life, and blessings that come to all who believe in God and his greatness. The perceptions of life between the pages of this book were experienced and shared to the fullest. Hopefully, these experiences will continue to touch the hearts and minds of all who own and share this book of poetry. Poetic Perceptions Jerrold E. Baker, 1991 **Poetic Perceptions** Christopher M. Schultz, 2014-01-01 These poetic writings have been described by many as spiritual, romantic, inspirational in depth, and penetrating to the mind as well as the soul. My unconventional style of writing will take you on an interesting journey through a unique perspective of spirituality, life, and existence. **The Tower** Owen Barfield, 2020-08-26 Owen Barfield is known primarily for his many publications on the evolution of consciousness and the essential reframing of cultural history that results from this theory. At the center of his philosophy is a deep analysis of mythology and poetics that draws from Coleridge, Steiner, and others to reveal the noetic role of the poetic principle and its salient shifts that map the evolution of conscious experience. A member of the Oxford Inklings group, Barfield's first published book, *The Silver Trumpet* (1925), is the first modern or fantasy story published by any of them. Despite the influence Barfield exerted on contemporary authors such as Howard Nemerov and Saul Bellow, the biggest gaps in the published corpus of the *Philosopher of Poetry* are most of the major poems and poetic dramas he wrote according to his theories that place poetics at the core of conscious experience itself. This current publication remedies this absence by presenting five striking literary pieces composed throughout Barfield's lifetime. *The Tower*, an introspective narrative poem, is the great work of Barfield's youth. *Medea*, a mythopoeic drama, is seemingly his last major poetic and dramatic work. Between these two are the mythopoeic narrative poem *Riders on Pegasus*, a trilogy of Anthroposophical mystery plays *Angels at Bay*, and the light-hearted extended poem *The Unicorn Readers*. Of Barfield's philosophical works and Inklings enthusiasts will find much to admire and enjoy in this volume. The Ecstatic Poetic Tradition D.J. Moores, 2014-05-26 This work is not only a general inquiry into ecstatic states of consciousness and an historical outline of the ecstatic poetic tradition but also an intensive study of five representative poets: Rumi, Wordsworth, Whitman, Dickinson, and Tagore. In a refreshingly original, wide-ranging engagement with concepts in psychology, religion, philosophy, aesthetics, sociology, and history, this book demonstrates that the poetics and aesthetics of ecstasy represent an ancient, ubiquitous theory of poetry that continues to influence writers in the current century. **"Genial" Perception** William C. Edinger, 2022-05-15 *Genial Perception* offers a critical examination of Wordsworth's and Coleridge's naturalist construction of creative and critical perception and a historical study of the perceptual dimension of poetic taste. *Genial* is the adjectival form of *genius* and eighteenth-century critical naturalism.

understands genial perception as a gift of nature as an inborn power operating autonomously through the senses and imagination and thus independently of cultural influence By exploring the philology of keywords and binaries inherited by the two poet critics and used to describe and interpret their perceptual experience both creative imaginative and critical Genial Perception traces how that experience reveals an unacknowledged indebtedness to discourse and language having been silently and perhaps unconsciously shaped by patterns and trends in the literary culture in which Wordsworth and Coleridge came of age This study shows that critical perception often thought to be too elusive and subjective to make a proper subject for historical investigation can be approached through study of the terms the language of the practical criticism that attempts to communicate it that both critical and creative perception are far more dependent on language than is commonly recognized and that philology by recovering the original usage functions and contexts of critical keywords provides for an accurate historical understanding of the claims made by critics in the long eighteenth century for genial perception and can illuminate the dynamics of genial perception itself

Breath - Poetry , **The Poem in Time** Janis Lull,1990 In tracing George Herbert s revisionary goals as they developed through the two manuscripts of the Church this book offers a new approach to the interpretation of his poems in showing that Herbert intended to encourage his readers to connect the separate lyrics into larger structures of meaning and also to look beyond his poetry to the Bible

Cognitive Ecopoetics Sharon Lattig,2020-11-12 New insights from cognitive theory and literary ecocriticism have the power to transform our understanding of one of the most important literary genres the lyric poem In Cognitive Ecopoetics Sharon Lattig brings these two schools of criticism together for the first time to consider the ways in which lyric forms re enact cognitive processes of the mind and brain Along the way the book reads anew the long history of the lyric from Andrew Marvell through canonical poets such as Samuel Taylor Coleridge Ralph Waldo Emerson and Emily Dickinson to contemporary writers such as Susan Howe and Charles Olson

Poetry ,1921 Thomas Hardy: The Poetry of Perception Tom Paulin,1986-03-17 *The Recurrent Green Universe of John Fowles* Thomas M. Wilson,2006-01-01 Ecocriticism is the emerging academic field which explores nature writing and ecological themes in all literature Thomas M Wilson s book is the first to consider the work of one of the most critically acclaimed and generally popular post war English writers from an ecocritical perspective Fowles is best known as a novelist and author of such works as *The Magus* *The French Lieutenant s Woman* and *Daniel Martin* Going beyond the fiction this book also examines the many profound reflections on the natural world found in his essays poems and his recently published Journals John Fowles writings have cast light on the ways we perceive the natural world from curious scientific observer to Wordsworthian lover of natural places as well as many other important and at this time crucial themes This volume will be of interest to critics and readers of contemporary fiction but most of all to anyone curious about their place in the recurrent green universe that is our earth

The Oxford Handbook of Victorian Poetry Matthew Bevis,2013-10-31 I am inclined to think that we want new forms as well as thoughts confessed Elizabeth Barrett to Robert

Browning in 1845 The Oxford Handbook of Victorian Poetry provides a closely read appreciation of the vibrancy and variety of Victorian poetic forms and attends to poems as both shaped and shaping forces The volume is divided into four main sections The first section on Form looks at a few central innovations and engagements Rhythm Beat Address Rhyme Diction Syntax and Story The second section Literary Landscapes examines the traditions and writers from classical times to the present day that influence and take their bearings from Victorian poets The third section provides Readings of twenty three poets by concentrating on particular poems or collections of poems offering focused nuanced engagements with the pleasures and challenges offered by particular styles of thinking and writing The final section The Place of Poetry conceives and explores place in a range of ways in order to situate Victorian poetry within broader contexts and discussions the places in which poems were encountered the poetic representation and embodiment of various sites and spaces the location of the Victorian alongside other territories and nationalities and debates about the place and displacement of poetry in Victorian society This Handbook is designed to be not only an essential resource for those interested in Victorian poetry and poetics but also a landmark publication provocative seminal volume that will offer a lasting contribution to future studies in the area

Figures of Reality Roger Cardinal, 2025-05-01 *Figures of Reality* 1981 may be described as a polemic against those who feel poetry to be remote from normal life an abstruse and empty game The author argues from a contrary perspective shared by many poets in the Romantic and Surrealist tradition in which poetry is viewed as being vitally related to our awareness of reality This penetrating discourse on the roots of poetry in the imagination suggests that the fascination of an illusory image lies precisely in our consciousness of its deflection from reality Poets can take hold of and manipulate these moments they are adept in the construction of unreality The deliberate cultivation of such states of awareness has been a preoccupation of many poets and literary theorists among them Coleridge De Quincy and Rimbaud Roger Cardinal's commentaries on the writing of these men as well as other texts drawn from nineteenth and twentieth century European poetry argues that poems have meaning for us to the extent that we recognise the relationship of the figure of speech on the page to the figure of reality as shaped by our perception of the world around us In this way the book uniquely develops an original and subtle theory of the role of imagination in poetry **Judy**, 1869 **Swinburne's Poems and Ballads** William Michael

Rossetti, 1866 **Forms of Poetic Attention** Lucy Alford, 2020-01-28 A poem is often read as a set of formal technical and conventional devices that generate meaning or affect However Lucy Alford suggests that poetic language might be better understood as an instrument for tuning and refining the attention Identifying a crucial link between poetic form and the forming of attention Alford offers a new terminology for how poetic attention works and how attention becomes a subject and object of poetry *Forms of Poetic Attention* combines close readings of a wide variety of poems with research in the philosophy aesthetics and psychology of attention Drawing on the work of a wide variety of poets such as T S Eliot Wallace Stevens Frank O'Hara Anne Carson Theresa Hak Kyung Cha Harryette Mullen Al Khans Rainer Maria Rilke Arthur Rimbaud and

Claudia Rankine Alford defines and locates the particular forms of attention poems both require and produce She theorizes the process of attention making its objects its coordinates its variables while introducing a broad set of interpretive tools into the field of literary studies *Forms of Poetic Attention* makes the original claim that attention is poetry's primary medium and that the forms of attention demanded by a poem can train hone and refine our capacities for perception and judgment on and off the page *The Poetic Pattern* Robin Skelton,1983 *The Poetry of Personality* William Greenway,2014-12-24 Even lovers of Dylan Thomas's poems are often puzzled by his habits of language which sometimes take the form of unusual diction and unique perceptions This study on the hundredth anniversary of his birth is a must read for both Thomas's fans and newcomers interested in an introduction to his works and the unique sensibility that created them Chapters are devoted to his poetic perspectives ranging from the microscopic to the cosmic his unusual perceptions of the world which some critics have described as those of an almost altered reality his diction or working vocabulary his penchant for refurbishing clichés his hilarious sense of humor and linguistic playfulness his development as a poet and his concern for sound often resulting in a lofty at times Biblical though secular tone In summary the study fully explores the heart and mind behind the poems and shows why his work will always remain in the top rank of English poetry

The Enigmatic Realm of **Poetic Perceptions**: Unleashing the Language is Inner Magic

In a fast-paced digital era where connections and knowledge intertwine, the enigmatic realm of language reveals its inherent magic. Its capacity to stir emotions, ignite contemplation, and catalyze profound transformations is nothing in short supply of extraordinary. Within the captivating pages of **Poetic Perceptions** a literary masterpiece penned with a renowned author, readers embark on a transformative journey, unlocking the secrets and untapped potential embedded within each word. In this evaluation, we shall explore the book's core themes, assess its distinct writing style, and delve into its lasting impact on the hearts and minds of people who partake in its reading experience.
