Poetry In The Museums Of Modernism:

Poetry in the Museums of Modernism Catherine E. Paul, 2002 How modernist writers experienced the Louvre the British Museum and the Museum of Natural History and how these museums influenced their writing **Poetry in the Museums of Modernism** Catherine Elizabeth Paul, 1998 Marianne Moore and the Cultures of Modernity Victoria Bazin, 2016-05-06 Victoria Bazin examines the poetry of Marianne Moore as it is shaped by and responsive to the experience of being a modern woman of living in the aftermath of the First World War of being interpellated as a modern consumer and of writing in the age of mechanical reproduction She argues that Moore's textual collages and syllabic sculptures are based on the cultural clutter or debris of modernity on textual extracts and reproductions on the phantasmagoria of city life revealing something modernism worked hard to conceal its relation to modernity more specifically its relation to the new emerging and expanding mass consumer culture Drawing extensively on archival resources to trace Moore's influences and to describe her own distinctive modernist aesthetic this book argues that it was her feminist adaptation of pragmatism that shaped her poetic response to modernity Moore's use of the quoted fragment is conceptualised in relation not only to Walter Benjamin's philosophical history but also to William James's image of the world as a series of partial stories As such this account of Marianne Moore not only contributes to a greater understanding of the poet and her work but it also offers up a more politicized and historically nuanced understanding of poetic modernism between the wars one that retains a sense of the formal complexities of poetic language and the poet's own ethical imperatives whilst also recognising the material impact of modernity upon the modernist poem This book will appeal therefore not only to scholars already familiar with Moore's poetry but more widely to those interested in modernism and American culture between the wars **Marianne Moore and the Archives** Jeff Westover, 2024-05-09 Marianne Moore and the Archives features new archival research to explore the work of a major American modernist poet providing innovative approaches to Moore's career as it is documented in her archives in Philadelphia This volume is also the first that draws upon the Marianne Moore Digital Archive MMDA **The Oxford Handbook of Modern and Contemporary American Poetry** Cary Nelson, 2012-01-06 The Oxford Handbook of Modern and Contemporary American Poetry gives readers a cutting edge introduction to the kaleidoscopic world of American poetry over the last century Offering a comprehensive approach to the debates that have defined the study of American verse the twenty five original essays contained herein take up a wide array of topics the influence of jazz on the Beats and beyond European and surrealist influences on style poetics of the disenfranchised religion and the national epic antiwar and dissent poetry the AIDS epidemic digital innovations transnationalism hip hop and more Alongside these topics major interpretive perspectives such as Marxist psychoanalytic disability queer and ecocritical are incorporated Throughout the names that have shaped American poetry in the period Ezra Pound Wallace Stevens Marianne Moore Mina Loy Sterling Brown Hart Crane William Carlos Williams Posey Langston Hughes Allen Ginsberg John Ashbery Rae Armantrout Larry Eigner and others serve

as touchstones along the tour of the poetic landscape Modernism's Other Work Lisa Siraganian, 2015 Modernism's Other Work challenges our view of relationships between aesthetic autonomy and the world of daily life a conjuncture that Lisa Siraganian demonstrates has often been misunderstood in critical studies of modernism Connecting poetry to the visual arts and politics the author provides new ways to think about modernist art's relationship **The New Ezra Pound Studies** Mark Byron, 2020 Essays on recent developments in Pound scholarship and research including newly available primary sources and methodological advances in cognate fields Yeats Richard J. Finneran, 2001 Another volume in the distinguished annual **A Companion to Modernist Literature and Culture** David Bradshaw, Kevin J. H. Dettmar, 2008-10-20 The Companion combines a broad grounding in the essential texts and contexts of the modernist movement with the unique insights of scholars whose careers have been devoted to the study of modernism An essential resource for students and teachers of modernist literature and culture Broad in scope and comprehensive in coverage Includes more than 60 contributions from some of the most distinguished modernist scholars on both sides of the Atlantic Brings together entries on elements of modernist culture contemporary intellectual and aesthetic movements and all the genres of modernist writing and art Features 25 essays on the signal texts of modernist literature from James Joyce's *Ulysses* to Zora Neal Hurston's *Their Eyes Were Watching God* Pays close attention to both British and American modernism

Stylistic Innovation, Conscious Experience, and the Self in Modernist Women's Poetry Kristina Marie Darling, 2021-10-07 Stylistic Innovation Conscious Experience and the Self in Modernist Women's Poetry examines representations of philosophical discourses in Modernist women's writing Philosophers argued in the early twentieth century for an understanding of the self as both corporeal and relational shaped and reshaped by interactions within a community The once clear distinction between self and other was increasingly called into question This breakdown of boundaries between self and world often manifested in the style of early twentieth century literary works Modernist poetry like stream of consciousness fiction used metaphor sound and a revision of received grammatical structures to blur the boundaries between the individual and collective This book explores the ways that feminist writers like Mina Loy H D Gertrude Stein and Marianne Moore used style and technique to respond to these philosophical debates reclaiming agency over a predominantly male philosophical discourse While many critics have addressed the thematic content of these writers' work few scholars have taken up this question while focusing on the style of the writing This book shows how these feminist poets used seemingly small stylistic choices in poetry to make necessary contributions to contemporary philosophical discourses ultimately rendering these philosophical conversations more inclusive Reframing Yeats Charles I. Armstrong, 2013-10-24 Provides a new sense of the historical specificity of W B Yeats's writings over a wide range of genres leading to innovative readings of classic texts

Affective Materialities Kara Watts, Molly Volanth Hall, Robin Hackett, 2019-03-04 Affective Materialities reads modernist literature for the ways in which bodies come to matter physically socially and juridically using two recent turns in

literary studies one to affect studies and the other to ecocriticism Each chapter in the collection delves into a multifold body investigating how body forms come to matter *Edinburgh Companion to T. S. Eliot and the Arts* Frances

Dickey,2016-08-16 From his early *Curtain Raiser* to the late *Four Quartets* T S Eliot took an interest in all the arts drawing on them for poetic inspiration and for analysis in his prose T S Eliot and the Arts provides extensive high quality research about his many sided engagement with painting sculpture museum artefacts architecture music drama music hall opera and dance as well as the emerging media of recorded sound film and radio Building on the newly published editions of Eliot s prose and poetry this contemporary research collection opens avenues for understanding Eliot both in his own right as a poet and critic and as a foremost exemplar of interarts modernism *Elizabeth Bishop and the Literary Archive* Bethany Hicok,2020-01-31

In a life full of chaos and travel Elizabeth Bishop managed to preserve and even partially catalog a large collection more than 3 500 pages of drafts of poems and prose notebooks memorabilia artwork hundreds of letters to major poets and writers and thousands of books now housed at Vassar College Informed by archival theory and practice as well as a deep appreciation of Bishop s poetics the collection charts new territory for teaching and reading American poetry at the intersection of the institutional archive literary study the liberal arts college and the digital humanities The fifteen essays in this collection use this archive as a subject and for the first time argue for the critical importance of working with and describing original documents in order to understand the relationship between this most archival of poets and her own archive This collection features a unique set of interdisciplinary scholars archivists translators and poets who approach the archive collaboratively and from multiple perspectives The contributions explore remarkable new acquisitions such as Bishop s letters to her psychoanalyst one of the most detailed psychosexual memoirs of any twentieth century poet and the exuberant correspondence with her final partner Alice Methfessel an important series of queer love letters of the 20th century Lever Press s digital environment allows the contributors to present some of the visual experience of the archive such as Bishop s extraordinary multi medial and multimodal notebooks in order to reveal aspects of the poet s complex composition process

Museum Mediations Barbara K. Fisher, 2006-01-24 This interdisciplinary study participates in the ongoing critical conversation about postwar American poetry and visual culture while advancing that field into the arena of the museum Turning to contemporary poems about the visual arts that foreground and interrogate a museum setting the book demonstrates the particular importance of the museum as a cultural site that is both inspiration and provocation for poets The study uniquely bridges the dual canon in contemporary poetry and calls the lyric avant garde distinction into question by analyzing museum sponsored anthologies as well as poems by John Ashbery Richard Howard Kenneth Koch Kathleen Fraser Cole Swensen Anne Carson and others Through these case studies of poets with diverse affiliations the author shows that the boom in ekphrasis in the past 20 years is not only an aesthetic but a critical phenomenon a way that poets have come to terms with the critical dilemmas of our moment Highlighting the importance of poets peripheral vision awareness of the institutional conditions that frame encounters with art the author contends that a museum visit becomes a forum for questioning oppositions that have preoccupied literary criticism for the past 50 years homage and innovation modernism and postmodernism subjectivity and collectivity The study shows that ekphrasis becomes a strategy for negotiating these impasses a mode of political inquiry a meditation on canonization a venue for comic appraisal of institutionalization and a means of site specific feminist revision in a vital synthesis of critique perspicacity and pleasure
