Studies in French Poetry of the Fifteenth Century C.S. Shapley, 2012-12-06 My purpose in these studies is to example a careful reading of the too easily despised too hastily evaluated and too frequently misunderstood poetry of the French fifteenth century I have begun at the tum of the century with three of the more substantial writers of the first generation Nesson Char tier Taillevent and while I have in each case read the poet s entire work I have tried to concentrate my efforts

on the single poem which seemed his most substantial in terms of the number and importance of the concerns which animate it the vigor and complexity of his response and the expressive richness of the poem as a whole I have tried in each instance to say only what seemed most relevant and essential not with respect to any preconceived system but by allowing the categories of my treatment to arise out of a full and extended response to the work itself When one interrogates a poem in terms of pre established categories one is all too apt to find what one is seeking and to find only that

The Secret Wound Marion Wells, 2007-01-03 This book offers a new reading of early modern romance in the light of historically contemporary accounts of mind and specifically the medical tradition of love melancholy The book argues that the medical profile of the melancholic lover provides an essential context for understanding the characteristic patterns of romance narrative deferral epistemological uncertainty and the endless quest for a quasi phantasmic beloved Unlike many recent studies of romance this book establishes a detailed historical basis for investigating the psychological structure of romance Wells begins by tracing the development of the medical disorder first known in the Latin west as amor hereos lovesickness from its earliest roots in Greek and Arabic medicine to its translation into the Latin medical tradition Drawing on this detailed historical material the book considers three important early modern romances Ariosto's Orlando Furioso Tasso's Gerusalemme Liberata and Spenser's The Faerie Queene concluding with a brief consideration of the significance of this literary and medical legacy for Romanticism Most broadly the interdisciplinary nature of this study allows the author to investigate the central critical problem of early modern subjectivity in substantially new ways
