Owens, 1995-08-21 This invaluable guide is designed to help parents and counselors build self esteem in children from infancy through adolescence fortifying them with a healthy sense of self esteem for the rest of their lives Whereas some professionals are content to teach parents about building only outer self esteem as in parents unconditionally praising the children Dr Owens believes it is also essential to bolster a child s inner self esteem This way a child feels good from within knows objectively that he s doing a good job and is not solely dependent on the praise of others While Dr Owens believes strongly that parents must give children unconditional love she is well aware that the world can be a harsh and difficult place Therefore she shows that the best gift a parent can give one s children is the tools to acquire the skills and behavior that will enable them to feel good about themselves from within This unique book imparts vital information on how parents can instill a sense of pride in their child each step of the way as the child s mind grows in perception and logic Dr Owens explains what behavior to expect from children at each developmental stage She also supplies ample questionnaires so parents can determine the state of their children s sense of self esteem Most important she wisely recognizes the needs of special groups of children She thus offers specific advice for boosting the self esteem of children who are shy aggressive unpopular learning disabled or gifted as well as adopted children only children and children of working mothers divorced parents step families single parents and same sex parents
