Raising Moneywise Kids:

Raising Money-wise Kids Judith Briles, 1996 **It Pays to Talk** Carrie Schwab-Pomerantz, Charles Schwab, 2002-12-24

Does your family talk about money Do your kids understand your money values Do you and your mate agree on how you spend and invest your money Do you know if your parents are financially secure These are the questions that Carrie Schwab Pomerantz and her father Charles Schwab ask at the beginning of this invaluable family financial primer The authors acknowledge that these are difficult questions but stress that families must grapple with them and come up with answers Despite the proliferation of the financial news media money remains a taboo subject in most families Often the mere thought of talking about money with a family member causes enormous personal stress and confusion But it doesn't have to be that way The goal of this father daughter collaboration is to bring solid financial advice into the context of family where it can be explored understood and implemented to the benefit of everyone The first essential thing that must happen is conversation and *It Pays to Talk* is filled with advice about how to start talking The authors are both working parents with a combined sixty five years of knowledge and experience in the investment field In this book they present a road map that every family can follow as they develop and implement an investment strategy and money management plan They begin by covering the fundamental principles that every investor needs to understand in order to succeed for the long term and then they move on to cover joining forces in marriage building your family's wealth regardless of market conditions investing for your children's future and raising money savvy kids retirement planning estate planning for you and your parents and dealing with the unexpected insurance divorce and investing a windfall Throughout the book the authors offer advice about how to start the often difficult conversations that lead to smart decision making as well as how to talk gently intelligently and respectfully about the many issues that define and shape our attitudes about money It does pay to talk This valuable and expert book will get you started and help you at every stage of your family's investment career *Becoming Money Wise* Phil Strong, Josh Moore, 2008-12-15 *WiseMoney* take control of your finances and create your future is based on the seminars that Phil Strong has been delivering to audiences throughout NZ since 2004 when he realised that financial literacy is at the root of most family challenges and that our young adults are growing up earning money and yet have no idea how to get ahead of the financial treadmill they find themselves on of money in money out and nothing left over While there are other great books on finance investment and on how and why most people either don't make it or they explore the reasons why some people are successful Phil believes there are fundamental issues not being addressed as to how the basics need to be dealt with before moving ahead to better understanding where to put your money when you have some spare This book is all about taking control of your money and financial habits getting clear of debt in order to have a great lifestyle Aimed mainly at under 30 year olds who may have student debt are settling into careers and starting families this book is exceptionally useful for anyone of any age who has never mastered their credit card mortgage or ability to save and pay cash for things they want
