Ralph Adams Cram Architects Four Quests:

Ralph Adams Cram: An architect's four quests : medieval, modernist, American, ecumenical Douglass Shand-Tucci,1995 Following in the footsteps of Boston Bohemia 1881 1900 Douglass Shand Tucci s widely praised portrait of Ralph Adams Cram s early years this volume tells the story of Cram s later career as one of America s leading cultural figures and most accomplished architects With his partner Bertram Goodhue Cram won a number of important commissions beginning with the West Point competition in 1903 Although an increasingly bitter rivalry with Goodhue would lead to the dissolution of their partnership in 1912 Cram had already begun to strike out on his own Supervising architect at Princeton consulting architect at Wellesley and head of the MIT School of Architecture he would also design most of New York s Cathedral of St John the Divine and the campus of Rice University as well as important church and collegiate structures throughout the country By the 1920s Cram had become a household name even appearing on the cover of Time magazine A complex man Cram was a leading figure in what Shand Tucci calls a full fledged homosexual monastery in England while at the same time married to Elizabeth Read Their relationship was a complicated one the effect of which on his children and his career is explored fully in this book So too is his work as a religious leader and social theorist Shand Tucci traces the influence on Cram of such disparate figures as Franklin Delano Roosevelt Phillips Brooks Henry Adams and Ayn Rand He divides Cram s career into four lifelong quests medieval modernist American and ecumenical Some quests may have failed but in each he left a considerable legacy ultimately transforming the visual image of American Christianity in the twentieth century Handsomely illustrated with over 130 photographs and drawings and eight pages of color plates Ralph Adams Cram can be read on its own or in conjunction with Boston Bohemia 1881 1900 Together the two volumes complete what the Christian Century has described as a superbly researched and captivating biography The Architect Arthur Holland Forbes,1924 *The American Architect and the Architectural Review* ,1924 **American Architect and the Architectural Review** ,1906 Publication of the Rochester Engineering Society ,1927 *Global Gothic* Barbara Borngässer,Bruno Klein,2022-02-17 Gothic style and contemporary architecture worldwide Although largely overlooked in studies of architectural history church architecture in a Gothic idiom outlived its 19th century momentum to persist worldwide throughout the 20th century and into the new millennium Global Gothic presents a first systematic worldwide understanding of Gothic in contemporary architecture both as a distinct variation and as a competitor to recognized modern styles The book s chapters critically discuss Gothic s various manifestations over the past century describing and illustrating approaches from Gothic Revival living traditions in the former British Empire and original Gothic appropriation in Latin America to competitions of European builders in former Asian and African colonies The focus is also on the special appropriations in North America China and Japan as well as contemporary solutions that tend to be transnational in style With contributions from renowned architecture experts from around the world Global Gothic provides an overview of this

cultural phenomenon and presents a wealth of stunning material much of it little known Richly illustrated in full color it offers an important contribution to colonial and postcolonial global art history and a seldom acknowledged perspective on art history in general Contributors Barbara Borngesser Technische Universität Dresden Marten M. The Juggler of Notre Dame and the Medievalizing of Modernity. Jan M. Ziolkowski,2018-08-29 This ambitious and vivid study in six volumes explores the journey of a single electrifying story from its first incarnation in a medieval French poem through its prolific rebirth in the nineteenth and twentieth centuries The Juggler of Notre Dame tells how an entertainer abandons the world to join a monastery but is suspected of blasphemy after dancing his devotion before a statue of the Madonna in the crypt he is saved when the statue delighted by his skill miraculously comes to life Jan Ziolkowski tracks the poem from its medieval roots to its rediscovery in late nineteenth century Paris before its translation into English in Britain and the United States The visual influence of the tale on Gothic revivalism and vice versa in America is carefully documented with lavish and inventive illustrations and Ziolkowski concludes with an examination of the explosion of interest in The Juggler of Notre Dame in the twentieth century and its place in mass culture today Volume 3 The American Middle Ages hinges upon two figures influenced by the juggler Henry Adams scion of Presidents and distinguished cultural historian whose works contributed to the rise of medievalism in America during the Gilded Age and Ralph Adams Cram the architect whose vision of Gothic accounts directly or indirectly for the campuses of West Point Princeton Yale Chicago Notre Dame and many other universities across America The Juggler of Notre Dame and the Medievalizing of Modernity is a rich case study for the reception of the Middle Ages in modernity Spanning centuries and continents the medieval period is understood through the lens of its post modern reception in Europe and America Profound connections between the verbal and the visual are illustrated by a rich trove of images including book illustrations stained glass postage stamps architecture and Christmas cards Presented with great clarity and simplicity Ziolkowski's work is accessible to the general reader while its many new discoveries will be valuable to academics in such fields and disciplines as medieval studies medievalism philology literary history art history folklore performance studies and reception studies *Arts & Decoration* ,1926 **Commonweal** ,1929
