Archives are considered to be collections of administrative legal commercial and other records or the actual place where they are located They have become ubiquitous in the modern world but emerged not much later than the invention of writing Following Foucault who first used the word archive in a metaphorical sense as the general system of the formation and transformation of statements in his *Archaeology of Knowledge* 1969 postmodern theorists have tried to exploit the potential of this concept and initiated the archival turn In recent years however archives have attracted the attention of anthropologists and historians of different denominations regarding them as historical objects and grounding them again in real institutions The papers in this volume explore the complex topic of the archive in a historical systematic and comparative context and view it in the broader context of manuscript cultures by addressing questions like how by whom and for which purpose were archival records produced and if they differ from literary manuscripts regarding materials formats and producers scribes **Ancient Egyptian Administration** Juan Carlos Moreno García, 2013-06-03 Ancient Egyptian Administration provides the first comprehensive overview of the structure organization and evolution of the pharaonic administration from its origins to the end of the Late Period The book not only focuses on bureaucracy departments and official practices but also on more informal issues like patronage the limits in the actual exercise of authority and the competing interests between institutions and factions within the ruling elite Furthermore general chapters devoted to the best documented periods in Egyptian history are supplemented by more detailed ones dealing with specific archives regions and administrative problems The volume thus produced by an international team of leading scholars will be an indispensable up to date tool of research covering a much neglected aspect of pharaonic civilization *On the Reliability of the Old Testament* K. A. Kitchen, 2006-06-09 Draws upon a wide range of historical sources to examine the factuality of the Old Testament arguing that the Bible s stories are firmly based on fact and refuting evidence from modern scholars who claim otherwise **Scanning the Pharaohs** Zahi A. Hawass, Sahar Saleem, 2016 The royal mummies in the Cairo Museum are an important source of information about the lives of the ancient Egyptians The remains of these pharaohs and queens can inform us about their age at death and medical conditions from which they may have suffered as well as the mummification process and objects placed within the wrappings Using the latest technology including Multi Detector Computed Tomography

and DNA analysis the authors present the results of the examination of the royal mummies New imaging techniques not only reveal a wealth of information about each mummy but render amazingly lifelike and detailed images of the remains *The Festivals of Opet, the Valley, and the New Year* Masashi Fukaya,2020-05-28 This volume compares the religious and social functions of the Ancient Egyptian festivals of Opet the Valley and the New Year Until now detailed study of the New Year Festival has only been carried out with reference to the Greco Roman period this study turns its attention to the New Kingdom *War and Peace in the Ancient World* Kurt A. Raaflaub,2008-04-15 This book is the first to focus on war and peace in the ancient world from a global perspective The first book to focus on war and peace in the ancient world Takes a global perspective covering a large number of early civilizations from China India and West Asia through the Mediterranean to the Americas Features contributions from nineteen distinguished scholars all of whom are experts in their fields Offers remarkable insights into the different ways in which ancient societies dealt with a common human challenge Requires no prior historical knowledge making it suitable for non specialists **Current Research in Egyptology 14 (2013)** Kelly Accetta,Renate Fellingner,Pedro Lourenço Gonçalves,W. Paul van Pelt,2014-04-30 The fourteenth Current Research in Egyptology conference held at the University of Cambridge in March 2013 brought together speakers and attendees from six continents and hosted more than 50 presentations covering multiple aspects of Egyptology and its related fields The aim of the conference was to cross cultural and disciplinary boundaries The papers presented in these proceedings reflect this aim by presenting current research that draws on insights derived from anthropology archaeology archaeobotany ethnography organic chemistry geography linguistics and law amongst others **Compulsion and Control in Ancient Egypt** Alexandre Loktionov,2023-12-07 How did the Ancient Egyptians maintain control of their state Topics include the controlling function of temples and theology state borders scribal administration visual representation patronage and the Egyptian language itself with reference to all periods of Egyptian history from the Old Kingdom to Coptic times *The Gurob Ship-Card Model and Its Mediterranean Context* Shelley Wachsmann,2013-01-09 When Shelley Wachsmann began his analysis of the small ship model excavated by assistants of famed Egyptologist W M F Petrie in Gurob Egypt in 1920 he expected to produce a brief monograph that would shed light on the model and the ship type that it represented Instead Wachsmann discovered that the model held clues to the identities and cultures of the enigmatic Sea Peoples to the religious practices of ancient Egypt and Greece and to the oared ships used by the Bronze Age Mycenaean Greeks Although found in Egypt the prototype of the Gurob model was clearly an Aegean style galley of a type used by both the Mycenaeans and the Sea Peoples The model is the most detailed representation presently known of this vessel type which played a major role in changing the course of world history Contemporaneous textual evidence for Sherden one of the Sea Peoples settled in the region suggests that the model may be patterned after a galley of that culture Bearing a typical Helladic bird head decoration topping the stempost with holes along the sheer strakes confirming the use of stanchions the model was found with four wheels and other evidence for

a wagon like support structure connecting it with European cultic prototypes The online resources that accompany the book illustrate Wachsmann's research and analysis They include 3D interactive models that allow readers to examine the Gurob model on their computers as if held in the hand both in its present state and in two hypothetical reconstructions The online component also contains high resolution color photos of the model maps and satellite photos of the site and other related materials Offering a wide range of insights and evidence for linkages among ancient Mediterranean peoples and traditions The Gurob Ship Cart Model and Its Mediterranean Context presents an invaluable asset for anyone interested in the complexities of cultural change in the eastern Mediterranean at the end of the Bronze Age and the beginning of the Iron Age The Gurob ship cart model is was part of an exhibition entitled Beyond the Nile Egypt and the Classical World at the J Paul Getty Center March 27 September 9 2018 Read about it here <http://blogs.getty.edu/iris/egyptian-ship-model-sheds-light-on-bronze-age-warfare-and-religion/> Digital supplement to the book featuring 3D models <http://www.vizin.org/Gurob/Gurob.html>

Egypt, Canaan, and Israel in Ancient Times Donald B. Redford, 2020-06-30 Covering the time span from the Paleolithic period to the destruction of Jerusalem in 586 B C the eminent Egyptologist Donald Redford explores three thousand years of uninterrupted contact between Egypt and Western Asia across the Sinai land bridge In the vivid and lucid style that we expect from the author of the popular Akhenaten Redford presents a sweeping narrative of the love hate relationship between the peoples of ancient Israel Palestine and Egypt

Scribal Repertoires in Egypt from the New Kingdom to the Early Islamic Period Jennifer Cromwell, Eitan Grossman, 2018 Scribal Repertoires in Egypt from the New Kingdom to the Early Islamic Period deals with the possibility of glimpsing pre modern and early modern Egyptian scribes the actual people who produced ancient documents through the ways in which they organized and wrote those documents While traditional research has focused on identifying a pure or original text behind the actual manuscripts that have come down to us from pre modern Egypt the volume looks instead at variation different ways of saying the same thing as a rich source for understanding the complex social and cultural environments in which scribes lived and worked breaking with the traditional conception of variation in scribal texts as free or indicative of corruption As such it presents a novel reconceptualization of scribal variation in pre modern Egypt from the point of view of contemporary historical sociolinguistics seeing scribes as agents embedded in particular geographical temporal and socio cultural environments Introducing to Egyptology concepts such as scribal communities networks and repertoires among others the authors then apply them to a variety of phenomena including features of lexicon grammar orthography palaeography layout and format After first presenting this conceptual framework they demonstrate how it has been applied to better studied pre modern societies by drawing upon the well established domain of scribal variation in pre modern English before proceeding to a series of case studies applying these concepts to scribal variation spanning thousands of years from the languages and writing systems of Pharaonic times to those of Late Antique and Islamic Egypt

The Late New Kingdom in Egypt (c. 1300-664 BC) M. L. Bierbrier, 2024-07-15

The period of Egypt's Ramesside empire is best known for its foreign wars and monumental buildings but the chronological history of many of its rulers and pre-eminent priests and their genealogies was poorly understood. While it was not possible to fix the chronology exactly, a combination of known dates or date ranges such as for the accession of Ramesses II and the determination of family trees that extended over a large period enabled Bierbrier to present a much closer definition of the span of individual dynasties and their key figures than had been possible previously. That volume is reissued here in facsimile. An important source of information is the genealogical references on funerary statues and tomb paintings though vocabulary used is limited and often ambiguous. There are also several types of statuary set up by individuals for different purposes, most frequently by sons or descendants to cause the name of the deceased to live on, many of which may have been created before the death of the individual commemorated. Taking into account these and other difficulties, Bierbrier's painstaking research proved groundbreaking in elucidating the chronology, sequences of events and family connections of the period from the official families of the XIXth Dynasty through those of the XXVth.

Rameses III, King of Egypt Aidan Dodson, 2019-11-19

Master story teller and renowned Egyptologist Aidan Dodson reveals the secrets of Rameses III in this fully illustrated accessible history, the first to exclusively cover this last great pharaoh by the author of the bestselling *Sethy I*. Rameses III, often dubbed the last great pharaoh, lived and ruled during the first half of the twelfth century BC, a tumultuous time that saw the almost complete overthrow of established order in the eastern Mediterranean and among Rameses's achievements was the preservation of Egypt as a nation state in the face of external assault. However, his reign also saw economic challenges and increasing dissatisfaction which culminated in the king's own assassination. This richly illustrated book is the latest in a series that aims to provide accounts of key figures in ancient Egyptian history that covers not only their life stories but also their rediscovery and reception in modern times. Accordingly, it follows the king from his birth to his resurrection through modern research, describing the key events of the reign, his major monuments and the people and events that led to these becoming once again known to the world.
