**Catalog of Copyright Entries** Library of Congress. Copyright Office, 1968 **Mapping in Michigan & the Great Lakes Region** David I. Macleod, 2007 An illustrated chapter on the renowned Michigan map expert Louis Karpinski opens this volume following a comparative introduction by the noted cartographic historian David Buisseret Twelve chapters tell particular stories Often these narratives extend well beyond the limits of today's state of Michigan American Indian mapmakers sought to give directions and convey cosmological meanings and political relationships only gradually did they adopt the geometric framing and uniformity of European maps which reflected a different set of cultural attitudes Would be colonial governors mapped to promote their dreams Boundary commissioners surveyed and mapped to settle contested claims and lay the foundations for peace along the U S Canadian border On the Canadian side surveyors drew maps to build

up the new British colony against American influences and encroachments Mapmakers were also ambitious entrepreneurs peddling illustrated county atlases to proud farm owners bird s eye views to show off towns and plat and insurance maps to aid property development In describing how people produced and used maps contributors tell a larger story of one region s peoples and cultures and of a nation s zeal for exploration *Auto Road Atlas of the United States* Rand McNally and Company,1926 **Catalog of Copyright Entries, Third Series** ,1961 The record of each copyright registration listed in the Catalog includes a description of the work copyrighted and data relating to the copyright claim the name of the copyright claimant as given in the application for registration the copyright date the copyright registration number etc **Public Roads** ,1999 **Rand McNally Official Guide and Hand Book** ,1901 *Federal Register* ,1980-07-21 **Rand McNally's America** ,1989 *Catalog of Copyright Entries, Third Series* Library of Congress. Copyright Office,1968 The record of each copyright registration listed in the Catalog includes a description of the work copyrighted and data relating to the copyright claim the name of the copyright claimant as given in the application for registration the copyright date the copyright registration number etc **Cartographies of Travel and Navigation** James R. Akerman,2010-11-15 Finding one s way with a map is a relatively recent phenomenon In premodern times maps were used if at all mainly for planning journeys in advance not for guiding travelers on the road With the exception of navigational sea charts the use of maps by travelers only became common in the modern era indeed in the last two hundred years maps have become the most ubiquitous and familiar genre of modern cartography Examining the historical relationship between travelers navigation and maps *Cartographies of Travel and Navigation* considers the cartographic response to the new modalities of modern travel brought about by technological and institutional developments in the twentieth century Highlighting the ways in which the travelers operators and planners of modern transportation systems value maps as both navigation tools and as representatives of a radical new mobility this collection brings the cartography of travel by road sea rail and air to the forefront placing maps at the center of the history of travel and movement Richly and colorfully illustrated *Cartographies of Travel and Navigation* ably fills the void in historical literature on transportation mapping *Dictionary Catalog of the Map Division* New York Public Library.
