It foregrounds the developments and trends, policies and implementation as well as research and practice. Written by ELT scholars and educational leaders, this book presents articles on China, Hong Kong, India, Japan, Korea, Malaysia, the Philippines, Singapore, Thailand, and Vietnam. While the authors focus on their own local issues, providing an overview of the state of tertiary English teaching in their respective territories, they also provide insights from their successes and failures which can help inspire solutions to similar challenges faced internationally in the field. Chapters in the book include: Heading toward the global standardization of English education in Korean universities; English in tertiary education in India: A Janus-faced perspective with special reference to University of Delhi; Developing English language skills in the Singapore higher education context; ELT at tertiary institutions in China: A developmental perspective. This book will be valued by administrators, researchers, and scholars interested in bilingualism, language policy, and planning in higher education. **Focusing on EFL Reading** Rahma

Al-Mahrooqi, Adrian Roscoe, 2014-06-02. Reading a complex and multi-faceted skill is essential for life and academic success. While its mysteries still baffle first language research, the nature of reading in a foreign language presents an even greater puzzle. However, given reading's importance for EFL students who study their specializations in English and whose future employment may depend on their competence in it, researchers must continue to investigate foreign language reading and devise ways of improving students' capacity for it. Hence, this book with its thorough coverage of up-to-date theory, practice, and research will be of great value in today's educational context. As they strive to understand reading and help EFL students to acquire it, researchers and language teachers will find much of value here. *Catalogue* University of the Philippines, 1926

Understanding Advanced Second-Language Reading Elizabeth Bernhardt, 2010-09-13. What distinguishes this book is its broad yet thorough view of theory, process, and research on adult second language reading. Offering extensive discussions of upper register second language texts, both expository and narrative, that adult second language readers encounter daily across the globe, it also presents an assessment schema for second language text comprehension as well as for the assessment of teaching. *Understanding Advanced Second Language Reading* includes languages other than English in the discussion of second language reading, is firmly anchored in a theory of second language reading, the concept of compensatory processing emphasizes the multi-dimensionality and dynamic nature of L2 reading development, focuses on comprehension of upper register literary texts, balances theory and instructional practices. Filling the need for a coherent, theoretically consistent, and research-based portrait of how literate adolescents and adults comprehend and learn to comprehend at greater levels of sophistication, and whether that ability can be enhanced by instruction, this is a must-have resource for reading and second language researchers, students, and teachers. Ideogram J. Marshall Unger, 2003-10-31. In this latest book, J. Marshall Unger exposes the historical, scientific, cultural, and practical flaws accompanying the widespread belief that Chinese characters embody pure language, less meaning.
