Weird Westerns is an exploration of the hybrid western genre an increasingly popular and visible form that mixes western themes iconography settings and conventions with elements drawn from other genres such as science fiction horror and fantasy Despite frequent declarations of the western's death the genre is now defined in part by its zombie like ability to survive in American popular culture in weird reanimated and reassembled forms The essays in *Weird Westerns* analyze a wide range of texts including those by Native American authors Stephen Graham Jones Blackfeet and William Sanders Cherokee the cult television series *Firefly* and *The Walking Dead* the mainstream feature films *Suicide Squad* and *Django Unchained* the avant garde and bizarre fiction of Joe R Lansdale the tabletop roleplaying game *Deadlands The Weird West* and the comic book series *Wynonna Earp* The essays explore how these weird westerns challenge conventional representations by destabilizing or subverting the centrality of the heterosexual white male hero but also often surprisingly reinforce existing paradigms in their inability to imagine an existence outside of colonial frameworks **Deadlands: Worms** John V Goff, Pinnacle Entertainment
