Messick, Freedom House (U.S.),1996-01-01 The World Survey of Economic Freedom reports on eighty two nations in the Americas Western Europe Central East Europe and NIS Newly Independent States Asia the Middle East and Africa surveyed by Freedom House during 1995 For each nation background information is provided as well as answers to questions about freedom to hold property to earn a living to operate a business to invest one's earnings to trade internationally to participate in a market economy and freedom from unreasonable government interference in the economy By focusing attention on nations in which economic freedom is denied and in which individuals are not free to buy and sell and trade in a market economy this Freedom House survey advances the cause of democracy **Economic Freedom of the World, 2002** James D. Gwartney,Robert A. Lawson,J. R. Clark,2015 The Economic Freedom of the World EFW annual reports have presented an economic freedom index for a large set of nations around the world This index is designed to measure the degree to which a nation's policies and institutions protect its citizens economic freedom In this article we explain the basic methodology employed in constructing the index and summarize the study's findings Many factors influence the degree of economic freedom Although no single statistic can capture all of them and their interrelations fully the index presented here captures most of the important elements and provides a reasonably good measure of cross country differences in economic freedom The identification of these differences has been useful for researchers interested in the relationship between economic freedom and other economic variables such as income economic growth income equity and environmental quality To date dozens of scholarly articles and hundreds of policy and journalistic reports have made use of the index Economic Freedom of the World James D. Gwartney,Robert Lawson,2001 Economic Freedom of the World James Gwartney,2008 The most comprehensive index of economic freedom in the world and the only one that uses reproducible measures appropriate for peer reviewed research this annual report ranks 142 countries according to the degree of personal choice voluntary exchange freedom to compete and protection of person and property enjoyed by their citizens Each year the preparation of the report is overseen by the Fraser Institute of Canada and has been strongly supported by the legendary economist Milton Friedman to whose memory the present year's edition is dedicated **World Survey of Economic Freedom** ,1995 **Economic Freedom of the World** James D.
