Rational Theology And The Creativity Of God:

Rational theology and the creativity of God Keith Ward,1982 **Evil and the Evidence for God** R. Douglas Geivett,1995-08 How to reconcile the existence of evil with the belief in a benevolent God has long posed a philosophical problem to the system of Christian theism This work redress this difficulty in modern terms **God and Faith** Ian S. Markham,J. D. Bauman,2025-03-31 Discover the profound insights of Keith Ward one of the most influential theologians of our time through a dynamic collection of essays and responses This seminar research textbook immerses readers in deep dialogue on some of the toughest theological questions Explore philosophical idealism process theology epistemology open theism comparative theology and the interplay between science and religion Each chapter is enriched with critical reflection questions and contributions from distinguished scholars followed by Ward s insightful responses Perfect for students scholars and anyone interested in deepening their understanding of theology philosophy and science this book offers a comprehensive and thought provoking exploration of faith and reason **God, Truth, and Reality** Arvind Sharma,2011-08-25 All arts and sciences in their own way ultimately try to come to grips with reality What sets philosophy theology and religion apart is that they grapple with ultimate reality Over the decades spanned by John Hick s life in the course of this grappling reminiscent of Jacob s nocturnal encounter with the angel philosophy became analytic theology dialogical and religion comparative along one line of development In these essays written in honour of Professor Hick leading world scholars in these fields share their most recent insights They are so to speak postcards from the cutting edge *The Christian Idea of God* Keith Ward,2017-09-28 A robust defence of the philosophy of Idealism the view that all reality is based on Mind which shows that this is strongly rooted in classical traditions of philosophy *All Things Come into Being Through Him* David O. Brown,2023-04-15 David O Brown demonstrates how it is possible to embrace deism without that leading to those problems deism presents to the Christian namely the denial of providence and rejection of the incarnation **Most Moved Mover** Clark H. Pinnock,2019-10-01 In 1994 Clark Pinnock along with four other scholars published *The Openness of God* which set out a new evangelical vision of God one centered on his open relational and responsive love for creation Since then the nature of God has been widely discussed throughout the evangelical community Now Pinnock returns with *Most Moved Mover* to once again counter the classical deterministic view of God and defend the relationality and openness of God This engaging defense of openness theology begins with an analysis of the current debate followed by an explanation of the misconceptions about openness theology and a delineation of areas of agreement between classical and openness theologians *Most Moved Mover* is for all evangelicals regardless of their viewpoint as it lays out the groundwork for future discussions of the open view of God *Science, Consciousness and Ultimate Reality* David Lorimer,2016-11-30 This interdisciplinary volume arises out of a series of university events arranged by the Scientific and Medical Network between November 2001 and July 2003 The Science Consciousness and Ultimate Reality project was set up with the support of the John Templeton

Foundation in order to examine critical issues at the interface between science religion and the relatively new field of consciousness studies The results give a variety of fascinating perspectives on this emerging area David Lorimer has brought together an impressive list of contributors representing the diverse fields of physics neuroscience psychology theology and moral philosophy Denis Alexander Bernard Carr Chris Clarke Guy Claxton Peter Fenwick David Fontana John Habgood Mary Midgley Ravi Ravindra Alan Torrance and Keith Ward

Ethics and Religion in a Pluralistic Age Brian Hebblethwaite,1998-01-01 This important work explores the distinctiveness of Christian ethics particularly through its interconnections with doctrine and the wider history of religions Brian Hebblethwaite shows how the distinctiveness of Christian ethics can be understood and appreciated He brings out the complex nature of that distinctiveness in Christian individuals and communities as they reflect something of the triune love of God and in contemporary humanism and major world faiths in which this love is also discernable He concludes with an extended exploration of the strengths and weaknesses of the different religions in their contributions to the overcoming of evil

Jonathan Edwards's Vision of Reality John J. Bombaro,2011-10-19 Since the publication of Sang Hyun Lee's revolutionary commentary The Philosophical Theology of Jonathan Edwards scholars have considered the possibilities of understanding Jonathan Edwards's thought in terms of dispositional laws forces and habits While some scholars reject the notion of a dispositional ontology in Edwards others have taken the concept of disposition in his thought beyond the usage the Northampton minister ever indicated especially with respect to soteriological considerations The preacher of Sinners in the Hands of an Angry God is made to be an inclusivist if not a crypto universalist Jonathan Edwards's Vision of Reality substantiates that Edwards in an effort to combat deistic and materialistic Enlightenment paradigms employs dispositions in his philosophy but that his radical theocentrism and Calvinistic particularism established its boundaries within his apologetical reconsideration of spatiotemporal and metaphysical reality Within his spiritual vision of reality Edwards leaves no stone unturned history and even the reprobate find inherent value and a positive functional role not only in God's program of self glorification but as manifestations of divine being the damned are deformities in God The logic of Edwards's theocentric vision of reality pushes his ideas to the limits of acceptable Reformed orthodoxy and sometimes beyond those limits

God's Future for Animals Raymond R. Hausoul,2021-08-16 God loves animals and gives them a special place in creation So do animals also have a place in God's work of redemption Will there be animals on the new Earth Will we see our beloved pets in the afterlife This book takes up the challenge to think in a responsible way through these questions The author focuses in particular on the physical restoration the prophetic proclamation of the coming animal peace the attitude of God and humanity towards animals and the question of the relationship between biblical life the future of animals and vegetarianism What can the Bible and Christian doctrine reveal to us about God's way with animals

Divine Providence and Human Agency Alexander S. Jensen,2016-05-13 Divine Providence and Human Agency develops an understanding of God and God's relation to creation

that perceives God as sovereign over creation while at the same time allowing for a meaningful notion of human freedom This book provides a bridge between contemporary approaches that emphasise human freedom such as process theology and those influenced by it and traditional theologies that stress divine omnipotence This book argues that it is essential for Christian theology to maintain that God is ultimately in charge of history otherwise there would be no solid grounds for Christian hope Yet the modern human self understanding as free agent within certain limitations must be taken seriously Jensen approaches this apparent contradiction from within a consistently trinitarian framework Jensen argues that a Christian understanding of God must be based on the experience of the saving presence of Christ in the Church leading to an apophatic and consistently trinitarian theology This serves as the framework for the discussion of divine omnipotence and human freedom On the basis of the theological foundation established in this book it is possible to frame the problem in a way that makes it possible to live within this tension Building on this foundation Jensen develops an understanding of history as the unfolding of the divine purpose and as an expression of God s very being which is self giving love and desire for communion This book offers an important contribution to the debate of the doctrine of God in the context of an evolutionary universe

God as Sacrificial Love Asle Eikrem, 2018-01-25 In dialogue with a range of post enlightenment critiques of Christian theologies regarding sacrificial love Asle Eikrem presents an unconventional systematic approach to this multi layered and complex theological topic From Hegel to prominent 20th century theologians from feminist theologies to postmodern philosophers this volume engages in a critical conversation with a host of different voices on all the classical topics in theology creation trinity incarnation atonement sin faith sacraments and eschatology also providing a moral and socio historical vision for Christian living The result is a unique appraisal of the significance that the life and death of Jesus holds for the world today

Understanding Christian Doctrine Ian S. Markham, 2017-06-06 The comprehensive and engaging introduction to contemporary Christianity revised and updated The second edition of Understanding Christian Doctrine presents a completely updated and revised edition that builds on the most popular features of the first edition to offer a lively overview to the central beliefs of Christianity Ian S Markham a noted authority of Christianity discusses the great thinkers of the Christian tradition and puts them in conversation with contemporary progressive theologies in a book that goes from Augustine Aquinas and Luther to Liberationist Feminist and Queer theologies Designed to be a basic primer the text is written in a manner that assumes the reader has no prior knowledge of theology or Christian doctrine The book is designed to present the basic options in all the key areas of Christianity as well as information on how to make complex theological decisions The author tackles all the key questions from creation to eschatology Furthermore Markham makes his own distinctive contribution he argues that theodicy traditionally seen as a major difficulty with belief is actually a theme that links many aspects of Christian doctrine The revised second edition includes a wealth of new information including A lively and comprehensive introduction to Christianity that assumes no prior knowledge of the faith An overview to the great

thinkers of Christian tradition that puts them in conversation with progressive liberationist theologies Suggestions that help even the most skeptical to learn to understand and possibly embrace theological assertions Breakout boxes that explain the significance of the text s various philosophical ideas and positions The text is ideal for anyone interested in learning about the foundations of Christianity as well as new ideas about the faith Christianity is presented in a manner that embraces the richness of the tradition and affirms the central claims of the historical creeds while engaging with liberationist challenges to the tradition

Science and Creation John C. Polkinghorne, 2009-07-27 John C Polkinghorne internationally renowned priest scientist addresses fundamental questions about how scientific and theological worldviews relate to each other in this the second volume originally published in 1988 of his trilogy which also included *Science and Providence* and *One World* Dr Polkinghorne illustrates how a scientifically minded person approaches the task of theological inquiry postulating that there exists a close analogy between theory and experiment in science and belief and understanding in theology He offers a fresh perspective on such questions as Are we witnessing today a revival a natural theology the search for God through the exercise of reason and the study of nature How do the insights of modern physics into the interlacing of order and disorder relate to the Christian doctrine of Creation What is the relationship between mind and matter Polkinghorne states that the remarkable insights that science affords us into the intelligible workings of the world cry out for an explanation more profound than that which it itself can provide Religion if it is to take seriously its claim that the world is the creation of God must be humble enough to learn from science what that world is actually like The dialogue between them can only be mutually enriching

The Theodicy of Peter Taylor Forsyth Theng Huat Leow, 2011-11-08 The theodicy of the remarkable Scottish Congregationalist theologian Peter Taylor Forsyth has long been recognized as a vital and significant contribution to twentieth century theology Up until now however there has not been a substantial full length treatment of Forsyth s work on the problem of evil The *Theodicy of Peter Taylor Forsyth* fills this lacuna by setting out in a fairly systematic and comprehensive manner Forsyth s justification of God in the face of evil In so doing it also illuminates several other related areas of his thought such as his epistemology and Christology as well as his understanding of sin the atonement providence divine passibility human origins and the God world relationship Bringing Forsyth s approach to the subject into conversation with other prominent thinkers like Leibniz Dostoyevsky Camus Moltmann Hick Bauckham and Fiddes this book also suggests ways in which Forsyth s justification of God contributes to the current state of Christian theodicy It highlights Forsyth s ability to integrate insights from different approaches even those that have hitherto generally been considered diametrically opposed notions Forsyth s theodicy therefore presents an integrative approach to the topic with every theme flowing from and returning to a clear center the cross of Christ As the book also makes clear Forsyth considers theodicy to be an immensely practical discipline with significant implications for human life In every sense therefore it constitutes a crucial justification of the ways of God to humanity

Ontology and Providence in Creation Mark Ian Thomas

Robson,2008-10-01 Examines and rejects a particular philosophical understanding of the processes of creation ex nihilo taking into account Leibniz's originating thesis and its development in the modern world Analytic Theism, Hartshorne, and the Concept of God Daniel A. Dombrowski,1996-10-10 This book initiates a dialogue where one does not exist and continues a dialogue where one has been tentatively initiated regarding the concept of God in the neoclassical philosophy of Charles Hartshorne and that found in analytic philosophers who adhere to classical theism Two distinctive features of the book are a careful examination of Hartshorne's use of position matrices in the philosophy of religion so as to avoid a myopic view of the theoretical options open to us and an extended treatment of the largely uncritical appropriation by analytic theists of the Aristotelian tradition in theology a tradition that relies on a certain form of Platonism not necessarily held by Plato **The Problem of Evil and the Power of God** Atle Ottesen Søvik,2011-05-23 This book discusses four different answers to the problem of evil provided by Richard Swinburne Keith Ward David Griffin and Johan Hygen The author suggests several improvements to these answers and concludes that there is a coherent answer to the problem of evil God, Time, and Eternity W.L. Craig,2013-03-14 Those who think about time are thinking deeply Those who think about God are thinking even more deeply still Those who try to think about God and time are pressing the very limits of human understanding Undaunted this is precisely the project which we have set for ourselves in this study to try to grasp the nature of divine eternity to understand what is meant by the affirmation that God is eternal to formulate a coherent doctrine of God's relationship with time This study the second installment of a long range research program devoted to a philosophical analysis of the principal attributes of God flows naturally out of my previous exploration of divine omniscience For the most contentious issue with respect to God's being omniscient concerns divine foreknowledge of future contingents such as free acts of human agents The very concept of foreknowledge presupposes that God is temporal and a good many thinkers from Boethius to certain contemporary philosophers have thought to avoid the alleged incompatibility of divine foreknowledge and human freedom by affirming the timelessness of God Thus in examining the complex of issues surrounding the foreknowledge question we found ourselves already immersed in the question of divine eternity
