in a shady grove an owl swooping silently across a wooded path or an infinitely starry sky and found themselves in a state of expanded awareness so profound they can feel the interconnectedness of all life These trance like moments of clarity unity and wonder often incite a call to protect and preserve the earth to support Nature as she supports us Termed nature mysticism people from all cultures have described such experiences However the ever increasing urbanization of the world s population is threatening this ancient connection as well as the earth itself In Ecomysticism Carl von Essen explores nature mysticism through the recorded experiences of outdoor enthusiasts as well as scientific studies in biology psychology and neuroscience Citing consciousness scholar William James and a variety of well known nature lovers such as Ansel Adams Henry David Thoreau and Ralph Waldo Emerson von Essen shows how the spiritual transcendence from an encounter in nature like other mystical experiences is healing the Nature Deficit Disorder of our psyches and bodies leading to an expansion of our worldview and a clearer understanding of our self and of our natural world Offering a solid bridge between spiritual practice and environmental activism von Essen's spiritual ecology reveals how only through a renewal of humanity s spiritual connection to nature can we effect true environmental healing A Mystical Philosophy Donna J. Lazenby, 2014-01-30 Revealing in an original and provocative study the mystical contents of the works of famous atheists Virginia Woolf and Iris Murdoch Donna Lazenby shows how these thinkers refusal to construe worldviews on available reductive models brought them to offer radically alternative pictures of life which maintain its mysteriousness and promote a mystical way of knowing A Mystical Philosophy contributes to the contemporary resurgence of interest in Spirituality but from an entirely new direction This book provides a warning against reductive scientific and philosophical models that impoverish our understanding of ourselves and the world and a powerful endorsement of ways of knowing that give art and a restored concept of contemplation their consummative place Claudel Angelo Caranfa, 1989 Exploring Paul Claudel s relationship to the creative geniuses Gide Merleau Ponty Proust Redon Sartre Van Gogh and Weil this work clearly demonstrates Claudel's centrality to aesthetic philosophy in France and the profound connection in his work between Symbols of the Kabbalah Sanford L. Drob,1999-11-01 Symbols of the Kabbalah aesthetics and religious faith Philosophical and Psychological Perspectives provides a philosophical and psychological interpretation of the major symbols of the theosophical Kabbalah It shows that the Kabbalah particularly as it is expressed in the school of Isaac Luria provides a coherent and comprehensive account of the cosmos and humanity s role within it that is intellectually morally and spiritually significant for contemporary life Egocentricity and Mysticism Ernst Tugendhat, 2016-10-04 In Egocentricity and Mysticism Ernst Tugendhat casts mysticism as an innate facet of what it means to be human a response to an existential need for peace of mind This need is created by our discursive practices which serve to differentiate us from one another and privilege our respective first person standpoints Emphasizing the first person fuels a desire for mysticism which builds knowledge of what binds us together and connects us to the world Any intellectual pursuit that prompts us to step back from

our egocentric concerns harbors a mystic kernel that manifests as a sense of awe wonder and gratitude Philosophy the natural sciences and mathematics all engender forms of mystical experience as profound as any produced by meditation and asceticism One of the most widely discussed books by a German philosopher in decades Egocentricity and Mysticism is a philosophical milestone that clarifies in groundbreaking ways our relationship to language social interaction and mortality

Becoming Bamboo Robert E. Carter, 1992-03-27 The many problems we face in today s world among them war environmental destruction religious and racial intolerance and inappropriate technologies demand that we carefully re evaluate such issues as our relation to the environment the nature of progress ultimate purposes and human values These are all issues Robert Carter explains that are intimately linked to our perception of life's meaning While many books discuss life s meaning either analytically or prescriptively Carter addresses values and ways of meaningful living from a broader perspective using Japanese philosophy to augment his investigation He examines Martin Heidegger's distinction between dwelling and existing in the world Lawrence Kohlberg's stage seven of human moral development and the works of Viktor Frankl Carol Gilligan and Nel Noddings He applies hermeneutic and deconstructionist theory to the question of meaning and explores the feminist contribution to ethics and its relation to the interconnectedness of things celebrated in Zen and Shinto thought Bridging various dichotomies such as East West reason emotion male female and caring justice Carter shows that ethics environmental concern caring and joy in living are dependent on the growth and transformation of the self Only by becoming aware of the interrelatedness of things Carter reveals can we become as supple and as strong as the bamboo tree long the symbol of longevity and constancy Maimonides' Cure of Souls David Bakan, Dan Merkur, David S. Weiss, 2010-07-02 Is Moses Maimonides an unacknowledged ancestor of the psychoanalytic movement In this book David Bakan Dan Merkur and David S Weiss look at the great medieval Jewish philosopher's prescription for the cure of souls and its psychological significance In the Guide of the Perplexed Maimonides who was also a physician describes the soul s illness when sinners rationalize evil as good they limit their capacities to reason imagine and behave well which also produces physical symptoms The cure depends on repentance in love and fear of God that is attained through philosophical knowledge the interpretation of dreams and visions and mystical contemplation The authors look at the Aristotelian background of Maimonides psychology Maimonidean mysticism his beliefs about prophecy and sexuality and what is known of Maimonides client population A final chapter discusses Maimonides and Freud noting that many distinctive features of the cure of souls are shared by Freud's original formulation of psychoanalysis Indeed the many points of convergence suggest Freud's direct or indirect contact with Maimonides legacy Modern Theories of Religion Eric Strickland Waterhouse, 1910 Reaching Deeper Laurel Hallman, 2008-05-27 A sermon is an event in a particular time and place with a particular preacher and congregation With the exception of one essay and one sermon preached in a larger context the place was The First Unitarian Church of Dallas Texas a church firmly in the Bible Belt with a people seeking open minded and open hearted wisdom for life clarity of purpose and the nourishment of worshipping together in the music silence prayer and preaching of a specific Unitarian Universalist Church These sermons are an inadequate representation of what happened when they were preached And in turn they are an inadequate effort by the preacher who after all is human They were preached each week whether the preacher was ready or not They have been slightly edited for clarity but remain largely as a text for preaching That is to say the sentences are often incomplete and the text sometimes follows a circuitous path to make a point That said this selection of sermons taken as a whole represents the deepening of a congregation and minister over time and should be read with the grace and forgiveness that was present when they were delivered
