Rationalism in Politics, and Other Essays Michael Oakeshott, 1962 Philosophy, Dialogue, and Education Alexandre Guilherme, W. John Morgan, 2017-10-19

Philosophy Dialogue and Education is an advanced introduction to nine key European social philosophers Martin Buber Mikhail Bakhtin Lev Vygotsky Hannah Arendt Emmanuel Levinas Maurice Merleau Ponty Simone Weil Michael Oakeshott and Jürgen Habermas This detailed yet highly readable work positions the socio political views of each philosopher within a European tradition of dialogical philosophy and reflects on the continuing theoretical relevance of the work of each to education generally and to critical pedagogy The discussion in each chapter is informed by materials drawn from various scholarly sources in English and is enriched by materials from other languages particularly French German and Russian This enhances the comparative European cultural perspective of the book and connects the work of each philosopher to wider intellectual political and social debates The book will appeal to academics postgraduates and researchers working in philosophy philosophy of education and in educational cultural and social studies more generally Advanced undergraduate students would also benefit from the book's discussion of primary sources and the authors suggestions for further reading

Post-Liberalism John Gray, 2014-02-04 John Gray has become one of our liveliest and most influential political philosophers This current volume is a sequel to his *Liberalism's Essays in Political Philosophy* The earlier book ended on a sceptical note both in respect of what a post liberal political philosophy might look like and with respect to the claims of political philosophy itself John Gray's new book gives post liberal theory a more definite content It does so by considering particular thinkers in the history of political thought by criticizing the conventional wisdom liberal and socialist of the Western academic class and most directly by specifying what remains of value in liberalism The upshot of this line of thought is that we need not regret the failure of foundationalist liberalism since we have all we need in the historic inheritance of the institutions of civil society It is to the practice of liberty that these institutions encompass rather than to empty liberal theory that we should repair

The Politics of Sex and Other Essays R. Grant, 2000-04-21 These essays cover topics as radically diverse as Charles Rennie Mackintosh Vladimir Havel The Magic Flute and *Viz* magazine All have been published before and many have already proved controversial The author a leading Oakeshott scholar contributes frequently to the TLS Witty moving and erudite his prose is also conspicuously graceful and clear This collection is addressed as much to the educated general reader as to the academic specialist It includes an otherwise almost unobtainable exchange with Sir Isaiah Berlin

Oakeshott and His Contemporaries Wendell John Coats, 2000 Oakeshott and His Contemporaries is an exploration of the ideas of one of the most important twentieth century English political philosophers vis à vis related ideas in the thought of seven prominent European thinkers spanning a millennium and a half The intent of the exploration is not an attempt to uncover Oakeshott's intellectual influences a dubious project in the case of any original thinker but rather to show the importance and coherence of Oakeshott's various themes by showing how they modify amplify and contrast with similar

and related themes in the thought of seven better known thinkers Montaigne St Augustine Hegel Hobbes Benjamin Constant Rousseau and Hume BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved

Cheung,2012-07-21 The Poetic Character of Human Activity is a collection of essays by two Oakeshott scholars most of which explores the meaning of Oakeshott's pregnant phrase the poetic character of human activity by comparing and contrasting this idea with similar and opposing ones in particular those of the Taoist thinker Zhuangzi Chuang Tzu and his Western interpreter A C Graham Oakeshott's deep appreciation of the poetic and non instrumental character of human activity led him to develop an interest in the works of Zhuangzi and Confucius Comparison of shared themes between Oakeshott and these two Chinese thinkers facilitates appreciation of his elegant analytic style and his resort to use of metaphors and story telling when conveying some of his most profound insights The collection also contains essays contrasting Oakeshott's idea of the creative in human experience with views of among others Plato Leo Strauss and Eric Voegelin Oakeshott used the phrase the poetic character of human activity arguably the animating center of his entire thought to refer to the creative character of human experiential reality that is to the fact that the form the how and content the what of all human experience and activity arise simultaneously and fluidly and can be separated only at the expense of theoretical coherence and practical skill The various essays in this collection explore the meaning of this claim and its ramifications for the proper role of critical intellect in especially philosophy morality learning and governance There is also some brief contrast of Oakeshott with John Rawls Alasdair MacIntyre Charles Taylor and Quentin Skinner **Michael Oakeshott on Religion, Aesthetics, and Politics**

Elizabeth Campbell Corey,2006 Argues that Oakeshott's views on aesthetics religion and morality which she places in the Augustinian tradition are intimately linked to a creative moral personality that underlies his political theorizing Also compares Oakeshott's Rationalism to Voegelin's concept of Gnosticism and considers both thinkers treatment of Hobbes to delineate their philosophical differences Provided by publisher **Michael Oakeshott Selected Writings Collection**

Michael Oakeshott,2014-08-26 A collection of 6 volumes of Oakeshott's work Notebooks 1922-86 Early Political Writings 1925-30 The Concept of a Philosophical Jurisprudence Vocabulary of a Modern European State Lectures in the History of Political Thought and What is History **The Methodology of Constitutional Theory** Dimitrios Kyritsis,Stuart

Lakin,2022-02-24 What sort of methods are best suited to understanding constitutional doctrines and practices Should we look to lawyers and legal methods alone or should we draw upon other disciplines such as history sociology political theory and moral philosophy Should we study constitutions in isolation or in a comparative context To what extent must constitutional methods be sensitive to empirical data about the functioning of legal practice Can ideal theory aid our understanding of real constitutions This volume brings together constitutional experts from around the world to address these types of questions through topical events and challenges such as Brexit administrative law reforms and the increasing polarisations in law politics and constitutional scholarship Importantly it investigates the ways in which we can ensure that constitutional scholars do not talk past each other despite their persistent and often fierce disagreements In so doing it aims systematically to re-examine the methodology of constitutional theory Fred Dallmayr Farah Godrej,2017-06-26 Fred

Dallmayr's work is innovative in its rethinking of some of the central concepts of modern political philosophy challenging the hegemony of a modern subjectivity at the heart of Western liberalism individualism and rationalism and articulating alternative voices claims and ideas His writings productively confound the logocentrism of Western modernity while providing alternative conceptions of political community that are post individualist post anthropocentric and relational The editor has focused on work in three key areas Critical phenomenology and the study of politics The first selections focus on the philosophical roots of Dallmayr's work in two of the most innovative intellectual trends of the twentieth century phenomenology and critical theory These chapters outline some of the main arguments advanced by practitioners of phenomenology particularly existential phenomenology as well the guiding ideas of critical theory and critical Marxism while tracing Dallmayr's debt to thinkers such as Heidegger Gadamer Habermas Adorno and Merleau Ponty Cross cultural theory These readings illustrate Dallmayr's explorations beyond the confines of Western culture as this phase of his thinking turns toward what is now called cross cultural or comparative political theory In an approach that maintains its linkage with critical phenomenology Dallmayr asserts that Western or European American political theory can no longer claim undisputed hegemony rather it must allow itself to be contested amplified and corrected through a comparison with non Western theoretical traditions and initiatives Cosmopolitanism These selections explore the final phase of Dallmayr's work in which he applies his insights on cross cultural studies to the context of global politics rebutting Samuel Huntington's clash of civilizations thesis and instead arguing for a cosmopolitanism that takes a middle path between both global universalism and restrictive particularism advocating sustained dialogue and respectful mutual learning between countries and civilizations

Freedom and Vengeance on Film Robert E. Watkins, 2016-05-31 Films both reflect and construct social reality especially in the way they employ affirm and critique the discourses through which we grasp political life This book examines five contemporary feature films that engage our deep attachments to two core political ideas freedom and vengeance asking what do audiences learn about freedom and vengeance from film and what are the political consequences of the reproduction or disruption of their meanings Often contemporary films represent the pursuit of freedom and revenge in a depoliticized way erasing the precarious character of social life Other films however foreground the negotiation of unchosen relations and circumstances in their drama Films examined include *Into the Wild* *Mystic River* *The Three Burials of Melquiades Estrada* *Wendy and Lucy* and *Winter's Bone*

Michael Oakeshott and the Conversation of Modern Political Thought Luke Philip Plotica, 2015-02-23 One of the seminal voices of twentieth century political thought Michael Oakeshott's work has often fallen prey to the ideological labels applied to it by his interpreters and commentators In this book Luke Philip Plotica argues that we stand to learn more by embracing Oakeshott's own understanding of his work as contributions to an ever evolving conversation of humanity Building from Oakeshott's concept of conversation as an engagement among a plurality of voices without symposiarch or arbiter to dictate its course Plotica explores several fundamental and recurring themes of Oakeshott's philosophical and political writings individual agency tradition the state and democracy When viewed as interventions into an ongoing conversation of modern political thought Oakeshott's work transcends the limits of familiar ideological labels and his thought opens into deeper engagement with some of the most significant thinkers of the twentieth century including Ludwig Wittgenstein Charles Taylor Michel Foucault and Hannah Arendt Attending to these often unexpected or unrecognized affinities casts fresh light on some of Oakeshott's most familiar ideas and their systematic relations and facilitates a better understanding of the breadth and depth of his political thought

History's Fools David Martin Jones, 2020-03-09 The end of the Cold War announced a new world order Liberal democracy prevailed ideological conflict abated and world politics set off for the promised land of a secular cosmopolitan market friendly end of history Or so it seemed Thirty years later this unipolar worldview premised on shared values open markets open borders and abstract social justice lies in tatters What happened David Martin Jones examines the progressive ideas behind liberal Western practice since the end of the twentieth century at home and abroad This mentality he argues took an excessively long view of the future and a short view of the past abandoning politics in favour of ideas and failing to address or understand rejection of liberal norms by non Western others He explores the inevitable consequences of

this liberal hubris political and economic confusion with the chaotic results we have seen Finally he advocates a return to more sceptical political thinking with prudent statecraft abroad and defence of political order at home in order to rescue the West from its widely advertised demise History's Fools is a timely account of the failed project to shape the world in the West's image and an incisive call for a return to true politics

Temporal Boundaries of Law and Politics Luigi Corrias, Lyana Francot, 2018-04-09 In the last decade the changing role of time in society has once again taken centre stage in the academic debate A prominent but surely not the only aspect of this debate hinges on the so called acceleration of time and its societal consequences Despite the fact that time is fundamental to the way in which law and politics function the influence of the contemporary experience of time on law and politics remains underdeveloped How for example does society's structural acceleration impact on justice Does law actually offer stability and predictability in an ever changing global world How can legal and political institutions function in the wake of ever increasing uncertainty Both law and politics employ time to order society but they are also limited in what can be effectuated by time It is this very tension between temporal possibilities and limitations that the contributors to this collection drawn from different fields of law as well as from other disciplines examine
