Rationality And Mind In Early Buddhism:

Rationality and Mind in Early Buddhism Frank J. Hoffman, 2002-01-01 Corrected Edition Rationality and Mind in Early Buddhism Frank J. Hoffman, 1987 Rationality and Mind in Early Buddhism Frederick John Hoffman, 1981 Rationality and Mind in Early Buddhism Frank John Hoffman, 1981 Studies in the Buddhistic Culture of India During the 7th and 8th Centuries A.D. Lal Mani Joshi, 1977-01-01 It is a pioneer attempt of its kind to study Indian Buddhism in its entirety as a system of rational philosophy profound faith and as a historical matrix of creative human culture and civilized institution during the 7th and 8th centuries the brilliant epoch of the University of Nalanda the mere name of which spells the great wonder that was Buddhism in Ancient India A chapter on the contribution of Buddhism to Indian Civilization has also been added The treatment of the subject is critical and integral though not traditional A Guide to Asian **Philosophy Classics** Pugun Li,2012-07-19 This book guides readers through ten classic works of Asian philosophy Several major schools of Eastern thought are discussed including Hinduism Buddhism Confucianism Daoism Taoism and Chan Zen The author connects the ideas of these schools to those of Western philosophy thereby making the material accessible to people who are unfamiliar with the cultures and intellectual traditions of Asia A wide range of important topics are addressed reality time self knowledge ethics human nature enlightenment and death Encyclopedia of Asian Philosophy Oliver Leaman, 2006-10-19 Incorporating cultural and religious contexts this unique Encyclopedia provides a vital guide to the main concepts and thinkers in Asian philosophy starting with Abhidharma and ending with Zurvan The main philosophical trends and thinkers in each geographical area are featured with an emphasis on endtemporary developments and movements The A Z structured encyclopedia emphasizes that Asian philosophy is not merely an ancient form of thought but that it is a living philosophy with roots in the past and also a potent and animate presence today This translates into the reciprocal exchange of theories between Eastern and Western thinking for example of new schools of thought such as orientalism Requiring no prior knowledge of philosophy religion or Asian cultures this book is essential reading for students teachers and the interested individual who wishes to gain an understanding of the philosophical basis to Asian cultural systems **Breaking** Barriers: Essays in Asian and Comparative Philosophy Frank J. Hoffman, Godabarisha Mishra, 2003 Breaking Barriers is a collection of invited contributions by distinguished philosophers scientists and religious thinkers of East and West in honor of Professor Ramakrishna Puligandla The twenty three essays in this volume may be divided into four groups 1 Philosophy of Advaita 2 Buddhism 3 Indian Philosophy and Physics and 4 Asian and Comparative Thought Contributors have written on topics such as the phenomenology of consciousness science and religion and comparative philosophy and religion The volume is designed to stimulate the interest of students professors and all those who wish to explore new knowledge In this volume the creative thought of leading thinkers from principal universities in India and elsewhere transcends words without insight

barren arguments and all limiting paradigms Breaking Barriers thus represents a multi disciplinary approach informed by

cross cultural philosophical vision Modern physics and classical Indian philosophy exist here in unity A Philosophical Analysis of Hope J. Waterworth, 2003-12-16 Despite the familiarity of hope in human experience it is a phenomenon infrequently considered from a philosophical point of view This book charts the centrality of hope in thought and action from first second and third person perspectives From everyday situations to extreme circumstances of trial and endings in life the contours of hope are given a phenomenological description and subjected to conceptual analysis This consistently secular account of hope sheds a different light on questions of agency and meaning **Philosophies of Appropriated Religions** Soraj Hongladarom, Jeremiah Joven Joaquin, Frank J. Hoffman, 2023-12-21 This book brings together different intercultural philosophical points of view discussing the philosophical impact of what we call the appropriated religions of Southeast Asia Southeast Asia is home to most of the world religions Buddhism is predominantly practiced in Thailand Vietnam Myanmar Singapore Laos and Cambodia Islam in Malaysia Indonesia and Brunei and Christianity in the Philippines and Timor Leste Historical data show however that these world religions are imported cultural products and have been reimagined assimilated and appropriated by the culture that embraced them In this collection we see that these appropriated religions imply a culturally nuanced worldview which in turn impacts how the traditional problems in the philosophy of religion are framed and answered in particular questions about the existence and nature of the divine the problem of evil and the nature of life after death Themes explored include religious belief and digital transition Theray da Buddhist philosophy religious diversity Buddhism and omniscience indigenous belief systems divine apology and unmerited human suffering dialetheism and the problem of evil Buddhist philosophy and Spinoza's views on death and immortality belief and everyday realities in the Philippines comparative religious philosophy gendering the Hindu concept of dharma Christian devotion and salvation during the Spanish colonial period in the Philippines through the writings of Jose Rizal indigenous Islamic practices in the Philippines practiced traditions in contemporary Filipino celebrations of Christmas role of place aspects in the appropriation of religions in Southeast Asia and fate and divine omniscience This book is of interest to scholars and researchers of philosophy of religion sociology of religion anthropology of religion cultural studies comparative religion religious studies and Asian studies **Purgatory** Kristof Vanhoutte, Benjamin W. McCraw, 2017-09-15 This book examines the concept of Purgatory However in contradistinction to the many monographs and edited volumes published in the past 50 years devoted to historical cultural or theological treatments of Purgatory especially in proportion to the voluminous output on Heaven and Hell this collection features papers by philosophers and other scholars engaged specifically in philosophical argument debate and dialogue involving conceptions of Purgatory and related ideas It exists to broaden the discussion beyond the prevailing trends in the academic literature and fills an important intellectual gap The Life of Buddha Edward Joseph Thomas, 1993-01-01 Authoriative account of the life of Buddha utilizing information never presented in a western form Texts in Context Jeffrey Richard Timm, 1992-01-01 The major religious traditions of South Asia are religions of the book

All accept basic arrays of texts of scriptures often seen as sacred reservoirs of meaning and power The West has viewed these texts as bibles of their respective traditions projecting onto them Western values and concerns This book challenges such misconceptions by revealing the complex character of scripture and its interpretation in South Asian religions Texts in Context explores the hermeneutical traditions of Hinduism Buddhism Jainism Islam and Sikhism The question of how we should understand the diversity of text traditions is approached by asking How have traditional thinkers the exegetes within these traditions understood and utilized scripture The answers though remarkably diverse do reveal important similarities and take the discussion of scripture in India to a deeper level This book makes accessible to the non specialist sensibilities and approaches that have previously received little attention in the West but have formed the basis for traditional efforts to understand and utilize scripture It is a collaboration between contemporary thinkers and their traditional counterparts whose voices emerge as they consider the sacred words of the religious traditions of South Asia *Philosophy East & West*, 1992

Death, Immortality, and Eternal Life T Ryan Byerly, 2021-05-16 This book offers a multifaceted exploration of death and the possibilities for an afterlife By incorporating a variety of approaches to these subjects it provides a unique framework for extending and reshaping enduring philosophical debates around human existence up to and after death Featuring original essays from a diverse group of international scholars the book is arranged in four main sections Firstly it addresses how death is or should be experienced engaging with topics such as near death experiences continuing bonds with the deceased and attitudes toward dying Secondly it looks at surviving death addressing the metaphysics of human persons the nature of time the nature of the true self and the nature of the divine It then evaluates the value of mortality and immortality drawing upon the resources of the history of philosophy meta analysis of contemporary debates and the analogy between individual death and species extinction Finally it explores what an eternal life might be like examining the place of selflessness embodiment and racial identity in such a life This volume allows for a variety of philosophical and theological perspectives to be brought to bear on the end of life and what might be beyond As such it will be a fascinating resource for scholars in the philosophy of religion theology and death studies *Oriental Enlightenment* J.J. Clarke, 2002-09-11 Style and level of discussion makes this an ideal intro to Western thought and the East not philosophically dense Said's classics Orientalism only discusses Islam this covers all Eastern thought Author has written extensively on Jung and the East also taught in Singapore Will appeal to non specialists due to history of ideas approach broad sweep **Migrating Texts and Traditions** William Sweet, 2012-12-15 There can be little dispute that culture influences philosophy we see this in the way that classical Greek culture influenced Greek philosophy that Christianity influenced mediaeval western philosophy that French culture influenced a range of philosophies in France from Cartesianism to post modernism and so on Yet many philosophical texts and traditions have also been introduced into very different cultures and philosophical traditions than their cultures of origin through war and colonialization but also through religion and art and through commercial relations and globalization And

this raises questions such as What is it to do French philosophy in Africa or Analytic philosophy in India or Buddhist philosophy in North America This volume examines the phenomenon of the migration of philosophical texts and traditions into other cultures identifies places where it may have succeeded but also where it has not and discusses what is presupposed in introducing a text or a tradition into another intellectual culture Companion Encyclopedia of Asian Philosophy Dr Brian Carr, Brian Carr, Indira Mahalingam, 2002-09-11 The Companion Encyclopedia of Asian Philosophy is a unique one volume reference work which makes a broad range of richly varied philosophical ethical and theological traditions accessible to a wide audience The Companion is divided into six sections covering the main traditions within Asian thought Persian Indian Buddhist Chinese Japanese and Islamic philosophy Each section contains a collection of chapters which provide comprehensive coverage of the origins of the tradition its approaches to for example logic and languages and to questions of morals and society The chapters also contain useful histories of the lives of the key influential thinkers as well as a thorough analysis of the current trends **Encyclopedia of Monasticism** William M. Johnston, 2013-12-04 The two volume Encyclopedia of Monasticism describes the monastic traditions of both Christianity and Buddhism with more than 600 entries on important monastic figures of all periods and places surveys of countries and localities and topical essays covering a wide range of issues e g art behavior economics liturgy politics theology and scholarship Coverage encompasses not only geography and history worldwide but also the contemporary dilemmas of monastic life Recent upheavals in certain countries are highlighted Korea Russia Sri Lanka etc Topical essays subtitled Christian Perspectives and Buddhist Perspectives explore in imaginative fashion comparisons and contrasts between Christian and Buddhist monasticism Encyclopedia of Monasticism also includes more than 500 color and black and white illustrations covering all aspects of monastic life art and architecture
