Re Emergence Of Correctional Intervention:

The Re-Emergence of Correctional Intervention Ted Palmer, 1992-03-30 Ted Palmer gives particular attention to the development of intensive supervision in probation and after care and sets out an agenda for the future. He offers a developmental stages perspective for work with juveniles which should address changes to the offender and or changes to the offenders life circumstances. LCCJ Newsletter Looking back to successful intervention programs of the 1970s programs based on skill development methods control surveillance techniques psychologically oriented programs and combinations of these procedures Ted Palmer strongly supports such correctional intervention programs through an analysis of several recent studies including his own. He evaluates the research to date on rehabilitation and describes the role past present and future of rehabilitation habilitation within the context of other correctional modalities including the justice model philosophy. He also presents an intervention framework and a related theoretical structure that can assist in program development intervention planning for offenders and understanding and evaluating change processes. This timely volume will inspire passionate debate in the coming decade for practitioners academics and students alike in criminology. Palmer a recognized scholar of correctional practice and policy answers critics of treatment and addresses the current emphasis on punishment as the sole disposition of offenders by assembling evidence supporting growth centered habilitation intervention for juveniles and adults. Reviewing the past 15 years of evaluation of correctional intervention he has identified key intervention elements connections and community offender outcomes. The concluding chapter is an extremely valuable investigation into offender intervention programs in which Palmer assesses prospects for change and effectiveness. Excellent bibliography.

Undergraduate graduate faculty professional Choice Integrates several important components of the development correctional treatment policy 1 the political historical development of correctional treatment policy 2 evolution of the debate on treatment effectiveness 3 the methodology of treatment evaluation 4 improved knowledge of recommendations for future programming and evaluation efforts. Since it interweaves numerous areas of expertise such as psychology research and policy analysis it is a unique contribution. It is this multifaceted approach to the topic which is sorely needed. To date I have required readings on theory and policy but I have provided and have required students to do the integrating. Palmer's book will be a valuable addition to this course. Furthermore there is a growing group of planners administrators policy analysts researchers and scholars in the area of correctional treatment who would benefit from and be interested in Palmer's book. Again the integration of theory policy and research offers a crucial resource to such an audience. This is a book that will be heavily cited in the years to come. The analysis is brilliant. Added to the fact that Palmer already has a stellar reputation in this field it is likely to become a benchmark publication.
