Sacred Space for the Missional Church William R. McAlpine, 2011-02-14 *Sacred Space for the Missional Church* examines the strong link between the theology and mission of the Church and the spaces in which and from which that theology and mission are lived out. The author demonstrates that the built environment is not incidental or even subservient to mission. Rather, it is a key player in the fulfillment and the communication of that mission. The book begins with a working definition of the missional church, underscoring the connection between God's mission (*missio Dei*) and the Church's mission. The reader is presented with historical and theological frameworks for sacred space and reminded of the pivotal role of the built environment in the fulfillment of the mission of the Church. The design and construction of sacred spaces are shown to be fundamentally a theological exercise and not solely a matter of function, pragmatics, and fiscal astuteness. The author questions the uncritical application of blanket statements such as "form must follow function" and challenges the conviction that it does not matter where worship occurs, only that it occurs. The book addresses genuine concerns such as legitimizing the cost of church buildings and concludes with practical suggestions and essential questions that must be considered in posturing the built environment within the missional praxis of the Church.

The Holy Spirit and Worship Elizabeth Welch, 2022-06-30 The Holy Spirit has become an object of greater attention in Trinitarian theology and indeed in the broader life of the Church since the rise of Pentecostalism at the beginning of the twentieth century. Different understandings of the Holy Spirit have had different impacts on worship here. Elizabeth Welch examines four surprising overlaps in the thought of two radically different traditions of the church about the relationship between the Holy Spirit and worship. These traditions are represented by John Owen from seventeenth-century England and John Zizioulas from contemporary Greece. Welch explores in turn the common themes of the personal and relational nature of the triune God, the immediacy of the encounter with God through the Holy Spirit in worship, the role of the Holy Spirit in leading people into truth, and the transformative nature of worship that draws people into sharing God's purpose for the world. In each, the insights of Owen and Zizioulas shed new light on the ongoing debate in the Church today.

Stringer, 2005-07-14 In this book the 2000 year history of Christian worship is viewed from a sociological perspective Martin Stringer develops the idea of discourse as a way of understanding the place of Christian worship within its many and diverse social contexts Beginning with the Biblical material the author provides a broad survey of changes over 2000 years of the Christian church together with a series of case studies that highlight particular elements of the worship or specific theoretical applications Stringer does not simply examine the mainstream traditions of Christian worship in Europe and Byzantium but also gives space to lesser known traditions in Armenia India Ethiopia and elsewhere Offering a contribution to the ongoing debate that breaks away from a purely textual or theological study of Christian worship this book provides a greater understanding of the place of worship in its social and cultural context **Altar Guild and Sacristy Handbook** S.
