A Marginal Scribe Dennis C. Duling, 2011-11-11. A Marginal Scribe collects eight studies written over a period of two decades, all of which use social scientific criticism to interpret the Gospel of Matthew. It prefaces them first with a new chapter on the struggle between historians and social scientists since the Enlightenment and its parallel in New Testament studies, which culminated in the emergence of social scientific criticism, and second with a new chapter on recent social scientific interpretation of the Gospel of Matthew. The eight more specialized studies cover a variety of themes and use a variety of models but concentrate and are held together by those that illumine social ranking and marginality. The book closes with a chapter that ties together these studies.

Resources in Education, 1983. *The Role of Place and Play in Young Children's Language and Literacy* Shelley Stagg Peterson, Nicola Friedrich, 2022-03-01. Dominant assumptions about place tend to be defined in relation to urban communities. To assume a singular construction of urban places misrepresents the experiences, perspectives, and identities of urban children, making their identities become invisible to researchers, educators, and curriculum developers. Sharing a wide range of perspectives, *Role of Place and Play in Young Children's Language and Literacy* sheds light on language and literacy learning in play-based early childhood settings where place plays an important role in teaching and learning. Drawing on geographic contexts including northern rural and Indigenous communities and giving voice to educational leaders in Indigenous professional learning contexts as well as speech language pathologists, this book joins forces with literacy and early childhood education researchers to create an interdisciplinary collage of theory, research, and practice. Bringing play and place together, a concept Shelley Stagg Peterson and Nicola Friedrich call playce-based learning, this book provides new and compelling ways to think about equity and educational opportunity in the language and literacy development of young children and offers spaces for them to construct their own identities in positive ways.
