

## Reading Against Culture in Edward Said's *Culture and Imperialism*<sup>1</sup>

Daniel Martin Varisco

**Abstract** *Edward Said is the literary critic most cited by American anthropologists, but there has been relatively little anthropological examination of his concept of culture. Apart from an isolated attempt by Lila Abu-Lughod to 'write against culture', most anthropologists have ignored Said's approach. In Culture and Imperialism, Said draws on Matthew Arnold's 'best of the best' definition, while American anthropologists owe their holistic culture to fellow Victorian Edward Tylor. Claude Levi-Strauss is praised by Said, but other major anthropological approaches to culture are ignored. Said assumes anthropology is on the wrong side of the colonial divide, although he holds out hope for those who are now reading the work of literary and cultural critics. In this essay I compare Said's reading of anthropology, exemplified by Kipling's Colonel Creighton, to the influence of Bronislaw Malinowski and Franz Boas on ethnographic method.*

### Colonel Creighton's 'Great Game'

I cannot say whether it is now possible for anthropology as anthropology to be different, that is, to forget itself and to become something else as a way of responding to the gauntlet thrown down by imperialism and its antagonists. Perhaps anthropology as we have known it can only continue on one side of the imperial divide, there to remain as a partner in domination and hegemony.<sup>2</sup> (Said 1989: 225)

<sup>1</sup> A version of this paper was first delivered at the annual meeting of the American Anthropological Association in December, 2001, and later in a seminar at the Department of Anthropology, SOAS, London University in October, 2002. I am grateful for comments and criticism from Najwa Adra, Jacques Berlinerblau, Magnus Bernhardsen, Steve Caton, Matthew Cook, Sayed El Aswad, Andrew Foster, Chris Leonard, Herbert Lewis, Chris Matthews, Larry Michalak, Richard Tapper and Shelagh Weir.

<sup>2</sup> I recognize that Said raises this point with rhetorical intent and then proceeds to suggest that a different story appears to be emerging. My purpose, as the analysis will show, is also rhetorical – questioning how Said approaches anthropology rather than what he, as an outsider, eventually concludes about a discipline not his own. My critique of Said's views on culture in no way detracts from my admiration for his courageous voice as an advocate for a peaceful solution of the Palestinian crisis and his inspiration to those who challenge entrenched dogmas and pervasive political biases. His passing in late 2003 was a loss for all who engage critically with the ineffable notion of culture.

**Culture Still Matters: Notes From the Field** Daniel

Varisco, 2018-10-16 Varisco's *Culture Still Matters: Notes from the Field* is on the relationship between ethnographic fieldwork and the culture concept in the ongoing debate over the future of anthropology drawing on the history of both concepts. Despite being the major social science that offers a methodology and tools to understand diverse cultures worldwide, scholars within and outside anthropology have attacked this field for all manner of sins including fostering colonialism and essentializing others. This book revitalizes constructive debate of this vibrant field's history, methods, and contributions drawing on the author's ethnographic experience in Yemen. It covers complicated theoretical concepts about culture and their critiques in readable prose accessible to students and interested social scientists in other fields. With forewords from Bryan S. Turner and Anouar Majid.

**BookTok** Bronwyn Reddan, Leonie Rutherford, Amy Schoonens, Michael Dezuanni, 2024-04-30 This book examines the reading cultures developed by communities of readers and book lovers on BookTube, Bookstagram, and BookTok as an increasingly important influence on contemporary book and literary culture. It explores how the affordances of social media platforms invite readers to participate in social reading communities and engage in creative and curatorial practices that express their identity as readers and book lovers. The interdisciplinary team of authors argue that by creating new opportunities for readers to engage in social reading practices, bookish social media has elevated the agency and visibility of readers and book consumers within literary culture. It has also reshaped the cultural and economic dynamics of book recommendations by creating a space in which different actors are able to form an identity as mediators of reading culture. Concise and accessible, this introduction to an increasingly central set of literary practices is essential reading for students and scholars of literature, sociology, media, and cultural studies, as well as teachers and professionals in the book and library industries.

Reading

Children in Early Modern Culture Edel Lamb, 2018-01-09 This book is a study of children, their books, and their reading experiences in late sixteenth and seventeenth century Britain. It argues for the importance of reading to early modern childhood and of childhood to early modern reading cultures by drawing together the fields of childhood studies, early modern literature, and the history of reading. Analysing literary representations of children as readers in a range of genres including ABCs, prayer books, religious narratives, romance, anthologies, school books, drama, translations, and autobiography alongside evidence of the reading experiences of those defined as children in the period, it explores the production of different categories of child readers. Focusing on the good child reader, the youth as consumer, ways of reading as a boy and as a girl, and the retrospective recollection of childhood reading, it sheds new light on the ways in which childhood and reading were understood and experienced in the period.

Take, Read Wesley A. Kort, 2010-11-01 This book deals with the role of the category of scripture within adequate theories of textuality and culture Wesley Kort is interested in the practice of reading a text as though it were scripture Beginning with John Calvin s theory of reading Kort shows that the theory and practice of reading as detailed by Calvin are applied to other texts that begin to be read as scripture and eventually in the modern period replace the reading of the Bible as scripture These alternative texts are beginning in the sixteenth century nature then in the early eighteenth century history and at the beginning of the nineteenth century literature Kort argues that what we take as modernity is based on a practice of reading not in what it means to read but in what texts are read as scripture He argues that the postmodernist attempt not to read anything at all as scripture is an illusion that the theories of reading of Maurice Blanchot and Julia Kristeva expose In conclusion Kort raises the question of what it might mean today to again read the Bible as though it were scripture that is to read the Bible with practices indicated by Blanchot and Kristeva
