*Reading and Writing Literary Genres* Kathleen Buss, Lee Karnowski, 2000 Designed for teachers of grades 3-6 to help children connect reading and writing through exposure to a wide range of literature. The authors offer an interactive model that uses children's literature for teaching reading and writing. Four main genres are used: fiction, traditional literature, fantasy, and non-fiction.

**Learning about Literary Genres** Debbie Rickards, Shirli Hawes, 2005

*Writing Genres* Amy J Devitt, 2008-07-23 In *Writing Genres* Amy J Devitt examines genre from rhetorical, social, linguistic, professional, and historical perspectives and explores genre's educational uses, making this volume the most comprehensive view of genre theory today. *Writing Genres* does not limit itself to literary genres or to ideas of genres as formal conventions but additionally provides a theoretical definition of genre as rhetorical, dynamic, and flexible, which allows scholars to examine the role of genres in academic, professional, and social communities. *Writing Genres* demonstrates how genres function within their communities rhetorically and socially, how they develop out of their contexts, historically, how genres relate to other types of norms and standards in language, and how genres nonetheless enable creativity. Devitt also advocates a critical genre pedagogy based on these ideas and provides a rationale for first-year writing classes grounded in teaching antecedent genres.

*Reading and Writing Pathways through Children's and Young Adult Literature* Alicia Curtin, 2022-07-29 This thought-provoking book will provide masters, students, teachers, and researchers with a toolkit and theoretical framework for teaching literacy through children's literature. It features innovative ideas for developing student and teacher experiences with literature and popular culture texts in the classroom, providing practical examples and teaching aids throughout. Taking a collaborative approach, Curtin explores how teachers and learners can engage with literature and its authors for the development of literacy in classroom practice. Connecting reader and writer identities and worlds through interviews with and suggested classroom activities from authors themselves, this text combines author, teacher, and learner perspectives in the development of creative pedagogies that extend understandings of literacy beyond reading, writing, and text. Exploring fairy tales, comic books, and graphic novels, children living in literature, i.e. texts which portray children, their lives, and experiences, popular culture, young adult fiction, and non-fiction, and digital texts such as blogs, etc., this text develops a sociocultural understanding of literacy as a lived and contextually dependent practice where meaning is derived through relationships between people, settings, and culture. Different contexts for literacy are explored, including reading and writing strategically to learn about literacy and literature, widely for personal purposes and deeply to transform understanding. Short, 2011. This text will be an invaluable resource for teachers, researchers, or anyone interested in reading and writing stories. The author interviews will also be of particular interest to older learners themselves as a way to develop their understanding of their own reading and writing practices. Pedagogies can be adapted to any age group, ranging

from the early years to young adult

**Reading Writing Interfaces** Lori Emerson,2014-06-01 Lori Emerson examines how interfaces from today s multitouch devices to yesterday s desktops from typewriters to Emily Dickinson s self bound fascicle volumes mediate between writer and text as well as between writer and reader Following the threads of experimental writing from the present into the past she shows how writers have long tested and transgressed technological boundaries Reading the means of production as well as the creative works they produce Emerson demonstrates that technologies are more than mere tools and that the interface is not a neutral border between writer and machine but is in fact a collaborative creative space Reading Writing Interfaces begins with digital literature s defiance of the alleged invisibility of ubiquitous computing and multitouch in the early twenty first century and then looks back at the ideology of the user friendly graphical user interface that emerged along with the Apple Macintosh computer of the 1980s She considers poetic experiments with and against the strictures of the typewriter in the 1960s and 1970s and takes a fresh look at Emily Dickinson s self printing projects as a challenge to the coherence of the book Through archival research Emerson offers examples of how literary engagements with screen based and print based technologies have transformed reading and writing She reveals the ways in which writers from Emily Dickinson to Jason Nelson and Judd Morrissey work with and against media interfaces to undermine the assumed transparency of conventional literary practice
