She clapped her hands on the wheel and went very quiet. Mum and Pat got out and pushed the car safely to the side of the road and sat and pushed the car safely to the side of the road and looked around. There was nothing but desert and distant mountains. Not a car in sight. Later, a cold wind started and they both got back in. The sun had disappeared. A few hours went by when Pat finally spotted headlights. Nina made sure her beanie was firmly on her head before she continued. She pedalled as fast as she could and did not look back. Nina was almost home. All she had to do was cross the bridge and make the long and slow ride up James Street. Loewenstein,2001-03-15 David Loewenstein s *Representing Revolution in Milton and his Contemporaries* is a wide ranging exploration of the interactions of literature polemics and religious politics in the English Revolution Loewenstein highlights the powerful spiritual beliefs and religious ideologies in the polemical struggles of Milton Marvell and their radical Puritan contemporaries during these revolutionary decades By examining a wide range of canonical and non canonical writers John

Lilburne Winstanley the Digger and Milton amongst others he reveals how radical Puritans struggled with the contradictions and ambiguities of the English Revolution and its political regimes His portrait of a faction riven violent seventeenth century revolutionary culture is an original and significant contribution to our understanding of these turbulent decades and their aftermath By placing Milton s great poems in the context of the period s radical religious politics it should be of interest to historians as well as literary scholars      **The Spectator** ,1877      **Paperbound Books in Print** ,1992      **Mass Media in 2025** Erwin K. Thomas,Brown H. Carpenter,2001-08-30 The future of mass media may appear unpredictable and too complex to fathom but Mass Media in 2025 takes a scholarly theoretical approach to identifying trends and explaining their possibilities Noted contributors approach a variety of media with a solid grounding in the history of each and an eye for which may be vulnerable and which may thrive in the new technological age Trends such as interactivity and niche building will affect everything from the newspaper to public relations and this collection of essays provides a fascinating guide to where the next decades may take us Regardless of the visual aural or printed form Mass Media in 2025 illustrates the degree to which older media will have to incorporate the level of interaction and specialization offered by newer media if they are to survive These effects can already be seen in the proliferation of television channels in the ironic bent of advertising in the rise of infotainment in news organizations This book shows not only how all of this has come to be but also more importantly where it will go      **The Imperial Dictionary of the English Language** John Ogilvie,1883      **Academy and Literature** Charles Edward Cutts Birch Appleton,Charles Edward Doble,James Sutherland Cotton,Charles Lewis Hind,William Teignmouth Shore,Alfred Bruce Douglas,Ellis Ashmead-Bartlett,Thomas William Hodgson Crosland,1900      Power and Representation in Byzantium Neil Churchill,2023-12-29 Throughout the history of Byzantium 65 emperors were dethroned and only 39 reigns ended peacefully How might a usurper get away with murdering his predecessor And how could a bloody act of regicide lead to one of the most glorious of all eras in Byzantium These were questions that puzzled Michael Psellos as he looked back at Basil I s assassination of Michael III and the origin of the Macedonian dynasty Might the imperial art of Basil his sons and grandson help to explain how the dynasty overcame its violent beginnings and secured the loyalty of its subjects It has long been recognised that the early Macedonian emperors were active propagandists but royal art has usually been viewed thematically over the span of centuries Official iconography has been understood to project imperial power in ways which were impersonal and unchanging This book instead adopts a chronological approach and considers how Basil justified his seizure of power and how his successors went on to articulate their own ideas about authority It concludes that imperial art did at times reflect the personality of the emperor and the political demands of the moment such as the need for an heir the nature of court politics or the choice of successor This innovative account of the forging of the Macedonian dynasty will appeal to those interested in how early medieval kings and emperors used art to create their own image to differentiate themselves from rivals and to extend the boundaries of their personal power      **Postmodern Times** Gene

Edward Veith Jr., 1994-02-15 The modern era is over Assumptions that shaped twentieth century thought and culture the bridges we crossed to this present moment have blown up The postmodern age has begun Just what is postmodernism The average person would be shocked by its creed Truth meaning and individual identity do not exist These are social constructs Human life has no special significance no more value than animal or plant life All social relationships all institutions all moral values are expressions and masks of the primal will to power Alarmingly these ideas have gripped the nation s universities which turn out today s lawyers judges writers journalists teachers and other culture shapers Through society s influences postmodernist ideas have seeped into films television art literature politics and without his knowing it into the head of the average person on the street Christ has called us to proclaim the gospel to a culture grappling with postmodernism We must understand our times Then through the power that Christ gives we can counter the prevailing culture and proclaim His sufficiency to our society s very points of need
