Looking At Trees Wake Up To The World Of Science:

Looking at Trees B. Bornancin, 1984 **Get Up!** D. Steve Walker, 2022-07-27 Does it seem like you won't have enough time to teach your children what they need to know before they are grown? They will lean on the conversations they had with you during life's most difficult moments especially if you're a single parent. In this book D. Steve Walker illuminates how people fail to give children a foundation for making sense of life. He explores how to encourage them to become givers instead of beggars, how to urge them to seek God's help when necessary and how to navigate a world rife with divisions. He also answers questions such as: How can we face our fears? How can we develop strong relationships? What does white privilege mean? How should we view Black Lives Matter? The author also examines what it means to live an abundant life with disappointments, the importance of rest and how to avoid self-destruction. *Arranging Your Collection* B. Bornancin, 1983

Inspiring Motivation in Children and Youth David A. Bergin, 2022-09-26 *Inspiring Motivation in Children and Youth: How to Nurture Environments for Learning* explores motivation and its crucial role in promoting well-being in the classroom and life beyond school. It will help all those who work with children and youth to understand and improve their motivation and to create nurturing environments for younger people. David Bergin provides a highly accessible exploration of key research examining the ways children's goals, self-efficacy, self-determination and feelings of being cared for affect their motivation as well as their desire to learn more about themselves and the world. This essential guide also addresses influences of competition, diversity, prejudice and discrimination on motivation. The book provides a comprehensive look at the importance of instilling motivation at this critical age, highlighting the benefits through real-life examples and anecdotes. Illustrated with stories from diverse contexts, the author provides practical advice on how to use goals effectively, help children feel competent, autonomous and like they belong. *Inspiring Motivation in Children and Youth* is for any student looking to excel in a psychological, educational, health or social work setting as well as professionals in the field and parents. It is targeted for people who work or plan to work with children from pre-school to high school and will be useful to teachers, youth leaders, coaches, counselors, social workers and nurses. *Maine Metaphor: The Gulf* S. Dorman, 2023-06-29 Each summer weekend can be like a holiday here in Maine. Once to the Vikings it was rugged Vineland; today Maine is Vacationland. After a hard, dirty winter, mild air and watery sunlit places are calling an abundance of evocative coastal places within a couple minutes or couple of hours' drive. The author experienced one beach not typical of Maine. It was different in a lively way. She and her spouse Allen drove to Auburn for groceries and suddenly decided over lunch in the Nickel Diner to go visit Old Orchard Beach before grocery shopping. Old Orchard Beach has long been a resort town situated in a curve of Saco Bay and full of mechanized carnival life; its waterfront crammed with screaming or jovial activity shimmering in sunlight. After a search in side streets full of summer lodgings and cars, the travelers locate a place to park, then walk down to the sea, down to Maine on the Mediterranean. **Peculiar Penguins and Funny Looking Frogs** Allyson Shepard Bailey, 2012-08-23

Human Emotions and the Origins of Bioethics Susi Ferrarello, 2020-12-06 This book provides a unique phenomenological dialogue between psychology and philosophy on the origin of bioethics that shows the importance of bringing emotions into bioethical discourse Divided into two parts the book begins by defining bioethics and explaining the importance of emotions in making us human allowing us to consider life holistically Ferrarello argues that emotions and bioethics are better served when they are combined and that dismissing emotions as nothing more than a nuisance to our rationality has created a society that does not fit our human nature Chapters explore how ethics relate to intimate life and how ethical agents determine themselves within their surrounding world uniquely and interrogatively using bioethics to consider not only medical dilemmas but also issues concerning environmental and individual well being By addressing personal interpersonal and societal problems as dynamically interconnected in bioethical problems she helps us to renew our sense of responsibility toward a good quality of life This interdisciplinary book is invaluable reading for students of health science psychology and philosophy as well as for those interested in the link between emotions and bioethical discourse from both a psychological and philosophical perspective
