Masters of War Clara Nieto, 2011-01-04 In *Masters of War* Clara Nieto adeptly presents the parallel histories of the countries of Latin America that are intertwined each reflecting the United States coherent policy of intervention set into motion by the Monroe Doctrine. As the value of this continued policy comes increasingly into question, Nieto argues for the need to evaluate the alarming precedent set in Latin America: the institution of client dictatorships, the roles played by the interests of U.S. corporations, the enormous tolls taken on civilian populations, and the irreversible disruption of regional stability. Drawing from an impressive array of documents and sources, as well as from her unique first-hand insights as a participant in crucial meetings and negotiations in the region from the mid 1960s through the mid 1980s, Nieto chronicles the Cuban Revolution, the CIA-sponsored coup against popularly elected President Allende in Chile, the U.S. invasions of Panama and Grenada, U.S. support for the cultivation and training of paramilitary death squads in Nicaragua, El Salvador, and Colombia, as well as similarly severe but less well-known situations in other countries such as Uruguay, Venezuela, Argentina, Peru, Bolivia, Honduras, and Guatemala. *Masters of War* offers from an informed perspective, perhaps for the first time, a distanced, objective analysis of recent Latin American history. Clara Nieto's depth of knowledge and understanding is an invaluable resource at a time when the media is seen as unapologetically aligned with the interests of major corporations and policymakers, and the American public has reached a new height of apprehension regarding the intentions behind and consequences of its government's policies.

Populism and Ethnicity Raanan Rein, 2020-06-03 Juan Perón's decade-long regime from 1946 to 1955 is often presented as Nazi fascist and antisemitic, claims that are strongly rooted in Argentina's collective unconscious and popular culture. Challenging this widely held view, Raanan Rein asserts that there was greater Jewish support for Perón than previously believed, and that fewer antisemitic incidents took place in Argentina during Perón's rule than during any other period in the twentieth century. Recovering the silenced voices of Jewish Argentines who supported Peronism from the beginning, *Populism and Ethnicity* is a historical, sociological, and political analysis that describes the many positive changes experienced by the Jewish community as a direct result of Perón's presidencies. Perón and his wife Eva gave numerous speeches denouncing antisemitism, and Perón's Argentina was the first Latin American country to open an embassy in the newly established State of Israel. Arguing that no president before Perón so unambiguously rejected discrimination against Jews, Rein shows that many Jews secured more important posts in government in the 1940s and 1950s than in previous years, among them members of the Argentine Jewish Organization, which became a section of the ruling Peronist party. Deconstructing the myth of antisemitism during Perón's regime, *Populism and Ethnicity* looks deep into the heart of international memory for the truth behind Jewish Argentine relations.

Black Terror White Soldiers David Livingstone, 2013-06-16

Far too ignorant of the histories of the rest of the world being aware of only the accomplishments of Greece Rome and Europe Westerners have been made to believe that their societies represent the most superior examples of civilization However the Western value system stems from a misconception that as in nature human society too is evolving The idea derives from the hidden influence of secret societies who followed the belief in spiritual evolution of the Kabbalah which taught that history would attain its fulfillment when man would become God and make his own laws Therefore the infamous Illuminati gave its name to the Enlightenment of the eighteenth century which claimed that human progress must abandon superstition meaning Christianity in favor of reason Thus the Illuminati succeeded in bringing about the French and American revolutions which instituted the separation of Church and State and from that point forward the Western values of Humanism seen to include secularism human rights democracy and capitalism have been celebrated as the culmination of centuries of human intellectual evolution This is the basis of the propaganda which has been used to foster a Clash of Civilizations where the Islamic world is presented as stubbornly adhering to the anachronistic idea of theocracy Where once the spread of Christianity and civilizing the world were used as pretexts for colonization today a new White Man's Burden makes use of human rights and democracy to justify imperial aggression However because after centuries of decline the Islamic world is incapable of mobilizing a defense the Western powers as part of their age old strategy of Divide and Conquer have fostered the rise of Islamic fundamentalism to both serve as agent provocateurs and to malign the image of Islam These sects known to scholars as Revivalists opposed the traditions of classical Islamic scholarship in order to create the opportunity to rewrite the laws of the religion to better serve their sponsors Thus were created the Wahhabi and Salafi sects of Islam from which were derived the Muslim Brotherhood which has been in the service of the West ever since But the story of the development of these Islamic sects involves the bizarre doctrines and hidden networks of occult secret societies being based on a Rosicrucian myth of Egyptian Freemasonry which see the Muslim radicals as inheritors of an ancient

mystery tradition of the Middle East which was passed on to the Knights Templar during the Crusades thus forming the foundation of the legends of the Holy Grail These beliefs would not only form the cause for the association of Western intelligence agencies with Islamic fundamentalists but would fundamentally shape much of twentieth century history

Dictatorship, Democracy, and Globalization Klaus Friedrich Veigel, 2010-11-01 The collapse of the Argentine economy in 2001 involving the extraordinary default on 150 billion in debt has been blamed variously on the failure of neoliberal policies or on the failure of the Argentine government to pursue those policies vigorously enough during the 1990s But this is too myopic a view Klaus Veigel contends to provide a fully satisfactory explanation of how a country enjoying one of the highest standards of living at the end of the nineteenth century became a virtual economic basket case by the end of the twentieth Veigel asks us to take the long view of Argentina's efforts to re create the conditions for stability and consensus that had brought such great success during the country's first experience with globalization a century ago The experience of war and depression in the late 1930s and early 1940s had discredited the earlier reliance on economic liberalism In its place came a turn toward a corporatist system of interest representation and state led inward oriented economic policies But as major changes in the world economy heralded a new era of globalization in the late 1960s and early 1970s the corporatist system broke down and no social class or economic interest group was strong enough to create a new social consensus with respect to Argentina's economic order and role in the world economy The result was political paralysis leading to economic stagnation as both civilian and military governments oscillated between protectionism and liberalization in their economic policies which finally brought the country to its nadir in 2001
