The Singularity of Western Innovation Leonard Dudley,2017-08-14 This book highlights the contribution of language standardization to the economic rise of the West between 1600 and 1860 Previous studies have been unable to explain why during this period almost all industrial innovation was confined to small areas around the main cultural centers of three Western states Britain France and the United states This book argues that Western Europe and its offshoots were the only

Eurasian societies able to apply typography cheaply to their writing systems The emergence in the West of large networks of people able to communicate in standardized languages made possible the breakthroughs of the Industrial Revolution Military byproducts of three macro innovations the steam engine machine tools and interchangeable parts then constituted the West's toolbox for empire The book will appeal to readers seeking to explain how the West attained its unprecedented advance over Asia in the nineteenth century and why this lead has since proved temporary

The Leonardos and the Forgotten Arab Polymath, Zoroastro Susan Audrey Grundy, 2024-10-16 This book recovers the lives of four men masked behind one legend Reinterpreting recently rediscovered documents shows a Tuscan artist Leonardo da Vinci was banished from Florence around 1477 when at the same moment another Leonardo arrived from the East an Ottoman agent from Genoese Caffa in the Black Sea This Leonardo was a military engineer who began writing technical notes backward in a flourishing Italian script In Florence around 1500 he met the alchemist and polymath Zoroastro who collaborated in producing the scientific Notebooks However by the mid sixteenth century all memory of Zoroastro had been erased and the two Leonardos had been conflated into one identity Crucially an archived document rediscovered around 2021 proved that the Tuscan painter Leonardo da Vinci died in 1499 This information leads to the recovery of the artist who really painted the Mona Lisa Giovanni

Jerusalem 1913 Amy Dockser Marcus, 2008-03-25 A Pulitzer Prize winning reporter examines the true history of the discord between Israel and Palestine with surprising results Though the origins of the Arab Israeli conflict have traditionally been traced to the British Mandate 1920-1948 that ended with the creation of the Israeli state a new generation of scholars has taken the investigation further back to the Ottoman period The first popular account of this key era Jerusalem 1913 shows us a cosmopolitan city whose religious tolerance crumbled before the onset of Zionism and its corresponding nationalism on both sides a conflict that could have been resolved were it not for the onset of World War I With extraordinary skill Amy Dockser Marcus rewrites the story of one of the world's most indelible divides

The Janissary Tree Jason Goodwin, 2010-12-09 Yashim is no ordinary detective It s not that he s

States Catherine Alexander, 2002 Catherine Alexander charts how Turkish people both within and outside the state bureaucracy attempt to personalise the impersonality of the state Based on a detailed study of the nationalized Turkish Sugar Corporation she considers how people from the highest levels of the state bureaucracy to farming villages understand the state and how in turn they imagine themselves to be perceived The narratives and metaphors used in these constructions draw on resources close to hand such as the material organization of state factory compounds state personnel encountered in the course of everyday life and the image of the family structure By also exploring notions of state and personhood within the highest echelons of the administration itself Alexander shows how ideas of the state recede once one is actually within For officials the state becomes other institutions and Ministries with which they have little contact The continual process of striving to make connections with other groups and people occurs both at all hierarchical levels of the Sugar Corporation and between farmers and factory engineers This elegant nuanced ethnography of modernity will cause scholars of state institutions across a broad range of disciplines radically to rethink what the state actually is and the relations that create it thus taking understandings of the state to an entirely new level **The Rise of Political Islam in Turkey** Kayhan

Delibas, 2014-12-19 Turkey officially a secular state voted in an Islamist party in 2002 2007 and 2011 How far does this reflect the trend which has seen the rise of political Islam across the Middle East Does this indicate a growing tendency in the direction of Islamisation amongst the Turkish population If not what are the underlying reasons behind the electoral triumphs of the Islamist Justice and Development Party the AKP Kayhan Delibas seeks to answer these questions through an in depth examination of the appeal of this political party exploring its ideology the routes and motives which produce party activists and local party organisations Concluding that the AKP's success has been built on its criticism of growing inequalities widespread corruption unemployment poverty and lack of basic services Delibas draws a nuanced portrait of modern Turkish society and the relationship between religion and politics Delibas offers an explanation based on research carried out amongst grassroots activists for the rise of Islamic fundamentalism in Turkey Islamic movements are often described as anti modernist thought to be supported by fundamentalist groups living in a bygone age isolated from the rest of the modern world In recent years particularly since the events of 9 11 such movements have also been seen as a threat to the

Western way of life But Delibas argues that these movements and particularly those in Turkey did not arise out of religious fervour or hatred of Western civilisation as is often claimed Rather they were founded and have thrived as a response to socio economic and political conditions that have been aggravated by neoliberal economic policies rapid urbanisation and the globalization of culture By exploring the structural conditions in which an Islamic movement emerged and become popular in a seemingly secular state The Rise of Political Islam in Turkey offers vital analysis for all those researching modern Turkey and the growth of Islamist politics throughout the Middle East and North Africa *The Statesman's Yearbook 2006* B.
