Friedrich Schiller is not merely one of Germany's foremost poets. He is also one of the major German contributors to world literature. The undying words he gave to characters such as Marquis Posa in *Don Carlos* and Wilhelm Tell in the eponymous drama continue to underscore the need for human freedom. Schiller cultivated hope in the actualization of moral knowledge through aesthetic education and critical reflection leading to his ideal of a more humane humanity. At the same time he was fully cognizant of the problems that attend various forms of idealism. Yet for Schiller ultimately love remains the gravitational center of the universe and of human existence and beyond life and death joy prevails. This collection of cutting edge essays by some of the world's leading Schiller experts constitutes a milestone in scholarship. It includes in depth discussions of the writer's major dramatic and poetic works, his essays on aesthetics and his activities as historian, anthropologist and physiologist as well as of his relation to the ancients and of Schiller reception in 20th century Germany. Marxism and the Moral Basis of Art Norman Arthur Fischer, 2025-02-14. This book develops a moral Marxist aesthetics based on the work of Georg Lukács, Lucien Goldmann and Herbert Marcuse and grounded in the aesthetic theories of German Idealist philosophers such as Hegel and Schiller. This moral aesthetics takes three forms. The first is social and historical realism as in Lukács and Goldmann. This is an aesthetics which fundamentally places the work of art within reality, particularly social and historical reality. The second aesthetics is utopian negation theory and the third is formalism. The book pays special attention to Lukács' concept of realistic historical novels which he develops through the analysis of historical novels by Walter Scott, Honoré de Balzac and Heinrich Mann. This theory of aesthetic realism is as the book argues grounded in Lukács' reading of Hegel. The book concludes by offering fresh interpretations of the moral basis of Goldmann's romantic realism in *The Hidden God* and Marcuse's emphasis on art as form and utopian negation of reality in *The Aesthetic Dimension*.

Crafting Flesh, Crafting the Self John B. Lyon, 2006. This book analyzes wounded human bodies in early nineteenth century German literature and traces their connection to changing philosophical models of the self. It argues that literary representations and metaphors of violence against the body not only offer powerful physical referents for a concept of self but that they also define violence as an integral component of the self.

He examines what Fichte was trying to accomplish and how he proposed to do so and explores the difficulties implicit in his project and his

strategies for overcoming them Literary Theory and Marxist Criticism Samiran Kumar Paul,2020-12-10 The Communist Party's attitude toward art in this period was in general epiphenomenal of its economic policy A resolution of 1925 voiced the party's refusal to sanction anyone's literary faction This reflected the New Economic Policy NEP of a limited free market economy The period of the First Five Year Plan 1928 1932 saw a more or less voluntary return to a more committed artistic posture and during the second Five Year Plan 1932 1936 this commitment was crystallized in the formation of a Writers Union The first congress of this union in 1934 featuring speeches by Maxim Gorky and Bukharin officially adopted socialist realism as defined primarily by Andrei Zhdanov 1896 1948 Aptly dubbed by Terry Eagleton as Stalin's cultural thug it was Zhdanov whose proscriptive shadow thenceforward fell over Soviet cultural affairs Although Nikolai Bukharin's speech at the congress had attempted a synthesis of Formalist and sociological attitudes premised on his assertion that within the microcosm of the word is embedded the macrocosm of history Bukharin was eventually to fall from his position as the leading theoretician of the party his trial and execution stemming from his political and economic differences with Stalin were also symptomatic of the fact that Formalism soon became a sin once more Bukharin had called for socialist realism to portray not reality as it is but rather as it exists in socialist imagination **Culture and the Arts in Education** Ralph Alexander
