How to Understand Language Bernhard Weiss, 2014-12-05 Why are philosophers as opposed to say linguists and psychologists puzzled by language How should we attempt to shed philosophical light on the phenomenon of language How to Understand Language frames its discussion by these two questions The book begins by thinking about the reasons that language is hard to understand from a philosophical point of view and armed with the fruits of that discussion begins searching for an approach to these questions After finding fault with approaches based on philosophical analysis and on translation it undertakes an extended investigation of the programme of constructing a theory of meaning Donald Davidson's advocacy of that approach becomes pivotal though the book endorses his broad approach it argues strongly against the roles both of truth theory and of radical interpretation

Roots of Human Sociality Stephen C. Levinson, Nicholas J. Enfield, 2020-08-21 This book marks an exciting convergence towards the idea that human culture and cognition are rooted in the character of human social interaction which is unique in the animal kingdom *Roots of Human Sociality* attempts for the first time to explore the underlying properties of social interaction viewed from across many disciplines and examines their origins in infant development and in human evolution Are interaction patterns in adulthood affected by cultural differences in childhood upbringing Apes unlike human infants of only 12 months fail to understand pointing and the intention behind it Nevertheless apes can imitate and analyze complex behavior how do they do it Deaf children brought up by speaking parents invent their own languages How might adults

deprived of a fully organized language communicate This book makes the case that the study of these sorts of phenomenon holds the key to understanding the foundations of human social life The conclusion our unique brand of social interaction is at the root of what makes us human **Leland Stanford Junior University Publications** Stanford University,1917 Air
