Heart to Heart C. Bruce Johnson,2009-09 Bruce Johnson the author is a heart attack survivor and he wants to get the word out While much has been written about the medical side of heart attacks little has been written about the emotional and human side of heart attacks and cardiovascular disease It really doesn t matter what sparks the sudden Coronary infarction MI the medical term for a heart attack This disease is an equal opportunity killer Men women young old rich poor famous and

people who aren't known outside of their families and workplaces. Dead is dead and by most accounts the one million people who will have heart attacks this year might have been spared had they made a few lifestyle changes. That's what the country's cardiologists are begging for today. The author interviewed dozens of candidates but he wanted a diverse group of heart attack survivors who represented a cross section of America. He found them and in some cases they heard about his project and found him. These are their stories of regaining life after a heart attack. *Soar* Roger L. White, 2010-03-04. Dr. White, a well-known cardiologist, has written this timely book to help people improve both their physical and spiritual health. It involves a systematic approach to evaluate physical health, nutrition, fitness, and quality of relationships. His perspective as a cardiologist is unique. He relates stories from his experience regarding real patients and how they either improved their health when faced with challenges and SOARED or did not. This creates empathy for the reader and makes it an interesting read. The book is full of many practical suggestions for health improvement and it is not a dull encyclopedia of medical facts. It comes alive with patient examples. If you want to see your doctor less and enjoy life more, this is a must-read for anyone interested in prevention and optimal health. Stage B, A Pre-cursor to Heart Failure, Part II, An Issue of Heart Failure Clinics Jay N. Cohn, Gary S. Francis, 2012-04-28. In the joint American College of Cardiology/American Heart Association classification system, Stage B heart failure refers to patients with structural heart disease but no symptoms of heart failure. Preventing progression of heart failure in Stage B patients is a central concern to heart failure specialists, so two issues have been devoted to this topic. Part II focuses on screening to identify patients with Stage B HF and monitoring and therapeutic approaches to patients with a diagnosis of Stage B HF. **Heart to Heart** Robert Toft, 2000. This book establishes the principles of interpretation that singers active in England both foreign and English applied to recitatives, arias, and songs by composers such as Handel, Mozart, and Rossini. Expression lay at the heart of persuasive singing during the late eighteenth and early nineteenth centuries, and Robert Toft here ably places the concept and its practices in a broad cultural perspective. Singing was related closely to speaking in this period when the techniques of delivery that were common to both arts emphasized accent, tone of voice, pauses, breathing, and gesture, are combined with resources peculiar to singing: portamento, messa di voce, tempo rubato, vibrato, and ornamentation. The style which emerges differs markedly from that of the late twentieth century. Most singers today perform the repertoire of the late eighteenth and early nineteenth centuries, but until now no book has addressed the principles which governed song performance in this period or shown how historical understandings may be used to move and delight modern audiences. *The Messenger of the Sacred Heart of Jesus*, 1899.
