Research, 1969 **Parasitology and Pathology of Marine Organisms of the World Ocean** William Jennings Hargis, United States. National Marine Fisheries Service, Virginia Institute of Marine Science, 1983 **Fish Disease** Edward J. Noga, 2011-11-16 Fish Disease Diagnosis and Treatment Second Edition provides thorough yet concise descriptions of viral bacterial fungal parasitic and noninfectious diseases in an exhaustive number of fish species Now in full color with over 500 images the book is designed as a comprehensive guide to the identification and treatment of both common and rare problems encountered during the clinical work up Diseases are discussed following a systems based approach to ensure a user friendly and practical manual for identifying problems Fish Disease Diagnosis and Treatment Second Edition is the must have reference for any aquaculturists aquatic biologists or fish health specialists dealing with diagnosing or treating fish diseases

Pathologic Findings in Stranded Marine Mammals: A Global Perspective Gregory Dana Bossart, Alvin Cyril Camus, Debra Lee Miller, Stephen Raverty, 2022-02-09 This project is posthumously dedicated to Dr Gregory Dana Bossart Whether you knew him as colleague mentor friend family member or simply knew of him you could not help but be awestruck by his dedication intelligence thoughtfulness work ethic and passion for scientific inquiry especially for conservation of the marine environment Many of his publications were seminal in marine mammal health including infectious environmental and zoonotic diseases As we collected manuscripts for this special Frontiers edition it was heartwarming to hear the comments from contributors So many research scientists field biologists and veterinarians could easily have given up and said I just can't do this now especially with the added challenges posed by the current COVID 19 pandemic Instead contributors from around the world were determined to contribute to this collection because of their inspiration and shared commitment with Greg's vision The love and admiration within the marine community for Greg is phenomenal With that said we would be remiss if we did not say a few words about Greg as a mentor and friend Greg had a knack for helping students realize their abilities and pursue their own independent contributions to the marine mammal community He shared in their successes and worked tirelessly to facilitate their aspirations Greg would involve students early career scientists and colleagues in projects

introduce them to collaborators and promote them and their work Greg was a genuinely caring person When he asked you how are you doing he honestly wanted to know He was always there ready to listen and provide guidance If you were to ask Greg what was most important to him in life he would say God family and marine life and one could argue that he had a special fondness for manatees He believed in the beauty of nature and that God had a hand in all of it He was in pursuit of ensuring that we all share this earth responsibly and sustainably We miss Greg dearly but honor and celebrate him as we carry on in our pursuits
