development as it is bound up with the history of transportation Covers the early methods such as wagoner pack horseman riverman and canal boatman thru the perfection of the steamboat and the beginnings of the modern railroads *The Highways of Commerce* Archer Butler Hulbert, John Moody, 1920 *The Paths of Inland Commerce; A Chronicle of Trail, Road, and Waterway* Archer Butler Hulbert, 2018-08-14 *The Paths of Inland Commerce* a chronicle of trail road and waterway by Archer Butler Hulbert Inland America at the birth of the Republic was as great a mystery to the average dweller on the Atlantic seaboard as the elephant was to the blind men of Hindustan The reports of those who had penetrated this wilderness of those who had seen the barren ranges of the Alleghanies the fertile uplands of the Unakas the luxuriant blue grass regions the rich bottom lands of the Ohio and Mississippi the wide shores of the inland seas or the stretches of prairie increasing in width beyond the Wabash seemed strangely contradictory and no one had been able to patch these reports together and grasp the real proportions of the giant inland empire that had become a part of the United States It was a pathless desert it was a maze of trails trodden out by deer buffalo and Indian Its great riverways were broad avenues for voyagers and explorers they were treacherous gorges filled with the plunder of a million floods It was a rich soil a land of plenty the natives were seldom more than a day removed from starvation Within its broad confines could dwell a great people but it was as inaccessible as the interior of China It had a great commercial future yet its gigantic distances and natural obstructions defied all known means of transportation Such were the varied and contradictory stories told by the men who had entered the portals of inland America It is not surprising therefore that theories and prophecies about the interior were vague and conflicting nor that most of the schemes of statesmen and financiers for the development of the West were all parts and no whole They all agreed as to the vast richness of that inland realm and took for granted an immense commerce therein that was certain to yield enormous profits In faraway Paris the ingenious diplomat Silas Deane writing to the Secret Committee of Congress in 1776 pictured the Old Northwest bounded by the Ohio the Alleghanies the Great Lakes and the Mississippi as paying the whole expense of the Revolutionary War Thomas Paine in 1780 drew specifications for a State of from twenty to thirty millions of acres lying west of Virginia and south of the Ohio River the sale of which land would pay the cost of three years of the war On the other hand Pelatiah Webster patriotic economist that he was decried in 1781 all schemes to pawn this vast westward region he likened such plans to killing the goose that laid an egg every day in order to tear out at once all that was in her belly He advocated the township system of compact and regular settlement and he argued that any State making a cession of land would reap great benefit from the produce and trade of the newly created settlements We are delighted to publish this classic book as part of our extensive Classic Library collection Many of the books in our collection have been out of print for decades and therefore have not been accessible to the general public The aim of our publishing program is to facilitate rapid access to this vast reservoir of literature and our view is that this is a significant literary work which deserves to be brought back into print after many decades The contents of the vast majority of titles in the Classic
