**Men Under Fire** Jiří Hutečka, 2019-12-03 In historical writing on World War I Czech speaking soldiers serving in the Austro Hungarian military are typically studied as Czechs rarely as soldiers and never as men As a result the question of these soldiers imperial loyalties has dominated the historical literature to the exclusion of any debate on their identities and experiences Men under Fire provides a groundbreaking analysis of this oft overlooked cohort drawing on a wealth of soldiers private writings to explore experiences of exhaustion sex loyalty authority and combat itself It combines methods from history gender studies and military science to reveal the extent to which the Great War challenged these men s senses of masculinity and to which the resulting dynamics influenced their attitudes and

loyalties      **The Jewish People Policy Planning Institute Planning Assessment, 2004-2005** Sergio Della Pergola, Jewish People Policy Planning Institute, 2005 This volume comprises three main parts The first includes five broad overviews of the current status of Jewish affairs The second part includes six chapters each of which reviews the main recent trends and policy issues relevant to Jewish life in six world regions which articulate contemporary Jewish life North America Latin America Europe and the European Union the Former Soviet Union Asia Africa and the Pacific and Israel The third part introduces an overview of the goals and tasks accomplished by the main Jewish institutions and organizations worldwide in the definition and defense of Jewish interests      **The European Heritage** Gerard Delanty, 2017-07-06 Gerard Delanty offers a critical interpretation of the European heritage today in light of recent developments in the human and social sciences and in view of a mood of crisis in Europe that compels us to re think the European past One of the main insights informing this book is that a transnational and global perspective on European history can reorient the European heritage in a direction that offers a more viable way for contemporary Europe to articulate an intercultural identity in keeping with the emerging shape of Europe and with its own often acknowledged past He argues that the European heritage is based less on a universalistic conception of culture than on a plurality of interconnecting narratives Such a perspective opens up new directions for scholarship and public debate on heritage that are guided by critical cosmopolitan considerations that highlight contention resistances competition and dissonance He argues that the specificity of the European dimension of culture is in the entanglement of many cultures rather than in an original culture The cultures of Europe are not separated but have been shaped in close interaction with each other and with the non European world Nations are not therefore unique exceptional or fundamentally different from each other The outcome of such intermingling is a multiplicity of ideas of Europe that serve as shared cultural reference points      **The SAGE Handbook of European Studies** Chris Rumford, 2009-06-18 This volume brings together some of the biggest names in European Studies to analyse the most important trajectories of Europe's development and the challenges faced by the continent today No one interested in Europe will be able to ignore this extraordinary collection of scholarship Professor Thomas Diez University of Birmingham In its range and comprehensiveness it will be hard to beat and it will certainly become an invaluable resource for sociologists political scientists historians and all others seeking the best information and most up to the date approaches to the study of Europe today Professor Krishan Kumar University of Virginia An impressive account of the state of the art of the study of contemporary Europe This is an outstanding work and a definite companion to all those interested in contemporary Europe Journal of Contemporary European Studies Europe is one of the world's oldest civilizations But what does it mean to be European today What place does Europe have in global affairs How should we analyze its key institutions system of governance and broader cultural social and political dynamics This exhaustive and timely handbook Explores the transformations that characterize contemporary Europe Investigates how we can best study Europe Consolidates European studies and provides a platform for

future study Increases the profile of European studies The Handbook promotes the increasing diversity of perspectives employed in the study of contemporary Europe and EU integration and is situated within the context of Europe's transformations It offers balanced coverage of political social economic cultural and institutional dimensions of Europe and includes chapters by leading authorities including Ulrich Beck Craig Calhoun Donatella della Porta Claus Offe Anssi Paasi Ben Rosamond Gurinder Bhambra and Charles Tilly Multidisciplinary in organization inclusive in coverage and cutting edge in scope The SAGE Handbook of European Studies is a landmark resource for anyone interested in Europe
