Patriarchy And Socialist Revolution In China:

Patriarchy and Socialist Revolution in China Judith Stacey, Professor of Contemporary Studies Judith Stacey, 1983 *The Oxford Handbook of the History of Communism* S. A. Smith, 2014 Draws on documentation released since the fall of the Soviet Union to offer a global history of communism in the twentieth century Marriage, Gender and Sex in a Contemporary Chinese Village Sun-Pong Yuen, Pui-Lam Law, Yuk-Ying Ho, Fong-Ying Yu, 2015-07-17 This book explores changing concepts of marriage and gender relationships and attitudes toward sex in a rural Chinese community over the past five decades The book is based on a study of an industrialized peasant village in Guangdong Province from 1994 to 1996 and subsequent visits from 2000 to 2002 According to the authors the rural economic reforms of the 1980s in southern China have challenged and reinforced the deep structure of Chinese familism and this has led to tensions between tradition and modernity The first section of the book explores how attitudes toward marriage and courtship have changed over the past fifty years through personal accounts of three different marriages from different generations In Part II the transition from a traditional to a modern society is discussed from the perspective of several women from different generations The third section focuses on sexual relationships and the growing sex trade in the village Part IV includes updates to the original survey and takes a look at village politics Women Through the Lens Shuqin Cui, 2003-02-28 *Women Through the Lens* raises the question of how gender especially the image of woman acts as a visual and discursive sign in the creation of the nation state in twentieth century China Tracing the history of Chinese cinema through the last hundred years from the perspective of transnational feminism Shuqin Cui reveals how women have been granted a privileged visibility on screen while being denied discursive positions as subjects In addition her careful attention to the visual language system of cinema shows how woman has served as the site for the narration of nation in the context of China's changing social and political climate Placing gender and nation in a historical framework the book first shows how early productions had their roots in shadow plays a popular form of public entertainment In examining the Red Classics of socialist cinema as a mass cultural form the book shows how the utopian vision of emancipating the entire proletariat women included produced a collective ideology that declared an end to gender difference Cui then documents and discusses the cinematic spectacle of woman as essential to such widely popular films as Chen Kaige's *Farewell My Concubine* and Zhang Yimou's *Ju Dou* Finally the author brings a feminist perspective to the issues of gender and nation by turning her attention to women directors and their self representations **Governing China's Population** Susan Greenhalgh, Edwin A. Winckler, 2005 *Governing China's Population* tells the story of political and cultural shifts from the perspectives of both regime and society Islamic and European Expansion Michael Adas, 1993-07-20 This volume of essays makes available the essential background information and methods for effective teaching and writing on cross cultural history The contributors some of the most distinguished writers of global and comparative history chart the advances in understanding in their fields of concentration revealing both

specific findings and broad patterns that have emerged The cover image The Arrival of the Dutch at Patane from Theodore de Bry India Orientals Part VIII Frankfurt W Richter 1607 depicts the two key phases of global history that are covered by the essays Muslim inhabitants of the town of Patane on the Malayan peninsula warily confront a Dutch landing party whose bearing suggests that it is engaged in yet another episode in the saga of European overseas exploration and discovery The presence of the Muslims in Malaya reflects an earlier process of expansion that saw Islamic civilization spread from Spain and Morocco in the west to the Philippines in the east in the millennium between the 7th and 17th centuries The Dutch came by sea to an area on the coastal and island fringes of Asia the one zone where their warships gave them a decisive edge in this era The citizens of Patane had good reason to distrust the European intruders since the Portuguese who had preceded the Dutch had used force whenever possible to control the formerly peaceful trade in the region and often to persecute Muslim Peoples Author note Michael Adas is Abraham Voorhees Professor of History at Rutgers University New Brunswick He is currently editor of the American Historical Association's series on Global and Comparative History and co editor of the Cambridge University Press series on Studies in Comparative World History He has published numerous articles and books including most recently with Peter Stearns and Stuart Schwartz World Civilization The Global Experience 1992 and Turbulent Passage A Global History of the Twentieth Century 1993 *Modern Chinese Religion II: 1850 - 2015 (2 vols.)*, 2015-10-20 The last of four two volume sets on the key periods of paradigm shift in Chinese religious and cultural history this book examines the transformation of values in China since 1850 in the secular realms of economics science medicine aesthetics media and gender and in each of the major religions Confucianism Buddhism Daoism Christianity as well as in Marxist discourse The nation and science are the values invoked most frequently with the market and democracy a distant second As in previous periods of fundamental change in Chinese history rationalization and secularization have played central roles but interiorization nearly disappears as a driving force Also in continuity with the past the state insists on an exclusive right to define and adjudicate orthodoxy Contributors include Daniel H Bays S bastien Billioud Adam Yuet Chau Na Chen Philip Clart Walter B Davis Arif Dirlik Thomas David DuBois Lizhu Fan David Faure Melissa Wei Tsing Inouye Ji Zhe Xiaofei Kang Eric I Karchmer Andr Lalibert Angela Ki Che Leung Xun Liu Richard Madsen David Ownby Ellen Oxfeld Volker Scheid Grace Yen Shen Michael Szonyi Wang Chien ch uan Xue Yu **The Cold War in Asia** Zheng Yangwen, Hong Liu, Michael Szonyi, 2010-02-16 The Cold War stayed cold in Europe but it was hot in Asia Its legacy lives on in the region In none of the three dominant historiographical paradigms orthodox revisionist and post revisionist does Asia or the rest of the Third World figure with much significance What happens to these narratives if we put them to the test in Asia This volume argues that attention to what has been conventionally considered the periphery is essential to a full understanding of the global Cold War Foregrounding Asia necessarily leads to a re assessment of the dominant narratives This volume also argues for a shift in focus from diplomacy and high politics alone towards research into the culture of the Cold War era and its public

diplomacy As a whole the essays contribute to enriching our understanding of what was really happening in an era that is too often understood in the catch all framework of the Cold War Akira Iriye Harvard University **Patriarchy** Pavla Miller,2017-06-14 Patriarchy particularly as embedded in the Old and New Testaments and Roman legal precepts has been a powerful organising concept with which social order has been understood maintained enforced contested adjudicated and dreamt about for over two millennia of western history This brief book surveys three influential episodes in this history seventeenth century debates about absolutism and democracy nineteenth century reconstructions of human prehistory and the broad mobilisations linked to twentieth century women s movements It then looks at the way feminist scholars have reconsidered and revised some earlier explanations built around patriarchy The book concludes with an overview of current uses of the concept of patriarchy from fundamentalist Christian activism over foreign policy analyses of oppressive regimes to scholarly debates about forms of effective governance By treating patriarchy as a powerful tool to think with rather than a factual description of social relations the text makes a useful contribution to current social and political thought *Women in the Face of Change* Annie Phizacklea,Hilary Pilkington,Shirin Rai,2013-10-08 The years 1989 and 1990 will probably be best remembered for the speed and breadth of political and economic change which swept through what used to be referred to as the Communist Bloc With the disintegration of this bloc there has been no shortage of western advice on how to democratize economy and politiy in these societies However little thought has been given to what this change means for the millions of women who have toiled for decades alongside men in the factories and fields as well as performing their womanly mission in the home This collection from women in Eastern and Western Europe and covering both Europe and China poses many questions about the impact of change It contributes to the debate that seeks to combat inertia and ethnocentrism within western feminism and also to the separate and the critical women s voice which is re emerging in the Soviet Union Eastern Europe and China
