Patriotic Economics How To Thrive While Helping America:

Patriotic Economics Jeffrey A. Rosensweig, Lori Sullivan, 2001-11 Donated by Tremendous Life Books **Al Islaam,**

Patriotism and the New World Order Hassan Shabazz, 2018-07-24 This book is a thesis on the 17th and 18th chapters of the Book of Revelations thru the lens of the Holy Qur'an and the teachings and commentaries of Imam W Deen Mohammed

The Patriotism of Despair Serguei Alex. Oushakine, 2011-02-23 The sudden dissolution of the Soviet Union altered the routines norms celebrations and shared understandings that had shaped the lives of Russians for generations It also meant an end to the state sponsored nonmonetary support that most residents had lived with all their lives How did Russians make sense of these historic transformations Serguei Alex Oushakine offers a compelling look at postsocialist life in Russia In Barnaul a major industrial city in southwestern Siberia that has lost 25 percent of its population since 1991 many Russians are finding that what binds them together is loss and despair The Patriotism of Despair examines the aftermath of the collapse of the Soviet Union graphically described in spray paint by a graffiti artist in Barnaul We have no Motherland Once socialism disappeared as a way of understanding the world what replaced it in people's minds Once socialism stopped orienting politics and economics how did capitalism insinuate itself into routine practices Oushakine offers a compelling look at postsocialist life in noncosmopolitan Russia He introduces readers to the neocoms people who mourn the loss of the Soviet economy and the remonetization of transactions that had not involved the exchange of cash during the Soviet era Moving from economics into military conflict and personal loss Oushakine also describes the ways in which veterans of the Chechen war and mothers of soldiers who died there have connected their immediate experiences with the country's historical disruptions The country the nation and traumatized individuals Oushakine finds are united by their vocabulary of shared pain

"Yes We Can" Wolfgang Mieder, 2009 As President Barack Obama outlined his promise for change during the presidential campaign he made effective use of proverbs and proverbial phrases and invented many quotable epithets that have all the makings of future proverbs This book examines how Obama's natural and authentic reliance on traditional metaphors enhances his impressive rhetoric rather than reducing it to mere sound bites Proverbs with their often colorful metaphors add expressiveness and emotion to his communications giving people the opportunity to follow his pragmatic or philosophical arguments through common language No matter the subject Obama's prose contains metaphorical language that makes his rhetoric and oratory universally accessible This book contains detailed analyses of the proverbial rhetoric in Obama's books *Dreams from My Father* 1995 and *The Audacity of Hope* 2006 A section looks at his proverbial language in 229 speeches news conferences interviews and radio addresses and the final section presents in depth studies of his seven most significant addresses It includes a comprehensive contextualized index of 1714 proverbial texts found within the writings and speeches from Obama's political beginnings to his memorable inaugural address **A Patriot's History of the United States** Larry Schweikart, Michael Allen, 2014-11-25 For the past three decades many history professors have allowed

their biases to distort the way America's past is taught. These intellectuals have searched for instances of racism, sexism, and bigotry in our history while downplaying the greatness of America's patriots and the achievements of dead white men. As a result, more emphasis is placed on Harriet Tubman than on George Washington, more about the internment of Japanese Americans during World War II than about D-Day or Iwo Jima, more on the dangers we faced from Joseph McCarthy than those we faced from Josef Stalin. A Patriot's History of the United States corrects those doctrinaire biases. In this groundbreaking book, America's discovery, founding, and development are reexamined with an appreciation for the elements of public virtue, personal liberty, and private property that make this nation uniquely successful. This book offers a long overdue acknowledgment of America's true and proud history. Authentic Patriotism Stephen P. Kiernan, 2010-05-06

Authentic Patriotism presents a provocative, inspiring account of our neglected American ideals and the people who are living them today. Patriotism has become a loaded word, one that is wielded against people with whom we might disagree or whose cultural origins don't match our own. But our founding fathers, Washington, Jefferson, Adams, and others, saw patriotism as a dynamic force, an act of service in an evolving nation that defined its purpose by offering all people a better way of life. In *Authentic Patriotism*, author and award-winning journalist Stephen P. Kiernan explores the original ideals that have been lost in our current climate, where war and economic turmoil have eroded our sense of civic obligation. Kiernan describes a nation adrift, out of touch with its origins, and then introduces a range of inspiring people who have revived our national purpose by taking action: The out-of-work college graduate who led an economic and environmental renewal of her blighted home community; The retired executive who pioneered a revolutionary concept in health care for people without insurance; The minister who created a legendary choir with the goal of uniting children of different races, genders, and classes in one voice; The family who donated their daughter's heart so that another might live. These and other New Americans are profiled in a book that offers hope, ideas, examples, and practical resources for readers who want to renew the American spirit. *A Patriot's Voice* Rick Santorum, 2015-07-25

Rick Santorum is a conservative committed to restoring the American dream for hardworking Americans. The runner-up for the Republican nomination for president in 2012 is running again and building grass-roots support. In this collection of columns from 2013, the former senator from Pennsylvania explains in his own words what he stands for and what his vision for America's future is. In 2012, Rick launched Patriot Voices, a community of Americans committed to promoting faith, family, freedom, and opportunity. And he has taken that message to the campaign trail, where he is a voice for the voiceless. A fierce defender of the unborn, Rick believes that strong families help produce a strong economy. He believes that renewing our country's manufacturing spirit would strengthen working families and help our struggling communities return to a path of prosperity during these tough economic times. We must not be the party of plutocrats, country clubbers, and corporate interests, Rick writes. We must focus on ways to deliver our vision for hope and opportunity for working Americans.
