The Societal Impact of Technology Savvas A. Katsikides, 2018-11-06 Published in 1998 This text is concerned with research issues within the context of the emerging information age The book draws together research which is devoted to key questions examining the relationship between the various and widely discussed developments of technological systems and their societal impacts Increasing interest and research into the information society and their euphorical assumptions is creating a wide spectrum of societal criticism Computer supported work for instance has led to the development of innovative organizational processes based on technological developments and communications paradigms In particular the focus is centred on the perspectives of such Networking Entities and their many varied implications The book links sociology with technology and aims to lead it to

wider discussions of the above issues **Territorial and Social Inequalities in Europe** Martin Heidenreich, 2022-10-28

This book examines social inequalities in Europe especially those caused by economic factors It starts with the paradox of European inequality where on the one hand even total income inequality in Europe is significantly lower than in most parts of the world but on the other Europe is also characterised by profound and durable inequalities within the continent It discusses inequalities caused by the exclusion of marginalised groups from the labour market with considerable and sometimes increasing differences between central and peripheral regions pronounced wealth and labour market inequalities and significant rates of persistent poverty deprivation educational poverty low wages and unemployment The book also discusses broader territorial inequalities which are the basis for divisions between Northern and Southern Europe East and West between qualified and unqualified employees younger and older people men and women and migrants and non migrants The book raises questions about the winners and losers of the social transformations linked to the introduction of the Euro the Eastern enlargement of the EU and the financial and Eurozone crises It is based on a comprehensive analysis of a European wide microdata set on income and living conditions EU SILC The empirical research material which is the first to deploy this data in a comprehensive manner consists of detailed empirical analyses of social divisions and Europeanisation processes in 30 European countries It analyses and explains the transformation of the previously dominant national spaces into a European social space This topical book is of interest to academics and students in the fields of sociology and comparative social sciences along with those studying European regional geography anthropology international relations and international politics European Labour Relations: Common features György Széll, 2001 With increasing economic political and social integration in Europe there comes a fundamental change in labour and industrial relations for example the introduction of the European Work Council This first volume gives an overview of common traits in industrial and labour relations around Europe and discusses specific terms **ECSM 2019 6th European Conference on Social Media** Wybe Popma, Stuart Francis, 2019-06-13 **Core-Periphery Patterns across the European Union** Adelaide Duarte, Gabriela Carmen Pascariu, 2017-08-25 In this new work Pascariu and Duarte along with an international group of acclaimed scholars delve into key challenges currently facing the European Union They Analyze the effect of peripherality across the EU regions which will be of great interest to those countries and regions facing a process of integration *Proceedings of The 11th European Conference on Social Media* Susana Pinto, 2025-06 The European Conference on Social Media ECSM is a well established academic conference held annually for over a decade with a focus on advancing research and dialogue around social media The primary aim of ECSM is to provide a platform for scholars researchers practitioners and industry professionals to share and discuss their findings on the multifaceted impacts of social media The conference emphasises the importance of understanding how social media influences various sectors including society education business and governance Normative Patterns and Legal Developments in the Social Dimension of the EU Ann Numhauser-Henning, Mia

Rönnmar,2013-06-28 This book explores the normative and legal evolution of the Social Dimension labour law social security law and family law in both the EU and its Member States during the last decade It does this from a wide range of theoretical and legal substantive perspectives The past decade has witnessed the entering into force of the Lisbon Treaty and its emphasis on fundamental rights a new coordination regulation within the field of social security Regulation 883 2004 EC and the case law of the Court of Justice of the European Union in the so called Laval Quartet Furthermore structural changes affecting demographics and family have also challenged solidarity in new ways The book is organised by reference to distinct normative patterns and their development in the fields of law covered such as the protection of established groups the position of market functional values and the scope for just distribution The book represents an innovative and important interdisciplinary approach to analysing EU law and Social Europe and contributes a complex yet thought provoking picture for the future The contributors represent an interesting mix of well known and distinguished as well as upcoming and promising researchers throughout Europe and beyond
