Walt Whitman and Modern Music Lawrence Kramer,2018-12-07 Walt Whitman s poetry especially his Civil War poetry attracted settings by a wide variety of modern composers in both English and German speaking countries The essays in this volume trace the transformation of Whitman s nineteenth century texts into vehicles for confronting twentieth century problems aesthetic social and political The contributors pay careful attention to music and poetry alike in examining how the Whitman settings become exemplary means of dealing with both the tragic and utopian faces of modernism The book is accompanied by a recording by Joan Heller and Thomas Stumpf of complete Whitman cycles composed by Kurt Weill George Crumb and Lawrence Kramer and the first recording of four Whitman songs composed in the 1920s by Marc Blitzstein

Masculinity in Opera Philip Purvis,2013-07-18 This book addresses the ways in which masculinity is negotiated constructed represented and problematized within operatic music and practice Although the consideration of masculine ontology and epistemology has pervaded cultural and sociological studies since the late 1980s and masculinity has been the focus of recent if sporadic musicological discussion the relationship between masculinity and opera has so far escaped detailed critical scrutiny Operating from a position of sympathy with feminist and queer approaches and the phallogocentric tendencies they identify this study offers a unique perspective on the cultural relativism of opera by focusing on the male operatic subject Anchored by musical analysis or close readings of musical discourse the contributions take an interdisciplinary approach by also engaging with theatre popular music and cultural musicology scholarship The various musical theoretical and socio political trajectories of the essays are historically dispersed from seventeenth to twentieth first century operatic works and practices visiting masculinity and the operatic voice the complication or refusal of essentialist

Musical Ekphrasis in Rilke's Marien-Leben Siglind Bruhn, 2000 In 1923 the twenty seven year old Paul Hindemith published a composition for voice and piano entitled *Das Marienleben* based on Rainer Maria Rilke's poetic cycle of 1912 Twenty five years later the composer presented a thoroughly revised partially rewritten version The outcome of this revision has been highly controversial Ever since its first publication musicologists have argued for or against the value of such a decisive rewriting They do so both by comparing the two compositions on purely musical grounds and by attempting to assess whether the more strictly organized tonal layout and dynamic structuring of *Marienleben II* is more or less appropriate for the topic of a poetic cycle on the Life of Mary This study is the first to analyze the messages conveyed in the two versions with an emphasis on their implicit aesthetic philosophical and spiritual significance Acknowledging the compositions as examples of musical ekphrasis a representation in one artistic medium of a message originally composed in another medium the author argues in exhaustive detail that the young Hindemith of 1922-23 and the mature composer of 1941-48 can be seen as setting two somewhat different poetic cycles This volume is of interest for musicologists and music lovers scholars of German literature and lovers of Rilke's poetry as well as for readers interested in the interartistic relationships of music and literature
