Greek Mythology Claude Calame,2014-06-26 Myths are not simple narrative plots In ancient Greece as in other traditional societies these tales existed only in the poetic or artistic forms in which they were set down To read them from an anthropological point of view means to study their meaning according to their forms of expression epic recitation ritual celebration of the victory of an athlete tragic performance erudite Alexandrian poetry antiquarian prose text in other words to study the functions of Greek myths in their permanent retelling and reshaping Falling between social reality and cultural fiction Greek myths were evolving creations constantly adapting themselves to new conditions of performance Using myths such as those of Persephone Bellerophon Helen and Teiresias Claude Calame presents an overview of Greek mythology as a category inseparable from the literature in which so much of it is found The French edition of this book was first published in 2000 **Poetry & Myth** Frederick Clarke Prescott,1927 **Greek Mythology and Poetics** Gregory Nagy,1992 Gregory

Poetics of Naming George Melnyk, 2003-10-20 The Poetics of Naming is a fascinating blend of postmodern philosophy and mysticism that challenges our conventional view of language It begins with the narrator's discussion of a multi faceted identity based on his name's Because this identity is multi lingual and multi national its layering of the self leads to a confrontation with language The narrator asks what is the relationship between language and truth The formative power of language is great but what happens when we become languageless The book becomes an expression of a mystical experience the narrator calls poesis in which he stepped outside of language Expressing this experience of languagelessness through language is the paradox at the core of the book To achieve a simulation of languageless reality the author uses a variety of linguistic techniques that uproot meanings break up words and reconstruct terms in novel ways Through deconstruction the metaphoric structure of language is revealed This metaphoric structure is itself approached metaphorically so that the reader begins to sense the trap of a linguistic universe from which there is no escape The book is a literary exercise that simulates the author's poesis experience for the reader Eventually the flood of words on the page begins to go out of focus and dissolve as the reader approaches languagelessness The Poetics of Naming is not for the faint of heart It challenges its readers to move away from the comfortable universe of ordinary language and its meanings and enter a world where the boundaries crumble like digital illusions and limitlessness appears on the horizon of consciousness Poesis is frightening frustrating and liberating

Myth and Poetics, 1994 **Orality and Narration. Performance and Mythic-Ritual Poetics in the Ancient World**, 2025-08-21 Myths can be defined as traditional stories that societies pass on from generation to generation constantly reinventing and reshaping them through oral written or visual representations Rituals and cults on the other hand are the festive celebrations that punctuate social life providing the occasion for the community to perform and reflect on mythic stories or mimetic plays about or by gods and heroes How do then the recent advances in narratology sociolinguistics and anthropology lead us to reconsider the complex relationships between myth and ritual in ancient traditional societies both literate and non literate The papers in this groundbreaking volume explore and compare these dynamic interactions across diverse cultures including archaic and classical Greece the ancient Near East and imperial Rome

Jakobsonian Poetics and Slavic Narrative Krystyna Pomorska, 1992 Krystyna Pomorska 1928 1986 a noted specialist of Slavic literature and literary theory is best known for her pioneering work in applying Roman Jakobson's theories of poetics to prose narratives This collection draws together and makes accessible her writings over two decades

among them articles appearing in English for the first time She treats a wide range of Slavic literary works including those by Pushkin Tolstoi Pasternak Chekhov and Solzhenitsyn as well as examples from Polish and Ukrainian literature and folklore Forming an intellectual and methodological whole these essays reveal Pomorska's commitment to the principles of Jakobsonian poetics her consistent application of these basic theoretical concepts to the analysis of literary works and her interest in the foundations and history of literary criticism Pomorska explores problems in both poetics of prose as well as poetry and literary theory especially the relationship between biography and myth In addition several studies are devoted to the roots of the variegated intellectual legacy of Roman Jakobson and by extension of Russian Czech structuralism in its various stages of development In Krystyna Pomorska structuralism found a most able practitioner and Jakobson's oeuvre an authoritative exponent and interpreter Her volume a guide book to a major strain in modern criticism will be of great interest to a broad audience of literary theorists and students of Slavic literatures and literature in general James Merrill,

Postmodern Magus Evans Lansing Smith, 2008-09 One of the unique voices in our century James Merrill was known for his mastery of prosody his ability to write books that were not just collected poems but unified works in which each individual poem contributed to the whole and his astonishing evolution from the formalist lyric tradition that influenced his early work to the spiritual epics of his later career Merrill's accomplishments were recognized with a Pulitzer Prize in 1977 for *Divine Comedies* and a National Book Critics Circle Award in 1983 for *The Changing Light at Sandover* In this meticulously researched carefully argued work Evans Lansing Smith argues that the nekylia the circular Homeric narrative describing the descent into the underworld and reemergence in the same or similar place confers shape and significance upon the entirety of James Merrill's poetry Smith illustrates how pervasive this myth is in Merrill's work not just in *The Changing Light at Sandover* where it naturally serves as the central premise of the entire trilogy but in all of the poet's books before and after that central text By focusing on the details of versification and prosody Smith demonstrates the ingenious fusion of form and content that distinguishes Merrill as a poet Moving beyond purely literary interpretations of the poetry Smith illuminates the numerous allusions to music art theology philosophy religion and mythology found throughout Merrill's work *The Discovery of the Mind* Bruno Snell, 2012-05-11 An illuminating and convincing account of the enormous change in the whole conception of morals and human personality which took place during the centuries covered by Homer the early lyric poets the dramatists and Socrates The Times London Literary Supplement European thinking began with the Greeks Science literature ethics philosophy all had their roots in the extraordinary civilization that graced the shores of the Mediterranean a few millennia ago The rise of thinking among the Greeks was nothing less than a revolution they did not simply map out new areas for thought and discussion they literally created the idea of man as an intellectual being an unprecedented concept that decisively influenced the subsequent evolution of European thought In this immensely erudite book German classicist Bruno Snell traces the establishment of a rational view of the nature of man as evidenced in the literature of the Greeks in the

creations of epic and lyric poetry and in the drama Here are the crucial stages in the intellectual evolution of the Greek world the Homeric world view the rise of the individual in the early Greek lyric myth and reality in Greek tragedy Greek ethics the origin of scientific thought and Arcadia Drawing extensively on the works of Homer Pindar Archilochus Aristophanes Sappho Heraclitus the Greek tragedians Parmenides Callimachus and a host of other writers and thinkers Snell shows how the Homeric myths provided a blueprint for the intellectual structure the Greeks erected how the notion of universality in Greek tragedy broadened into philosophical generalization how the gradual unfolding of the concepts of intellect and soul provided the foundation for philosophy science ethics and finally religion Unquestionably one of the monuments of the Geistesgeschichte History of Ideas tradition The Discovery of the Mind throws fresh light on many long standing problems and has had a wide influence on scholars of the Greek intellectual tradition Closely reasoned replete with illuminating insight the book epitomizes the best in German classical scholarship a brilliant exploration of the archetypes of Western thought a penetrating explanation of how we came to think the way we do **The Gift of Immortality** Stephen Murphy, 1997 This book considers the boast of literary power to glorify or immortalize a topos of enormous popularity Focusing on representative figures of Renaissance humanism and the roots of the topos in antiquity author Stephen Murphy elaborates a complex myth of poetic power This myth constructed with the help of such theorists as Ernst Cassirer Giambattista Vico Marcel Mauss and Theodor Adorno includes the elements of nostalgia for a primordial epoch of magical effectiveness and social centrality the ideal of patronage as gift exchange and the absorption of these extra literary circumstances into literary convention **The Poetics of Victory in the Greek West** Nigel James Nicholson, 2016 By setting epinician in dialogue with the colorful stories about athletes that circulated in the same period The Poetics of Victory in the Greek West offers a new and compelling account of the Deinomenids self promotion and of the complex communities within and around the Deinomenid empire
