Poetry Of The Revolution Marx Manifestos And The Avant Gardes:

Poetry of the Revolution Martin Puchner, 2006 Martin Puchner tells the story of political and artistic upheavals through the political manifestos of the 19th and 20th centuries He argues that the manifesto was the genre through which modern culture articulated its revolutionary ambitions and desires

Provisional Avant-Gardes Sophie Seita, 2019-07-23 What would it mean to be avant garde today Arguing against the notion that the avant garde is dead or confined to historically failed movements this book offers a more dynamic and inclusive theory of avant gardes that accounts for how they work in our present Innovative in approach Provisional Avant Gardes focuses on the medium of the little magazine from early Dada experiments to feminist queer and digital publishing networks to understand avant gardes as provisional and heterogeneous communities Paying particular attention to neglected women writers artists and editors alongside more canonical figures it shows how the study of little magazines can change our views of literary and art history while shedding new light on individual careers By focusing on the avant garde s publishing history and group dynamics Sophie Seita also demonstrates a new methodology for writing about avant garde practice across time one that is applicable to other artistic and non artistic communities and that speaks to contemporary practitioners as much as scholars In the process she addresses fundamental questions about the intersections of aesthetic form and politics and about what we consider to be literature and art

Globalizing the Avant-Garde David Ayers, Joana Cunha Leal, Benedikt Hjartarson, Margarida Brito Alves, 2024-12-16 How has the process of globalization shaped artistic practices on the one hand and art history and theory on the other The contributions in this volume approach this question from a range of perspectives taking into account the role of travel for example or practitioners increasing knowledge of other cultures art s increasing awareness of itself as existing on a global level literary translation the advance of technology and the ever changing grand narratives of art history As well as reflections on European avant gardes and neo avant gardes the collection features discussions of Japan Latin America Africa Asia and the Pacific As a whole the volume engages with broader current discourses about cultural globalization and features input from leading scholars around the world as well as some important novel interventions by early career researchers The authors not only make a major contribution to the evolution of avant garde studies but also offer valuable original points of view to art history and to the cultural theory of globalization more broadly

Surveying the Avant-Garde Lori

Cole, 2018-06-04 Surveying the Avant Garde examines the art and literature of the Americas in the early twentieth century through the lens of the questionnaire a genre as central as the manifesto to the history of the avant garde Questions such as How do you imagine Latin America and What should American art be issued by avant garde magazines like Im n a Latin American periodical based in Paris and Cuba s Revista de Avance demonstrate how editors writers and readers all grappled with the concept of America particularly in relationship to Europe and how the questionnaire became a structuring device for reflecting on their national and aesthetic identities in print Through an analysis of these questionnaires and their responses

Lori Cole reveals how ideas like American art as well as modernism and avant garde were debated at the very moment of their development and consolidation Unlike a manifesto whose signatories align with a single polemical text the questionnaire produces a patchwork of responses providing a composite and sometimes fractured portrait of a community Such responses yield a self reflexive history of the era as told by its protagonists which include figures such as Gertrude Stein Alfred Stieglitz Jean Toomer F T Marinetti Diego Rivera and Jorge Luis Borges The book traces a genealogy of the genre from the Renaissance paragone or comparison of the arts through the rise of enquetes in the late nineteenth century up to the contemporary questionnaire which proliferates in art magazines today By analyzing a selection of surveys issued across the Atlantic Cole indicates how they helped shape artists and writers understanding of themselves and their place in the world Based on extensive archival research this book reorients our understanding of modernism as both hemispheric and transatlantic by narrating how the artists and writers of the period engaged in aesthetic debates that informed and propelled print communities in Europe the United States and Latin America Scholars of modernism and the avant garde will welcome Cole s original and compellingly crafted work

Avant-Garde Canadian Literature Gregory Betts, 2013-02-27 In *Avant Garde Canadian Literature* Gregory Betts draws attention to the fact that the avant garde has had a presence in Canada long before the country s literary histories have recognized and that the radicalism of avant garde art has been sabotaged by pedestrian terms of engagement by the Canadian media the public and the literary critics This book presents a rich body of evidence to illustrate the extent to which Canadians have been producing avant garde art since the start of the twentieth century Betts explores the radical literary ambitions and achievements of three different nodes of avant garde literary activity mystical revolutionaries from the 1910s to the 1930s Surrealists Automatists from the 1920s to the 1960s and Canadian Vorticists from the 1920s to the 1970s *Avant Garde Canadian Literature* offers an entrance into the vocabulary of the ongoing and primarily international debate surrounding the idea of avant gardism providing readers with a functional vocabulary for discussing some of the most hermetic and yet energetic literature ever produced in this country

Dada and Its Later Manifestations in the Geographic Margins Ronit Milano, Raya Zommer-Tal, Noam Gonen, 2024-06-14 This volume focuses on the unstudied geographic margins of Dada delving into the roots of Dada in Israel Romania Poland and North America Contributors consider some of the practices and experiments that were conceived a century ago surfaced in art throughout the twentieth century and are still relevant today Unearthing its Israeli origins examining Dadaist expressions in Poland and shedding light on overlooked facets of Dadaist art in Romania and North America the authors cast a spotlight on the less explored geographical peripheries of Dada The book is organized around four

thematic trajectories space language materiality and reception which are dissected through the lens of micro histories Recognizing the continuing validity of questions raised by Dadaist artists this volume argues that Dada persists as an ongoing endeavor a continual reexamination of the fundamental tenets of art and its ever evolving potential manifestations The book will be of interest to scholars working in art history modernism and history of the twentieth and twenty first centuries

Philosophy as World Literature Jeffrey R. Di Leo, 2020-11-26 What does it mean to consider philosophy as a species of not just literature but world literature The authors in this collection explore philosophy through the lens of the worlding of literature that is how philosophy is connected and reconnected through global literary networks that cross borders mix stories and speak in translation and dialect Historically much of the world's most influential philosophy from Plato's dialogues and Augustine's confessions to Nietzsche's aphorisms and Sartre's plays was a form of literature as well as by extension a form of world literature *Philosophy as World Literature* offers a variety of accounts of how the worlding of literature problematizes the national categorizing of philosophy and brings new meanings and challenges to the discussion of intersections between philosophy and literature

Specters of World Literature Mattar Karim Mattar, 2020-04-02 At the heart of this book is a spectral theory of world literature that draws on Edward Said Aamir Mufti Jacques Derrida and world systems theory to assess how the field produces local literature as an *other* that haunts its universalising assimilative imperative with the force of the uncanny It takes the Middle Eastern novel as both metonym and metaphor of a spectral world literature It explores the worlding of novels from the Middle East in recent years and focusing on the pivotal sites of Middle Eastern modernity Egypt Turkey Iran argues that lost to their global production circulation and reception is their constitution in the logic of spectrality With the intention of redressing this imbalance it critically restores their engagements with the others of Middle Eastern modernity and shows through a new reading of the Middle Eastern novel that world literature is always already haunted by its others the ghosts of modernity
