Question De Dieu Selon Aristote Et Hegel:

La Question de Dieu selon Aristote et Hegel Guy Planty-Bonjour, 1991 Deux grands philosophes Aristote et Hegel s'interrogent sur la question fondamentale de la philosophie Qu'est-ce que Dieu Ces deux grands esprits s'accordent pour dire que Dieu est l'Être le plus excellent Aristote l'Absolu l'Idée ternelle Hegel On mesure l'intérêt philosophique qu'il y a à suivre ces deux démarches si distinctes et pourtant si convergentes Le philosophe de l'Entendement présente Dieu comme identifié de la Pensée pendant que le philosophe de la Raison place la contradiction jusque dans l'Absolu La question des rapports entre le monde et Dieu conduit à interroger sur ce que depuis Heidegger on appelle l'ontothologie La réponse de Hegel ne recouvre pas parfaitement celle d'Aristote Enfin la place de Dieu dans le monde humain est envisagée sous le triple aspect de la téléologie du comportement éthique et de la vie dans la Cité

Hegel and Aristotle Alfredo Ferrarin, 2001-01-29 Hegel is arguably the most difficult of all philosophers To find a way into his thought interpreters have usually approached him as though he were developing Kantian and Fichtean themes This book demonstrates in a systematic way that it makes much more sense to view Hegel's idealism in relation to the metaphysical and epistemological tradition stemming from Aristotle The book offers an account of Hegel's idealism in light of his interpretation discussion assimilation and critique of Aristotle's philosophy There are explorations of Hegelian and Aristotelian views of system and history being metaphysics logic and truth nature and subjectivity spirit knowledge and self knowledge ethics and politics No serious student of Hegel can afford to ignore this major interpretation It will also be of interest in such fields as political science and the history of ideas

Models of the History of Philosophy Gregorio Piaia, Giuseppe Micheli, Giovanni Santinello, 2022-03-08 This is the fourth volume of Models of the History of Philosophy a collaborative work on the history of the history of philosophy dating from the Renaissance to the end of the nineteenth century The volume covers the so-called Hegelian age in which the approach to the past of philosophy is placed at the foundation of doing philosophy up to identifying with the same philosophy A philosophy which is however understood in a different way as dialectical development as hermeneutics as organic development as eclectic option as a philosophy of experience as a progressive search for truth through the repetition of errors The material is divided into four large linguistic and cultural areas the German French Italian and British It offers the detailed analysis of 10 particularly significant works of the way of conceiving and reconstructing the general history of
