Ralph Fitch, Elizabethan in the Indies Michael Edwardes, 1972-01 **The Indian Ocean in the Making of Early Modern India** Pius Malekandathil, 2016-09-13 This volume looks into the ways Indian Ocean routes shaped the culture and contours of early modern India It shows how these and other historical processes saw India rebuilt and reshaped during late medieval times after a long age of relative stagnation isolation and backwardness The various papers deal with such themes including interconnectedness between Africa and India trade and urbanity in Golconda the changing meanings of urbanization in Bengal commercial and cultural contact between Aceh and India changing techniques of warfare representation of early modern rulers of India in contemporary European paintings the impact of the Indian Ocean on the foreign policies of the Mughals the meanings of piracy labour process in the textile sector Indo Ottoman trade Maratha French relations Bible translations and religious polemics weapon making and the uses of elephants The book will be of interest to students and scholars of early modern Indian history in general and those working on aspects of connected histories in particular **The Invention of China in Early Modern England** Jonathan E. Lux, 2021-11-01 The Invention of China in Early Modern England describes how several different English communities became aware of China It begins by describing how early modern intellectuals used the utopian ideal of China to license all kinds of progressive innovation before chronicling how England's growing commerce in southeast Asia radically changed China's representation in the English discourse community For the new community of English merchants proposing to trade in Chinese goods China became the seminal example in the growing discourse community of English Orientalism It was an absolute or arbitrary authoritarian state associated with crooked business dealings and cloaked in a rhetoric of secrecy and exclusion a dangerous exception to the traditions values and identities of the emergent English speaking states Finally the book points out some of the ways that contemporary English language sources continue to represent this early modern English thought tradition labelling the complexities of modern China with analytical vocabulary perhaps better suited to the pressing political anxieties of the seventeenth century [Christian-Muslim Relations. England in the Age of Shakespeare Jeremy Black,2020-03-04 A social history of Renaissance England that raises the curtain on the cultural influences that inspired Shakespeare s plays How did it feel to hear Macbeth s witches chant of double double toil and trouble at a time when magic and witchcraft were as real as anything science had to offer How were justice and forgiveness understood by the audience who first watched King Lear how were love and romance viewed by those who first saw Romeo and Juliet In England in the Age of Shakespeare Jeremy Black takes readers on a tour of life in the streets homes farms churches and palaces of the Bard s era Panning from play to audience and back again Black shows how Shakespeare s plays would have been experienced and interpreted by those who paid to see them From the dangers of travel to the indignities of everyday life in teeming London Black explores

the jokes political and economic references and small asides that Shakespeare's audiences would have recognized. These moments of recognition often reflected the audience's own experiences of what it was to, as Hamlet says, grunt and sweat under a weary life. Black's clear and sweeping approach seeks to reclaim Shakespeare from the ivory tower and make the plays' histories more accessible to the public for whom the plays were always intended.

Desiring India:

Representations through British and French Eyes 1584-1857 Niranjana Goswami, 2020-01-01. The reception and construction of the image of India by the West—in particular French, German, and English travellers, writers, and thinkers—is the theme of this volume, a collection of twelve essays by academics from sundry parts of the globe. Giving a new twist to Indological, philological, or postcolonial understanding of travel narratives, the authors here attempt to give fresh impetus to the discovery of India's story from perspectives of cultural history, historiography, ethnography, material culture, economic modes of production, fictional travel, epistolary discourse, theatrical representation of widowhood, women in the Mutiny, feminist reading of the Mughal court, colonial painting, and classical music. Circumscribed by the dates of the arrival of Ralph Fitch, the first English traveller, and the Mutiny, the first War of Indian Independence, this anthology revives an interest in the early modern to the colonial appropriation of India in the Western imaginary.
