mecca **Tall Buildings and the City** Kheir Al-Kodmany, 2020-07-09 The chaotic proliferation of skyscrapers in many
cities around the world is contributing to a decline in placemaking This book examines the role of skyscrapers and open
spaces in promoting placemaking in the city of Chicago Chicago's skyscrapers tell an epic story of transformative
architectural design innovative engineering solutions and bold entrepreneurial spirit The city's public plazas and open spaces
attract visitors breathe life and bring balance into the cityscape Using locational data from social media platforms including
Twitter Facebook and Instagram along with imagery from Google Earth fieldwork direct observations in depth surveys and
the combined insights from architectural and urban design literature this study reveals the roles that socio spatial clusters of
skyscrapers public spaces architecture and artwork play to enhance placemaking in Chicago The study illustrates how
Chicago as the birthplace of skyscrapers remains a leading city in tall building integration and innovation Focusing on some
of the finest urban places in America including the Chicago River the Magnificent Mile and the Chicago Loop the book offers
meaningful architectural and urban design lessons that are transferable to emerging skyscraper cities around the globe

No Boundaries Lillian Hoddeson, 2004 Like any great university the University of Illinois owes its prominence to the
excellence of its faculty In Lillian Hoddeson's *No Boundaries* twenty three scholars provide easily accessible vignettes about
University of Illinois faculty who have made major contributions to their fields to knowledge and to the world Here are many
of the most inspiring and often most amusing people whose work elevated the University of Illinois into a world leader in a
variety of areas Their lives demonstrate again and again that the work of the University takes place as much away from
campus as on it Oscar Lewis's pioneering studies of poverty in Mexico for example Ralph Grim's geological work in Africa
and Nathan Newmark's architectural work in Mexico City Here also are insights into the remarkable careers of classicist
William Oldfather chemist Roger Adams the amazing double Nobel Prize winning physicist John Bardeen and accounts of
Katharine Sharp's work that made the University of Illinois Library into a national treasure Also included are the legendary
contributions of the University of Illinois to computer science biochemistry history literary study and electronic music

The Natural City Ingrid Leman Stefanovic, Stephen Bede Scharper, 2011-12-10 Urban and natural environments are often
viewed as entirely separate entities human settlements as the domain of architects and planners and natural areas as
untouched wilderness This dichotomy continues to drive decision making in subtle ways but with the mounting pressures of
global climate change and declining biodiversity it is no longer viable New technologies are promising to provide renewable
energy sources and greener designs but real change will require a deeper shift in values attitudes and perceptions A timely

and important collection The Natural City explores how to integrate the natural environment into healthy urban centres from philosophical religious socio political and planning perspectives Recognizing the need to better link the humanities with public policy The Natural City offers unique insights for the development of an alternative vision of urban life
